**MAN BIRD WILL
FLY AT PORTLAND**
The people of Oregon, Washington
and the Pacific Northwest will have
an opportunity to see a man bird in
actual flight. Lots of us have read
about flying machines and it is the
desire of every one to see one of these
soaring across country, disputing for
space in the heavens with the clouds,
and making speed that will put the
fastest bird in the world to shame.
There will be a big aviation meet
at Portland on March 5, 6, and 7,
which will be the first chance that
has been given the people of this part
of the country to see this actual mar-
vel. People who talked of flying
machines five years ago were consid-
ered dreamers, but it is guaranteed
by the business men of Portland who
are back of the flying machine meet
that unless there are genuine cross
country and high altitude flights
ticket money will be refunded.
Charles K. Hamilton, the daring avi-
ator who, operating a Curtiss biplane,
holds the world's record for high
speed with a mile in 1:37, the world's
slow speed, which is more difficult,
a mile in 4 minutes, will try to take
the high altitude record at the Port-
land meet. Because of the stillness
of the air currents around Portland,
he believes he can do this.
Railroad rates of one and one-third
fare have been secured on all rail-
roads leading into Portland. Rates
extend to Medford on the south and
The Dalles to the east. Every person
in the state will have an opportunity
to witness this great event.

New Buildings for U. of O.
Two new buildings, made necessary
by the rapid growth in enrollment,
are to be erected at the University of
Oregon according to the decision
reached by the Board of Regents at
their semi-annual meeting held in
Eugene last Saturday. The first of
these will be an Administration
Building, to contain the President's,
University Steward's and the Regis-
trar's offices on the first floor and an
auditorium on the second. The sec-
ond building will consist of class
rooms exclusively. The Regents
found that with the present enroll-
ment, a number of instructors have
no permanent recitation room, but
hold their classes in any room where
opportunity will permit. The erec-
tion of an Administration building
will leave all of Villard Hall, in which
the present offices are situated, free
for additional class rooms, and the
Condon Geological collection, the
most valuable of its kind on the
Pacific coast, which is now crowded
in a room containing about one-
third the space needed, will probably
be placed in the present assembly
hall on the second floor of Villard.
