

The Improved Bean Power Sprayer

Light Durable Economical

Among the Many Points of Superiority of Our Pumps We Mention the Following

1. The all steel compact platform instead of the clumsy heavy wood structure.
2. Compactness of the engine and pump. The pump is connected to the engine with a machine cut gear instead of the old-fashioned and long ago discarded belt.
3. The tanks are made of the best grade of red wood with an iron well for underneath suction, preventing air-lock, increasing the efficiency of the pump fully thirty per cent. It is so constructed that it cannot fall down when dried out.
4. A direct driven, improved rotary agitator.
5. Ball relief valve keeping pressure safe and uniform.
6. Low-down construction, making it easy to handle in any orchard.

Many other important and exclusive features of our pump that cannot be appreciated until you see our outfit, which will be on display at the corner

of Third and State street in the warehouse of the Hood River Spray Manufacturing Company.

We are here to stay and every machine sold will have our absolute guarantee to do what is claimed for it.

Do not buy until you see us and see the Bean Giant at actual work next FRIDAY, MARCH 24. Call us over the telephone for particulars.

Our distributors for the famous Niagara Lime-Sulphur Spray and Arsenate of Lead are: BRIDAL VEIL LBR. CO., Hood River; JOHN-SON BROS. & HALE, Van Horn Station; C. W. CRAIG HDW CO., White Salmon Wash.

A COMPARISON FOR YOUR CONSIDERATION

Analysis of four commercial brands of lime-sulphur spray by the Oregon Agricultural College, Corvallis, Oregon, Season 1910-11:

	TOTAL LIME	TOTAL SULPHUR
Sample No. 1	10.73	26.63
Sample No. 2	11.94	30.03
Sample No. 3	12.00	29.21
Sample No. 4	12.12	23.98
Sample No. 5	19.65	31.44

A comparison of the above analysis plainly shows that NIAGARA Brand carries much more lime and sulphur in solution than any of the rest, and this is decidedly the case when comparing the Beaume tests of the several samples. NIAGARA at 31 is far superior to all the others, several of which run as high as 32 and 33 Beaume test.

Bear in mind that we use neither salt nor caustic soda to raise our Beaume test.

Custom Work

We are prepared to do your spraying for you at reasonable prices consistent with a thorough job and you be the judge.

LIVE NEWS FROM THE UPPER VALLEY

The prophets say, "All signs fall in Oregon," but there is one that can be vouchsafed for and that is on Miss Allen's fence, "Potatoes for Sale."

The Parkdale store is fortunate in securing the services of Mr. Brown, who has had large experience in the dry goods line. Mr. Brown has exclusive charge of the ribbon and notion department.

A well known poultry fancier of this place lost, while feeding his flock, a diamond from the setting of his ring. After "axing" a few without results, he decided to send the whole bunch to Portland to be examined by the X-rays.

A young woman, presumably a bride of recent date, entered the spacious meat and provision market here recently and addressing one of the clerks asked if he would kindly send by the afternoon delivery one dollar's worth of meat.

Frank L. Kenting has a road now directly along the base line (which has been christened Cooper Place) to his ranch. He is situated adjacent to the famous lava spring and extended an invitation to your reporter when he was over that way to "drop in."

The people of the Upper Valley are sympathizing with John Goldsberry, the popular president of the Progressive Association, who is suffering from "writers' cramp," contracted, it is alleged, from writing insurance policies. He declares he has all the other agents lashed to the mast.

The following conversation, it is reported, took place in the main corridor of the post office, between Mr. Tobey, the famous poultryman and Mr. Rodenhauer, V. P. U. H. R. V. P. A.:

Rodenhauser—Hello, Tobey, where did you get all the eggs?

Tobey—From the hens, of course.

Rhode—Where did you get the hens?

Tobey—From the eggs, you goose, Rhode—Well, which got here first?

Tobey—Write to Corvallis.

Chas. Isham Moody, the genial chairman of the entertainment committee of the Upper Hood River Valley Progressive Association, is negotiating, it is rumored, with the Metropolitan Opera Co., of New York for permission to produce at Parkdale next winter "The Girl of the Golden West." The recent success which crowned his efforts when he presented the minstrel show has spurred him on to attempt something that will permit some of the female talent, that is so abundant here, to participate. It is to be hoped that the contemplated opera house will be erected so that it can be staged there.

A fact has just leaked out which clears the mystery as to what caused the ear splitting noise that was heard all winter in Chester Walton's barn. It was he, practicing those new and intricate steps termed the "shuffle movement" which he admirably executed while rendering the coon song at the recent minstrel

show. One day Mr. Gregory, the assistant postmaster, while passing was attracted by the peculiar sounds and determined to investigate. Vaulting the fence he was soon within a few yards of the trouble zone, when he met Walton emerging from the barn. "Hello, Chet! Is there a murder being committed here?" "Yes, my hired man is inside killing time."

MOSIER

C. G. Nichol and son, George, spent Sunday in Hood River.

Mr. and Mrs. Akers and son, Estel, went to Hood River Saturday to spend Sunday with relatives.

There have been several carloads of apples shipped of late, which will about clean up last year's crop.

The social at the Baptist church Friday night was quite largely attended and all spent a pleasant evening.

Mrs. Geo. Krouse, who has been spending several days with her daughter, Mrs. Davenport, returned home Saturday.

Lumber has been ordered the Mosier exhibit booth at the depot and it will not be long until Mosier can show what she can raise.

Work will be commenced on the new bridge across Mosier creek as soon as the lumber, which has been ordered from the Tim-a-Lumber Co., arrives.

One of the men employed at the East Hood River farm had the misfortune to fall off the spray wagon and break his collar bone. Dr. Robinson was called to attend the injured man.

Chas. Brooks arrived Thursday morning from the east, and he somewhat surprised his friends by bring-

The Point Is Right Here

The merchant who is always blowing about the cheapness of his wares is very apt to be selling cheap goods. We talk quality when telling about our groceries. Come, look and judge. Then if you want to compare prices we are not afraid of the result. Special for a limited time—
