One Thousand Nineteen Letters

Inquiring about Hood River have been received and answered by us since November 1st, last. The majority of these have come from Eastern people who intend visiting our beautiful little valley during the coming season. Judging from the amount of interest that has been aroused throughout the country in the Hood River apples, 1911 will be a revelation to the old timers. You will see more property change hands and that at higher prices than you ever dreamed of. We are planning our campaign to take care of our share of this business. List your property with us early and we will sell it.
