Putting Up Prescriptions

That is our business and our specialty

Prescribing medicines is the doctor's business and specialty. We work together, each specializing in his own line, and you get the greatest benefit in the end by first going to a doctor, having him diagnose your trouble, prescribing for you, and then coming here and getting what the doctor ordered.

Have your medicines properly prepared, and especially for yourself, and you will have much less medicine to take in the end.
