MORLAN & LATHROP

BROTHERHOOD OF OWLS ORGANIZING

The Brotherhood of Owls is the most progressive fraternity on earth. It offers membership to all white men of good moral character. Its rituals deal only with the humanities in which all white men agree. It teaches Charity, Love and Mutual Aid. It teaches progress in the qualities that make men better husbands, better fathers, better brothers and better citizens. The coming years will see more men marshaled for human fellowship than the combined armies of today can muster for force and murder.

The Brotherhood of Owls is beneficial, social and fraternal. Full information can be had by addressing the state organizer, M. P. MacEachern, or his deputy, J. W. Howard, Hood River, Oregon.*

Milk Impurity Remedied

We are informed that the condition of the dairy which was supplying milk for city use to which Dr. White objected was remedied while he was here and that he afterward pronounced the milk wholesome and pure. Dr. White, it is said, found no

fault with the milk, but objected to the way it was being handled and believed the impurity found in the sample that was examined was due to this cause.

New County Map

A. T. Allen has secured the exclusive rights to the comprehensive multicolored map of Hood River county which will soon be issued by the National Map Company of Portland, and will handle it in the county. The map gives all the roads, water courses, contours, elevations, and a great deal of other useful data of the valley. In size it will be 25x30 inches.

Suit Under Adjudgment

Testimony in the water bond suit was heard before United States Judge Robt. Bean Friday. Judge Derby and Jesse P. Stearns appeared in behalf of the city and Jayne & Watson and Snow & McCammant for the complainant. As yet no decision has been rendered, the case still being under advisement.

Hot Lunch

The Ladies' Aid Society of the Congregational church will serve hot lunches during the fruit fair, Nov. 25 and 26, Friday and Saturday, in the basement of the Hood River Banking & Trust Co. building.*

DONATES LOT FOR CHAPTER HOUSE

The American Woman's League met in their rooms in Bartness building Nov. 2nd, which proved to be a red letter day for a surprise was sprung during the session by Mrs. LeRoy Armstrong, who offered to donate a lot for the chapter house. This offer was greeted with great applause and every leaguer has been made extremely happy by such a magnanimous gift, 100 feet by 50.

Now, every leaguer wants to do their best to help secure the membership requirement immediately. We want our chapter house and have enough to qualify now, but we want one in keeping with the other buildings in Hood River. The more members the better building. Who will join and help us? Our next regular meeting, Wednesday, Nov. 16th in the rooms in the Bartness building. Anyone desiring to meet with us will be welcome. Come and hear of our classes and of the great benefit of membership. Literature can be had from Mrs. J. W. Rigby which will explain how to secure membership. It offers great advantage to young men who desire to take up any course of study.

The league will serve meals during the fruit fair, on Cascade avenue, for the purpose of meeting any necessary expense to beautify the lot. Your patronage is solicited. PRESIDENT.

Death of William Campbell

William Jackson Campbell, a former resident of Hood River, died at his home in Portland Thursday, Nov. 3rd, after an illness of about 10 days. Mr. Campbell was born in Mahaska county, Iowa, July 25, 1856. In 1888 he came to Hood River where he lived for six years and was one of the first strawberry and apple growers in the valley. For the past seven years Mr. Campbell has been living in Portland, where he worked at his business as a carpenter and builder and owned property. He is survived by his mother, wife, two daughters, two sons and two brothers, one of the latter being Sam G. Campbell of Hood River.

The body of Mr. Campbell was brought to Hood River Saturday, where funeral services were held, conducted by Rev. F. E. Harris of the Congregational church. Burial was in Idlewild cemetery.

Roche Harbor line best made, at A. Whitehead's.*

Economical.

A good story is related of an English theatrical manager who by thrift and hard work had amassed a fortune. Previous to the production of one play the stage carpenters had to repair a trap, and the head carpenter went to the manager and informed him that it could not be done in the dark.

"Well, lad, thee won't have t' gas," answered the manager. "Here, tak' this and buy a candle."

And he handed him a halfpenny. The carpenter pleaded that they wanted two in order to get sufficient light.

"How long will t' job tak' thee?" asked the manager.

"About ten minutes," was the reply. "Then cut t' candle in two," was the answer. "Thee won't have any more money."

Physiognomy.

It is impossible to say just when physiognomy began to be a "science." It is said that the celebrated Pythagoras founded the science about B. C. 540. It is spoken of by Hippocrates about B. C. 450, but he does not attempt to go into the discussion of its origin. The first systematic treatise on the subject that has come down to us is that attributed to Aristotle. Throughout the sixteenth and seventeenth centuries there were many publications on physiognomy.—Exchange.

The Nautical Idiom.

In "Glimpses of East Africa" Mrs. Ethel Younghusband tells an amusing story of a venerable Parsee who was on board a big liner going to England. Some one wishing to make himself agreeable went up to him and said, "I hope, sir, you are a good sailor." "Sailor, indeed!" said the Parsee. "Why, I am a first class passenger!"

A Rod in Pickle.

Mrs. Goodsole—Why, Johnny, are you just going home now? Your mother's been looking for you all afternoon. Johnny—Yes'm, I know. Mrs. Goodsole—Just think how worried she must be! Johnny—Oh, she's near the end of her worrying. I'm jest beginning mine.

Proof.

"How do you know she's older than you are?" "Why, she admitted it herself. She said 'You and I are just the same age, dearie.'"—Cleveland Leader.

Among men some have virtues concealed by wealth and some their vices by poverty.—Theganis.

NEW ROCK CRUSHER FOR STREET WORK

W. G. Aldred, the contractor, this week bought a large rock crusher which he will use in crushing rock for the city streets and other work where the material is necessary. The crusher has a capacity of 30 to 40 tons an hour and will be placed near the one now in use east of town. The big machine weighs several tons and is what is known as a jaw crusher. It will crush rocks 12x16 inches in diameter and is expected to handle a large quantity of stone.

Apples in Mid-Winter

ALONG about the middle of December or the first of January apples cost quite a bit more than they do now. The price keeps going up from then on. Sometimes it is a difficult matter to obtain good apples in the early spring at any price. To be sure of a supply all winter it is a first-rate plan to lay in as many boxes as you will want, now. Put them in cold storage with us. You may send for a box as often as you wish. Our cost for storage for small quantities for the season is only 25 cents a box. We make lower rates for large quantities. The cost of storage is a great deal cheaper than paying the high winter prices. Then too, you are sure of getting your apples when you want them. We are prepared to handle any number of boxes.
