If We Would Fall For It

We could often make a nice extra profit by skimping a little in the quality of the groceries we handle. But this store has earned a reputation for dependability and we propose to lose it even for a little extra profit. What you buy here you can depend on now and always. How a can of "Diamond W Asparagus."

of our Choice Groceries. Anything and everything you order delivered the same day if you say so. And we send you just WHAT you order and no substituted brands of things we are "just out of." We are never out of any staple lines, and we can always guarantee the quality of everything we sell. If you have not yet favored us with an order you're the loser.

The Cooking Ware That Lasts a Generation

"Wear-Ever" Aluminum Cooking Utensils are the kind that give you every satisfaction. Safety, Economy, Durability, Freedom from Worry.

You can cook the most delicate and easily scorched food in aluminum utensils with less fear of burning than in any other kind, because aluminum is a better distributor of heat and retains it longer.

This means a saving in fuel. But it means a saving in wear-and-tear expense, too.

"Wear-Ever" aluminum cooking utensils are strong, light to handle and easy to clean. They resist fire wear—you can let food boil dry in them without injuring the utensils. They are practically everlasting.

"Wear-Ever" utensils cannot rust, cannot form poisonous compounds with fruit acids or foods. They are made from thick, hard sheet aluminum, 99% pure, without seams, joints or solder.

Replace utensils that wear out with utensils that "Wear-Ever."
