The Portland Highway

The Hood River county commissioners have taken up the Hood River-Portland highway seriously and now announce that they will do what their limited powers in the matter will allow them.

There has been some criticism in regard to the projected highway by local residents. This would probably be just if the project interfered in any way with something that was of greater benefit.

Nevertheless, every intelligent and right-thinking person will admit that such a highway would be of inestimable benefit; also that the residents in the west end of the county are justly entitled to a wagon road to the county seat.

Nevertheless, every intelligent and right-thinking person will admit that such a highway would be of inestimable benefit; also that the residents in the west end of the county are justly entitled to a wagon road to the county seat.

Therefore no time or effort could be better spent at present by the Hood River people than concentrating on a broad movement to get plans for the construction of this highway on a basis that will secure its completion.

No Frosts, No Pots

"If you can't boost, don't knock," is a latter day slogan that is generally accepted as being O. K., and we concur in the opinion. Nevertheless, we feel called upon to call attention to the immunity of the Hood River district from damaging frosts.

NORTHWEST NOTES

Musicians of four states will gather at the third annual convention of the Northwest Teachers' Association, which will be held in Portland June 7, 8 and 9.

It is not too early to start the annual fight against the usual timber loss, believes the Oregon Forest Fire Association, for this organization is in the field lining up timber owners to patrol their holdings during the dry season, seeking a more rigid enforcement

of the law and co-operating generally in the good work. This association points out that eighty per cent of the value of the timber goes for labor and materials, thus giving the entire population a direct interest in preventing its destruction.

The Milwaukee railroad announces that it will inaugurate its through passenger trains from Chicago to Puget Sound May 28. This will be an important event in the entire Northwest, marking one more means of transportation to bring in newcomers and help the work of building up the country.

Tuberculosis Sunday will be observed by the most of the churches in the Pacific Northwest on April 30. In response to an appeal from the national organization that is conducting an educative campaign against the White Plague.

Otto Case of Seattle, believes that it would be well for Northwest states having logged-off lands, to follow Minnesota's example in extending state aid to settlers in clearing them for cultivation.

Having been successful in its efforts to interest colonists to come to the Northwest this spring, the Oregon-Washington Railroad & Navigation Company has now turned its attention to increasing the tourist travel this way during the summer months.

"The Land that Lures—Summer in the Pacific Northwest" is the title of an attractive booklet just issued for that purpose. Forty-eight pages and fifty pictures are devoted to setting forth the exceptional attractions of Oregon, Washington, British Columbia and Alaska, during the summer months.

Raisin Day, April 29th, 1911

The above date has been set apart by the people of California in which all are asked to join by eating raisins in the form of "Raisin Bread," or in whatever form is desired.

Cartercar Establishes Agency

An agency for the Cartercar, the machine with a friction drive, has been established at Hood River. The car will be handled by Ireland & Sprague. The Cartercar, which has been shown here during the last few weeks, has surprised many by its ease in climbing hills, and its simplicity.

HEALTH COMMITTEE SETS CLEAN-UP DAY

To the Residents of Hood River: Friday, May 5th has been set aside as clean-up day for Hood River. On or before that day the Health Board (which by a recent ordinance includes the entire council) expects every owner or occupant of property in the town to collect and remove from their premises all accumulations of leaves, garbage, cans, boxes, refuse, etc.

On the day following clean-up day, a general inspection of the town will be made and a list of those not complying with this request will be given to the marshal. After he has notified such cases once he will act under the following clause from the health ordinance:

"The owner, agent, or occupant of any premises within the town limits, who shall use or keep, or who shall permit the same to be used or kept in such a condition as to cause a nuisance, shall remove or abate the same within 24 hours after being so ordered by the marshal, and if such nuisance be not removed in 24 hours thereafter, the marshal shall cause the same to be removed or abated and the expense of the removal of any such nuisance shall be paid by the property occupant."

CITY HEALTH COMMITTEE. It pays to advertise.

Summons.

In the circuit court of the state of Oregon for Hood River county. C. N. Swanson, Plaintiff, vs. Marion MacLain, A. C. Hallman, C. E. Swanson, Rose H. Rice, Charlotte Dryden, J. H. Mayne, Carl A. Do You Use Drain Tile?
We are making a high grade quality of CEMENT DRAIN TILE and are prepared to furnish in any quantity
No. 4 inch, 6 inch, 8 inch, 10 inch, 12 inch, 16 inch sizes
In the East and Middle West where a great amount of cement tile has been used it is considered far superior to the common clay tile. In support of this statement we quote you what users say in different sections:
R. B. Scheider, of Fremont, Nebraska, says: "I have put in about 70,000 feet of cement tile, varying in size from five to fifteen inches and same have proven very satisfactory. I have placed an order for more to be used this season."
W. D. Rust, Newell, Iowa, writes: "I have laid 11,000 cement tile this year and find them first-class in every respect. My opinion is, it will be only a short time until they will be considered the only practical tile made."
J. M. Wardell, Tracy, Minn., says: "Last summer I laid on my Springdale Stock Farm about three-quarters of a mile of cement tile which appears to be working very satisfactorily. I expect to put in about one mile of the same kind of tile another spring."
Investigate for Yourself
and you will find this tile to be all right. Prices on the smaller sizes are about the same as for clay tile, while for the larger sizes they will be found very much cheaper.
Samples can be seen at the different plumbing shops in the city, and at our yards one block northwest of Staten's store on the hill, where orders will be filled.

THE MAN who knows how to get into debt wisely, that is, who borrows money with which to make more money through legitimate avenues, is the borrower we are looking for. We never capitalize industries, for it is not the function of a bank to become a partner in industries. We loan money for temporary purposes, where it will be paid within a reasonable time. We have to use the greatest discretion in making loans. A stranger cannot expect to get accommodations. We want to know you better, and we want you to feel at home at this bank. Don't wait for an introduction. Come and see us at your first opportunity. Just because you can open an account at any time, don't get the idea that any time will do. The proper time is right now. We are essentially a home bank. Our officers and directors are all business men and ranchers well known in the Hood River Valley.
