CANDIDATE ABRAHAM SPRINGS NEW ISSUE

Senator Albert Abraham, candidate for the republican nomination for governor on the "Hughes-Taft-Roosevelt" plan, was here Monday greeting the various business men with whom he became acquainted. Senator Abraham arrived from Portland by the 1 p. m. train.

While in Portland he conducted a vigorous campaign from an automobile, visiting most of the suburbs and speaking every night at prominent down-town streets. Saturday night he spoke at Astoria, addressing both the fishermen and an open-air street meeting.

While he is an anti-assembly candidate, Senator Abraham says he believes in primary organization. He says he thinks the ideas of the assembly are right but that it went about matters in the wrong way.

He is supporting a proposed amendment to the Direct Primary law. This amendment is based on the Hughes plan. By its provisions at the primaries, the people will elect committees, which are large and representative, and the members of which go on the ballot by petition.

At some time before the ensuing primary, these committees meet and "designate" candidates for each office. Candidates so "designated" go on the ballot without the necessity of circulating petitions. Other candidates are not however prevented from circulating petitions and so going on the ballot. At the primary the people are then able to consolidate on the candidate they support and may afterwards elect him at the general election.

"By this plan," said Senator Abraham, "you have government by the people through the party. I believe the people should rule but I am a firm believer in the necessity of party organization. Without the Hughes plan we cannot have this organization, yet by directly appointing their representatives, the people are in control the whole time."

NORTHWEST NOTES

Portland, Or., Sept. 13—(Special)—Members of the Board of Army Engineers have inspected the Umatilla irrigation project during the past week and upon their report depends Oregon's chance of sharing in the \$20,000,000 bond issue proposed for the completion of reclamation projects already under way. The inspectors declined to make any statement but it is regarded as certain that their report will be favorable. They went carefully over the district and saw thriving orchards, alfalfa fields from which three crops have been cut, and gardens filled with fine vegetables. Reclamation Service officials told the engineers that conditions on the proposed extension of the project are more favorable than those on the district where reclamation work has already proved so successful. The extension of the project will irrigate 60,000 acres additional.

Portland's harvest festival, which was the big feature of the past week in Portland, was the most successful such event in the history of the city. The crowds were the biggest ever attending any similar affair in the state, with the exception of the livestock show at the Lewis & Clark fair. The stock was of a very high class and the races were run for the biggest purses ever offered in the Northwest. The support given the fair was gratifying and plans are being outlined for a \$1,000,000 livestock show next year.

Improvements going forward in Eugene and Medford are summarized and brought to the notice of people interested in those communities through the local papers by Managers Freeman and Malboeuf of the commercial clubs of these two thriving cities. The plan is an excellent one and serves as an eye-opener to people at home who do not realize the extent of local betterments until the matter is called to their attention.

The Oregon & Western Colonization Company, which recently acquired the big Cascade wagon road grant and will open up 800,000 acres to settlement, has appointed Earl L. Marvin, formerly state land agent for Idaho, manager of the property, and the lands are now being appraised preparatory to opening them up for settlement. The possibilities of irrigation on the lands are being considered by the owners.

Bend is going to get valuable advertising in the East by making a complete exhibit in the Oregon car to be shown by the Hill interests. A splendid collection of products grown around Bend will be included in the exhibit, which will be an object lesson in what Oregon farms can grow. It is certain to get good results. Every Oregon town should have a like showing.

Beautification of railroad stations in Oregon is planned by the Harri-

man lines and W. C. Chace has been appointed official landscape architect. Eugene was the first city in the city to adopt modern landscaping for its depot grounds and others will follow suit.

Clarke for State Printer

If State Printer Dunlway has made a saving to the taxpayers of the state of \$40,000 in three years why does he not show it by facts and figures? All this great saving is credited to utterances by the state

press through articles probably written or inspired by the state printer himself. In fact, all such savings were made by the secretary of state under conditions over which Dunlway had no control. The figures quoted by William J. Clarke, the Republican, flat salary candidate, who stands alone as pledged to this great reform, are taken from the records in the secretary of state's office. They are "material and contain facts and figures which the voter and taxpayer should know," says Judge Galloway

(democratic) circuit judge of the third district.*

Notice to Apple Packers

The Apple Growers Union requests all packers who want to pack apples this fall to call at the office of the union and register their names and place of residence. Good pay and a long season of work guaranteed all experienced packers.

If it's a surface to be painted, enameled, stained, varnished or finished in any way, there's an Acme Quality Kind to fit the purpose.

5 Strong Reasons for Fall Painting

1. The wood is thoroughly dry.
Summer's sun has removed all moisture.
2. Paint penetrates deeper into dry wood.
The deeper it goes the better it holds.
3. Fall weather is warm, dry and dependable.
Little danger of cold, damp, rainy days, which endanger the durability of the paint.
4. Wet weather decays and destroys unprotected surfaces.
Lack of paint means unsightly and less valuable property.
5. Fall painting keeps out winter moisture.
The greatest enemy to the life and beauty of all structures.

Ask us about **ACME QUALITY HOUSE PAINT**. It insures the greatest protection and beauty, at the least cost per year of service. Questions cheerfully answered.
