Our HARDIE POWER SPRAYERS are being copied every day. Each new sprayer appearing on the market embodies all they dare to steal of the good points. This is the sincerest flattery and we appreciate the advertising we receive from such practices.

BUILT FOR SERVICE

You can't really want to make your horses work any harder than they have to. You will get more work out of them every day if they are hitched to an easy pulling, perfect scouring plow; they will be fresher for the next day's work—and they will last longer. It's not a matter of sentiment—it's a plain business proposition.

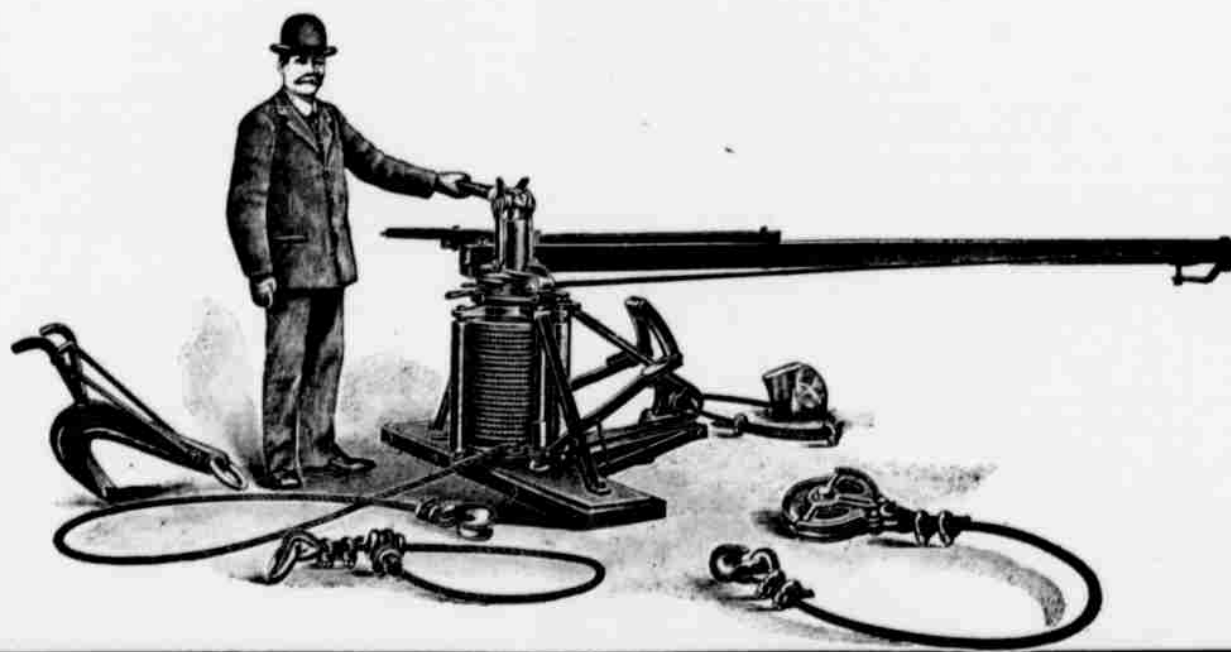

THINK IT OVER—
then come in and let us show you *the plows.*

Hood River, Ore.

Do you know that we handle a complete line of STUDEBAKER HARNESS? Well, we do.

Look our line over before you purchase. We are proud of it, and invite inspection and comparison both as to quality and price. Our goods will stand it.

There have been more FAULTLESS STUMP PULLERS sold in the Valley this winter than all other kinds combined. "There's a reason."

This picture shows the comparative height of the machine. It also shows the snare, root-plow and power pulley—all accessories to good work.
