

BRIGHT AND EARLY NEXT MONDAY MORNING

WE BEGIN GIVING AWAY THAT FREE HARNESS

Come in any day before the sale and make your reservation. If you haven't read our ads lately and don't know what we are talking about, you will make money by asking us.

ARE YOU INTERESTED IN

POWER SPRAYERS

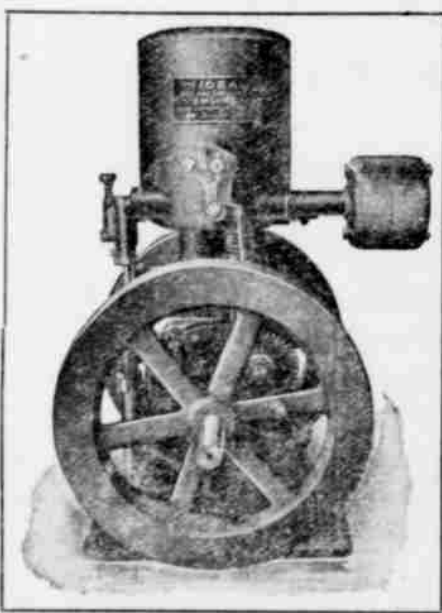

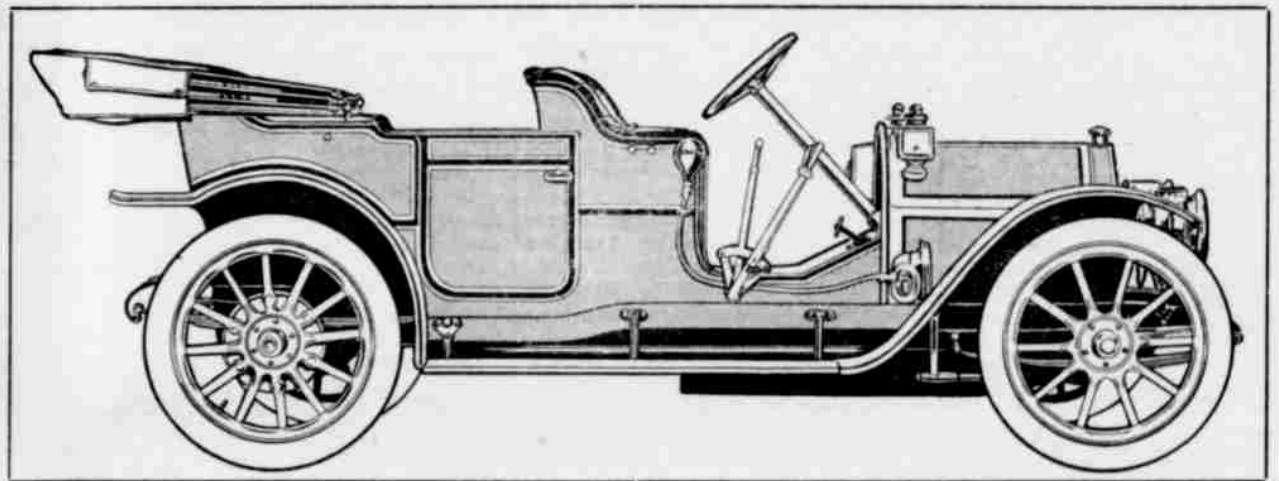

Well, so are we! We're glad to talk on interesting subjects any time. Incidentally, we think "The Hardie" is the best Power Sprayer ever made.

And Perhaps You Are Interested in

AUTOMOBILES

Well now! this *is* getting interesting! We feel right at home on this subject. Yes, Hood River has quite

a few cars for a town of its size. But by this time next year, there will be two where there is only one now. Perhaps you have noticed that Hood River is--like Portland--a **CADILLAC** town. Yes, we handle other cars besides the Cadillac--we are agents for the Chalmers Detroit and Hudson Twenty. The demand this year far exceeds the supply, and we are afraid we will have to disappoint some purchasers if they don't order pretty soon now. We already have several contracts.

Speaking of Automobiles brings up the subject of

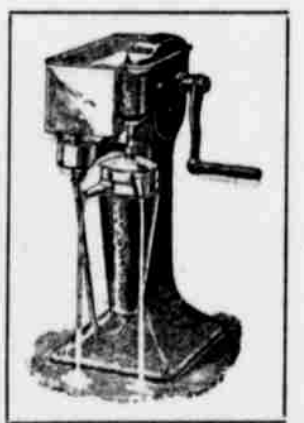

Gasoline Engines

Did you ever stop and think what a handy thing a Gas Engine is on a farm? Yes, we admit lots of people cannot get perfect satisfaction out of them--but that's because they don't use the "IDEAL." It is a very simple engine to understand and doesn't need an expert to operate it. Beg pardon? Sure we sell them.

One of the uses of the Gasoline Engine on the farm is to operate

Sharples Separators

They are usually sold for hand power, but its a very simple matter to put a pulley on them and use an engine. The separator itself is the leader in its line. It is not a Cheap John Affair, having a multitude of discs in its mechanism.

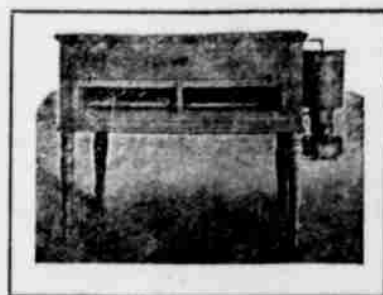

THE SHARPLES HAS ONLY THREE PARTS
WHICH NEED SCALDING AFTER USE TO KEEP IT
CLEAN AND SWEET.

Another Interesting Subject Especially at This Time
of the Year is

INCUBATORS

Nearly every farm has its chicken yard. An Incubator is not a luxury--it's a necessity, whether you are in the business on a large or small scale. Our line is the PETALUMA.

An Incubator Is Not Complete Without
One of Our

BROODERS

Made by the oldest manufacturers of Poultry Supplies in the world--The Petaluma Incubator Co. of Petaluma, California. We have a complete line on display for your inspection.
