*The Latest and Greatest Step in the Construction of*

## Cream Separators

### TABULAR SEPARATORS

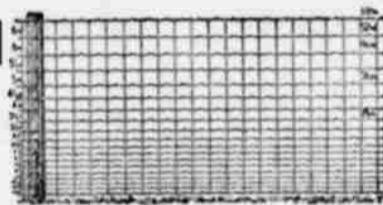

are a distinct era in dairy separator construction. Separators of greater capacities than those formerly necessarily driven by steam are now easily driven by hand. We want to explain to you why this is true, but space is limited. Send for our catalogue telling all about

## Sharples Separators

or call and see them on our floor.

**PITTSBURGH PERFECT FENCE**

**COILED SPRING FENCE**

We expect to handle but one line of wire fencing in the future—the Pittsburgh Perfect Electric Welded Fence. We have in stock at present a large lot of Kitzelman Bros. coiled spring fencing, and will sell it at your own figures. We want to cut down our stock of this fence, and will accept any reasonable offer. Have an excellent assortment of styles and heights. Send for catalogue and prices—we will be glad to mail them to you absolutely free.

We are the local agents for the
