HOOD RIVER GIRL WINS SCHOLARSHIP

Miss Lena Newton, formerly of Hood River, now a student at the University of Oregon, won the scholarship in music at that institution recently. Competition for this scholarship was unusually keen, more than the usual number of aspirants trying for the honor this fall, but Miss Newton's unusual talent was shown at the tryout and she was awarded the scholarship.

The scholarship, offered each year by the university school of music, is not big in point of money value, being only about one hundred dollars. Considerable honor, however, is attached to the winner, since it is always competed for by students of marked musical skill. Miss Newton's talent as a pianist will be remembered by those who knew her at Hood River.

Other Hood River students are acquiring distinction. Este Broslus has won a place in the University Glee Club which will tour the state this winter. Ferdinand Struck, who is now in his senior year is president of the engineering club. Chester Huggins, Pacific coast interscholastic champion in the mile run, is working out under Trainer Bill Hayward with older men and is showing up finely. Huggins is pledged to the Alpha Tau Omega fraternity.

Jack Luckey and Will Cass are occupying the Hood River Bachelors' Club quarters this year. Lucky is manager of base ball this year. Cass is reporting for the Oregon Emerald.

JUDGE BUCK ADJUSTS SUMMIT ROAD DISPUTE

A dispute of interest came to a head Friday when Paul W. Fuchs was tried before Justice Buck for destroying a fence belonging to the Mt. Hood Railroad Company, near Summit Station. Fuchs was represented by Attorney E. C. Smith, and the railroad company and state by Jayne & Watson and Deputy District Attorney E. H. Hartwig. The defendant was found guilty, but on the recommendation of the attorneys for the complainant for a light sentence, Fuchs was fined \$10 and costs.

The case grew out of the attempt of Morgan A. Zeller and the defendant to place a crossing across the tracks of the railroad company 700 feet west of the county road, and which had been reported on adversely by J. L. Henderson, T. A. Reavis and W. L. Clark, a board of viewers appointed by the county court at the request of a number of petitioners in that neighborhood. The board of viewers recommended that the road follow along the right of way of the railroad from the crossing to connect with the new road, and the railroad company, it was stated, offered to pay part of the expense.

It was suggested to Zeller and Fuchs that they circulate a petition for this purpose last April, and bring it before the county court. As nothing was done about it, the company recently erected the fence to protect it against damage suits. Fuchs, it was proved, tore down the fence. He was then arrested and brought into court.

Interesting Early History

At the first meeting of the Old Fort Dalles Historical Society, held after the summer vacation, last week, a letter from Oliver C. White, of Olympia, was read. Mr. White is a former Dalles man, whose father, Charles White, was one of the earliest officials of the city and county, having moved to The Dalles in 1856. During the ten years of his residence there he was city marshal, county assessor, coroner and sheriff. During the seven years he served as sheriff he took 47 persons to the penitentiary, hanged four Indians and one white man. He died in Eugene in 1904. The society has, as its latest accession, a door from the block house built by the government, called the White Salmon block house. The door was presented by Mrs. A. R. Byrket, of Bingen. This block house stood at the present steamer landing at Bingen, was built in 1856 and was used for storing supplies which were en route to Fort Simcoe.

Irrigating Meeting Adjourned

The annual meeting of the stockholders of the Farmers' Irrigating Company called for Saturday was not held owing to the limited amount of stock represented. The meeting was adjourned until the first Saturday in January. In the meantime it was decided to have a committee go over the ditch and see what it needs in the way of repairs.

Notice to Apple Packers

The Apple Growers Union requests all packers who want to pack apples this fall to call at the office of the union and register their names and place of residence. Good pay and a long season of work guaranteed all experienced packers.

C. H. SPROAT, Manager Hood River Apple Growers Union.

Civil Service Examination

The U. S. Civil Service Commission announces that competitive examinations will be held on February 4, 1911, for first grade or clerical and for third grade or subclerical positions in the various field branches of the Federal Service outside of Washington, D. C., at the following places in the state of Oregon: Albany, Astoria, Baker City, Eugene, La Grande, Grants Pass, Pendleton, Portland and The Dalles.

The first grade or clerical examination is given for the positions of clerk, inspectress, deputy officer, sampler, and other positions in the Custom House service. Clerk, deputy collector, storekeeper, gauger in the Internal Revenue service. The position of office deputy United States Marshal, and clerical positions requiring similar qualifications in this service and other field branches.

The third grade or subclerical examination is given for the position of attendant, foreman, and night inspector in the Custom House service, and for messenger, watchman, classified laborer, skilled laborer, and positions requiring similar qualifications in the service named and other field branches.

The first grade and third grade examinations to be held in February are the only examinations of this nature for the Custom House service, Internal Revenue service, and other branches of the field service.

The practice of holding separate examinations for the Custom House service, Internal Revenue service, etc., has been discontinued, and all appointments in these services will be made from the eligible registers resulting from the examinations to be held February 4, 1911.

The minimum age limit for first and third grade examinations is 18 years. There is no maximum age limit.

All persons who desire to compete should at once apply to the local secretary of the Board of Civil Service Examiners at any of the offices mentioned, or to the secretary of the Eleventh Civil Service District, Room 224, Federal Building, Seattle, Washington, for application Form 1371 for the first grade examination, and Form 1800 for the third grade examination.

Applications must be filed with the district secretary at Seattle prior to the hour of closing business on January 2, 1911.

Water Works on the Farm

Yes, that's just what we mean—real water works; running water in the kitchen, the bathroom, the laundry, the barn—in fact, all over the place. And it's all done by that tank you see in the lower left hand corner of this picture—the Leader System. It's vastly different from the old-fashioned elevated tank which worked by gravity. For the Leader Water Supply System is operated by compressed air—reliable, safe and clean. Your windmill pumps water into the tank (which is already full of air). The air, being elastic, is compressed into upper part of the tank, and forces the water out through the pipes.

This gives you a pressure, so that a powerful stream of water is on tap at every faucet, no matter where it is located. And this means absolute fire protection, for the pressure is always on and always ready.

Now, the old style gravity tanks were either put in the attic or situated on a high tower out of doors. In the former case, their weight when full, cracked the plastering; or they overflowed or leaked, flooding the rooms below. In the case of the outside tanks, the water often froze solid in winter, necessitating expensive plumbing bills; or it became hot and stagnant during the summer and unfit for use. The

Leader Water Supply System

avoids all this, because the air-tight tank is either in the basement or buried underground below the frost line. Every outfit is complete, with full directions, and is easily installed. The Leader System needs no repairs, is suited to small buildings or large, and is moderate in price. Let us send you our free booklet, "How I Solved the Water Supply Problem," the story of a man who successfully equipped his country home with modern water works. Write for it today, before you forget.
