the home of the secretary, R. J. McIsaac.

We have heard that the Parkdale school has invited the Mount Hood school to unite with them in a picnic at Parkdale on the closing day of school, May 20th.

John Cooper's new house is nearing completion. It is going to be a very pretty little bungalow, and adds much to the appearance of that section. Johnny has recently planted 1400 apple trees on his homestead. His parents, Mr. and Mrs. D. R. Cooper, are making their home with him at present.

Rev. VanNuys held morning services at Parkdale Sunday, at which he preached a very practical temperance sermon. The singing was led by a male choir consisting of Messrs. Mark, Rae Babson, Moody and Goldsby. Mr. Park sang a solo which was much appreciated by the audience. Mr. McGuffey presided at the organ.

The residents of the Upper Valley enjoyed the recent meeting of the Presbytery with the Mount Hood and Parkdale churches. There were daily services at both places and it was our privilege to listen to many good sermons from a body of exceedingly bright men, who made evident their earnestness in the Lord's work. We hope to have them again some time.

BARRETT

F. H. Miller and family visited with E. C. Miller's at Mt. Hood last Sunday.

Roy Smith is busy setting out more trees. He is seeding eight acres to alfalfa this spring.

Barrett district is interested in a high school. The sentiment is strongly in favor of a union or county high school.

Prof. C. D. Thompson will conduct eighth grade examination Thursday and Friday of this week at the Barrett school house.

Miss Hulda and Clara Henriks left Saturday evening for a visit to their uncle and aunt in Germany. They expect to be gone eight months.

Park Grange will hold an all day meeting next Saturday and will have a big basket dinner. All members of the order should be present. Arrangements will be made for the celebration of the Fourth of July.

Union Wants Applicants for Pickers

The labor bureau established by the Hood River Apple Growers' Union is still in receipt of many applications for work, but so far have received but few applications from berry growers in the valley for help. The management of the union calls attention to the necessity of growers putting in their applications for help as soon as possible in order that they may be supplied. Attention is also called to the fact that berries are ripening very fast and that an early season will make it necessary to secure pickers at once.

Nichol Sells Valley Fruitland

Real estate sales reported by W. S. Nichol during the week are 10 acres belonging to N. W. Bone for \$10,000, 80 acres of Charles Slutts place for \$5,200 and 54 acres of the L. M. Nichol place for \$4,000.

The building formerly occupied by O. P. Dabney has been moved around on Cascade avenue and placed in position for occupancy.

THOUGHT HE HAD 'EM.

The Surprise That Greeted Him After His Debauch.

A millionaire who had queer ideas of humor and the means to carry them into effect lived in great style near Monte Carlo. This man had an ivory white villa on a gray crag in a garden of palms and roses, fronting the sun and sunlit sea. Here he would entertain his friends with practical jokes.

One night, after roulette at the casino and supper at Ciro's, a party of young men were taken to the villa. A certain young man had drunk a little too much vintage champagne at the elegant restaurant, and him the host resolved to play one of his jokes upon. So when the young man fell asleep in the billiard room two servants, repressing their smiles, carried him away.

The other guests were awakened the

next morning by the host in person. He led them through sunlit marble

corridors, through rooms whose walls of glass gave views of the blue Mediterranean, of sailing ships, rose gardens and the faroff maritime Alps, with their pale snow caps. Finally he brought them to a peephole.

The scene they saw through their peephole was absurd. A dazed man in evening dress, slowly waking to consciousness, lay on a white plastered floor and looked up in horror at a carpeted ceiling. A massive bed, a bureau, washstands and armchairs, all securely fastened, stared down at him from above. His eyes rested on a huge tub directly over his head, in which a fine palm was growing downwards. He gave a yell of terror, rolled over and clutched with frenzied hands the stem of the chandelier, which came up through the plastered floor.

Thereupon the practical joker of a host burst, with a loud laugh, into the room.

"They all do it!" he cried. "They all without exception grab the chandelier for fear they will fall up to the ceiling!"

Be Considerate.

We lose trust in each other not through the faults of our neighbors, but because of our own exactions. We expect too much from others, too little from ourselves, always viewing our friends from our standpoint, forgetful of the suffering, the worry and the toil which demand attention on our right and left.
