Hood River :: :: Oregon

Correspondence

PINE GROVE

Peter Mohr, Sr., had a severe attack of stomach trouble last week, but is now improving.

Mr. and Mrs. Manning from Hood River were callers at the home of Mr. and Mrs. Tomkins Sunday.

The Ladies' Aid will hold their business meeting at the home of Mrs. Mabel Lage Friday afternoon of this week.

Rev. H. A. MacDonald, pastor of the Unitarian church of Hood River, was a pleasant caller among friends in this vicinity recently.

Frank Jarvis arrived from eastern Oregon last Friday, for a brief visit with his friends here, leaving Sunday evening for Fisher, Minnesota.

Mr. Haner and family from Portland have rented the house owned by J. O. Mark, which was vacated by Mr. Walker's family last winter.

The many friends of W. C. Gilmore in our community exceedingly regret his resignation as pastor of the Congregational church in Hood River. He has made many warm friends here as well as in other places. May success attend his efforts wherever he may go.

The W. C. T. U. ladies met for a business session with Mrs. James Malloy Friday afternoon of last week. During the busy season they will suspend their meetings. A special meeting, however, may be called in June to make arrangements for a lawn social in the near future including refreshments and literary exercises.

The entertainment held at the grange hall Friday evening by the graduates of Hood River was one of the best ever given here. The receipts amounted to \$120.

Rev. Hayes, the new pastor of the Methodist church at Pine Grove, occupied the pulpit Sunday morning, assisted by the retiring pastor, Rev. Spaulding, who with his family leaves this week for his new field of labor in Dayton, Wash. The church was filled. Special music was prepared for the occasion.

Mrs. J. L. Davis leaves this week for a visit with friends in Portland and Newberg. Miss Lillian Horton will accompany her down the Columbia and return to her home in Eugene, Ore. Miss Horton was teacher in the intermediate department, the school, as a whole, closing a very successful term Friday of last week.

Taxing The Farmer

The assessed values of merchandise in Oregon are a little less than twenty-five million dollars. The assessments on farm improvements added to farm machinery and vehicles crowd twenty-six millions. Then the farmer pays taxes on livestock on over twenty-three millions. He objects to being relieved of taxes on nearly fifty million dollars' worth of personal property and improvements, as his brother farmer is in Canada, in order to get at the rich merchant for taxes on his stock. It is to be hoped that the first principles of bookkeeping are taught in our agricultural colleges, for there is some need of figuring on taxation being performed by the farmer.

D. D. Hall, of Mosier, was here Saturday on a business visit.

MARRIED

Metcalf-Hackett

The home of Mr. and Mrs. Chas. Metcalf, in the Belmont district was the scene of a very happy wedding Wednesday evening, May 22, 1910, when Miss Mildred E. Metcalf, their daughter, and Henry Hackett were married.

Mrs. Holden, sister of the groom, presided at the piano, and played the wedding march, while the best man was William Metcalf. Miss Edith Andrews was bridesmaid and Frances May Darling ring bearer. The wedding party took their places near a canopy of green and white while Rev. W. C. Gilmore solemnized the service.

The bride wore white swiss with lace, the bridesmaid white. Roses and carnations were carried. The home was artistically decorated with white and green and delicately colored electric shades. A large number of friends and relatives were present. Mr. and Mrs. Hackett are highly respected young people here and will reside in Hood River. They have the heartiest congratulations of their many friends.

OBITUARY

Pearl H. Coons

Pearl H. Coons, was born in Licking, Texas county, Mo., March 7th, 1890, and passed away from earth to his eternal home on the tenth day of May, 1910.

He grew up in the christian home of the Rev. and Mrs. C. E. Coons, as parents who loved him with a true parental affection, and were devoted to him as a son who found pleasure in obeying them, and whose kindness of spirit, gentle manners and beautiful life, afforded them great satisfaction.

He had in his childhood and youth, all the advantages of a good home, church and school, and these institutions exerted a gracious influence over his character and life.

In early life, at the age of nine years, he made a profession of the christian faith, in which he lived the life of an earnest, sincere christian until the time of his departure.

He moved with his loved ones to Oregon, and settled in Hood River, his last earthly home, where he engaged in business until his health failed, and he was compelled to give up the career of a business man to which he had looked forward with joyful anticipation.

On December 20th, 1908, he was happily united in marriage with Miss Letha Cunningham, of this city, who proved a true companion, and in patience and fidelity, watched with him during the months of his illness, and was by his side when he closed his eyes in the sleep of death, and now mourns the loss of her beloved. She, too is a christian, and lives in hope.

Pearl was an obedient child, faithful, industrious and uncomplaining, cheerful, even until it was night, the night of death, and he died peacefully and in the triumph of the simple faith of his boyhood. He is missed by his loved ones and his pastor and brethren of the church, but they wait in hope of the resurrection of the dead.

"Farewell, Pearl! You will never come back here to live, but we will go to you, and live forever!" is the motto of his loved ones who mourn.

T. B. Ford,
Pastor.

Have a Genuine
Water Supply
In Your Home

Farm, Village or Suburban

If you could look in at the windows of this beautiful country home you would catch glimpses of the kind of comfort, enjoyment and prosperity that an abundance of pure water, cold or hot, actually helps to produce.

No Attic Tank
The tank is usually located in the basement, where machinery may be buried in the ground as further protection against frost. Fire protection is also one of the strong points of the Leader System when installed in public institutions or municipalities.

Supply System does all a city system can do--it will even supply a town. For most modest homes, for mansions, large farms, public institutions or municipalities, the Leader System is most simple, complete, satisfactory.

Most Simple and Complete
It takes water from whatever source is available--spring, well, stream or lake; close at hand or at a distance; brings the water into a steel tank at the same time pumping air into the tank, thus forcing the water down forcing the water.

Why We Can Guarantee
The complete apparatus is made right in our own immense works. We put in a perfect system.

This interesting book, "How I Solved the Water Supply Problem," tells what's needed for one man. Just send for it, anyway, TODAY.
