

The Improved Bean Power Sprayer

Light Durable Economical

Among the Many Points of Superiority of Our Pumps We Mention the Following

1. The all steel compact platform instead of the clumsy heavy wood structure.
 2. Compactness of the engine and pump. The pump is connected to the engine with a machine cut gear instead of the old-fashioned and long ago discarded belt.
 3. The tanks are made of the best grade of red wood with an iron well for underneath suction, preventing air-lock, increasing the efficiency of the pump fully thirty per cent. It is so constructed that it cannot fall down when dried out.
 4. A direct driven, improved rotary agitator.
 5. Ball relief valve keeping pressure safe and uniform.
 6. Low-down construction, making it easy to handle in any orchard.
- Many other important and exclusive features of our pump that cannot be appreciated until you see our outfit, which will be on display at the corner

of Third and State street in the warehouse of the Hood River Spray Manufacturing Company.

We are here to stay and every machine sold will have our absolute guarantee to do what is claimed for it.

Do Not Buy Until You See the Bean

Our distributors for the famous Niagara Lime-Sulphur Spray and Arsenate of Lead are: BRIDAL VEIL LBR. CO., Hood River; JOHN-SON BROS. & HALE, Van Horn Station; C. W. CRAIG HDW CO., White Salmon Wash.

A COMPARISON FOR YOUR CONSIDERATION

Analysis of four commercial brands of lime-sulphur spray by the Oregon Agricultural College, Corvallis, Oregon, Season 1910-11:

| | TOTAL LIME | TOTAL SULPHUR |
|--------------|------------|---------------|
| Sample No. 1 | 10.73 | 26.63 |
| Sample No. 2 | 11.94 | 30.03 |
| Sample No. 3 | 12.00 | 29.21 |
| Sample No. 4 | 12.12 | 23.98 |
| Sample No. 5 | 19.65 | 31.44 |

A comparison of the above analysis plainly shows that NIAGARA Brand carries much more lime and sulphur in solution than any of the rest, and this is decidedly the case when comparing the Beaume tests of the several samples. NIAGARA at 31 is far superior to all the others, several of which run as high as 32 and 33 Beaume test.

Bear in mind that we use neither salt nor caustic soda to raise our Beaume test.

"HICKS AT COLLEGE" WAS BIG SUCCESS

"Hicks at College," given by the Barnea and Philathea classes in this city Tuesday evening, and later at several places in the valley, was a big success. It was by far the best amateur performance that has so far been given at Hood River, and a number of the local amateur performers quite distinguished themselves.

The cast of characters was as follows:

- Hiram Hicks, the Braino Man.....
- Harold Hershner.....
- Tom Horton, who writes advertisements.....
- Roger Moe.....
- Fritz Jordan, Horton's chum, who plays basket ball.....
- Walter Ford.....
- Adam Biddicut, professor in Northern university.....

COUNTY TRIES GRADERS FOR COUNTRY ROADS

The county commissioners have put into use two new road graders which were received last week and which are proving fine road builders. The machines are much less ex-

pensive than the ones formerly used by the county and require less expense in the way of team hire. A man and one team successfully operates them. By the use of the graders considerable of the expense for repair work can be avoided and the highways put in a condition to be well drained.

WILL ENDEAVOR TO STOP UNLAWFUL DEER KILLING

Charged with killing deer out of season, Mark Weygandt and Wm. Jones, residents of the Upper Valley, were fined \$50 apiece Wednesday by Judge Buck. The evidence against Jones and Weygandt was secured by Deputy Game Warden Fritz through the cooperation of sportsmen in the Upper Valley, who say they are going to put a stop to the slaughter of game in the Mt. Hood country out of season. The Upper Hood River Valley Progressive Association has become interested in the matter and will work with the officers in prosecuting offenders.
