FIRES THAT ARE ASLEEP.

A Great Range of Volcanoes In the Heart of Africa.

It is not very generally known that right in the heart of Africa at the southern end of Lake Albert Edward

Moses has purchased the Pertrue that, unlike Rukenzor, they carry igo property on the heights, consistno permanent snow, the highest peak is over 14,000 feet in height. These Remember this is the last week for volcanoes are particularly interesting registration. Registration books on account of their comparative newness. Running through the middle of Africa there is a trench many hundred For Sale-Spitzenburg, Baldwin, miles long, in which lie the great lakes Vandivere, Salome and Hydes King Albert, Albert Edward, Kivu and Tanhigh class seconds at 50c per box deganyika.

Not very many thousands of years ago the volcanoes, generally called Mfumbiro, burst up through the middie of this trench and made a dam across it, with the result that some of the water which formerly flowed into Lake Albert Edward and so into the Nile was cut off and a lake was form-

ed behind the dam. As times went on A newspaper editor declares that the waters in the lake which is now called Kivu rose higher and higher until, not being able to flow over the barrier of the volcanoes, they formed the Rusisi river, which runs the other professor pay one hundred cents on way into Tanganyika, about a hundred the dollar, sell sixteen ounces to the miles distant.
