the post office at Hood River, Oregon,
under the Act of March 3, 1879.

Editorial Comment.

The first dining car ever operated
in Alaska made its initial
trip over the newly completed
line of the Copper River & North-
western Railway recently. It is
attached to trains plying between
Cordova and the interior.

The cutting of burned cedar
poles has become quite an industry
in Coos and Curry counties.
Last year an experimental order
was given for the burned over
piling by the Santa Fe Railroad.

A new alignment of good roads
forces was made during the
past week at a meeting in Port-
land, when steps were taken to
organize a state-wide good roads
association with county branches.

To form a Central Oregon De-
velopment League, that shall be
a wheel within a wheel, to work
for the advancement of that par-
ticular part of the state, is the
latest project along publicity
lines. Secretary C. C. Chapman,
of the Oregon Development
League, has been at work the
past week formulating plans for
such an organization and the
Prineville Commercial Club will
probably issue a call soon for a
conference of the commercial
bodies of Central Oregon on the
subject.

The Washington Association for
the Prevention and Relief of
Tuberculosis is frequently asked
where persons can go for treat-
ment, in the Northwest. To
such, Miss Beals, the executive
secretary, refers to the Seattle
Pulmonary Hospital, located at
Riverton. This is an endowed
institution that makes a specialty
of treating those with lung
troubles. During the first year
98 patients were received. More
than half were discharged as im-
proved. In the entire list there
were only ten fatalities. The
association is doing a large
amount of work disseminating
information. It will send litera-
ture to anyone desiring the same.

Another Alaska resource will
be developed soon by the opening
of graphite deposition the Se-
ward peninsula, north of Nome.
Christopher discovered the
graphite, and is planning to erect
a plant on Puget Sound for the
reduction of raw material, and
the manufacture of various
graphite compounds, such as lu-
bricants, paints, etc. Most of
the graphite consumed in the
United States comes from Cey-
lon. Importations amount to 20,
000 tons a year. In the manu-
facture of graphite a particular
grade of amber oil is used, and
this is produced by the Katalla,
Alaska, wells; this oil is soon to
be shipped to the market. About
twelve barrels of oil are used to
each ten of graphite, so a 5,000
ton plant means the utilization of
between 50,000 and 60,000 bar-

rels of Alaska oil. This is likely
to be the first enterprise to di-
vert the northern petroleum from
the California refineries.

MAY BASKET FETE
THURSDAY EVENING

On Thursday evening, May 11th, at
Heilbronner hall, the members of St.
Mark's parish will give a novel en-
tertainment in the form of a May
Basket Festival. The hall will con-
tain numerous huge May baskets,
each the work of several fair dames
and maidens, the baskets being filled
with tempting and artistic wares for
sale.

The Work Basket will display
aprons, aprons, aprons—of all sorts,
shapes, sizes and designs. (Is there
no word meaning design beginning
with 's') Prices moderate, styles
stylish, etc., etc.

Over there in one corner will be the
Lunch Basket—and don't forget to
spell this with a capital L and a
large B, for the Basket will be large
and the Lunch capital, or else we are
greatly mistaken in the abilities of
the gentlemen who are to be in
charge.

The Candy Basket will ring a
change upon the old saw, "Sweets to
the sweet," transforming it into
sweets from the sweet.

What can one say to describe the
glories of the Cake Basket, the Fish
Basket, the Baby Basket, the Stunt
Basket, the Tea Basket and the
Flower Basket. We would have to
push out some of the advertising
matter were we to attempt to do
justice to the attractions of each.
And, too, we might inadvertently
make distinction and cause unrest in
the public mind as to the compara-
tive merits of the wares offered, or
as to which is the prettiest basket.
These questions, of course, will arise
and must be settled. Go to the fete
and settle them for yourself. The
proof of the apron is in the wearing.

Buy one and prove it. We are sure
you will be satisfied. As to the pret-
tiest basket, go and settle the ques-
tion for yourself. You will have
ample opportunity, as all through
the evening the polling booth will
be open and you can deposit your votes
—at the nominal charge of a nickel
each.

So you see one can enter—ten cents,
please; one can buy anything one
likes and spend as much as one can.
One can vote for only a nickel, and,
besides all this, one (one means you)
can listen to a fine musical program,
free. In fact, the entertainment will
not cost you anything more than
what you can possibly spend.

At Heilbronner hall, Thursday,
May 11th. Doors open at 7:30 p. m.
Admission 10 cents.

The Good Old Hand-Set Day
I've wandered to the print shop, Jack;
I've seen to my dismay,
The changes that have taken place
Since the good old hand-set day.

Where you and I held cases,
There's a string of linotypes
Manned by individuals
Of the very latest stripe.

The kid that used to pull the proofs
And tease the lady comp',
Is making up the pages now
With great gusto and pomp.

I walked into the press room
And there I missed my guest—
Instead of the old stop cylinder
Stood a big perfecting press.

The "an" we used to rush so oft'
When tourists stopped en route,
Has been tabooed—with other things—
The sport has been cut out.

I interviewed the editor:
"What means all this, my man?"
Said he: "Tis modern progress
On the very latest plan."

If this is modern progress,
Then I would like to say,
That I was always happy
In the good old hand-set day.

Do You Use Drain Tile?
We are making a high grade quality of CEMENT DRAIN
TILE and are prepared to furnish in any quantity
No. 4 inch, 6 inch, 8 inch, 10 inch, 12 inch, 16 inch sizes
In the East and Middle West where a great amount of ce-
ment tile has been used it is considered far superior to the
common clay tile. In support of this statement we quote
you what users say in different sections:
R. B. Scheider, of Fremont, Nebraska, says: "I have put in about 70,000 feet
of cement tile, varying in size from five to fifteen inches and same have proven
very satisfactory. I have placed an order for more to be used this season."
W. D. Rust, Newell, Iowa, writes: "I have laid 11,000 cement tile this year
and find them first-class in every respect. My opinion is, it will be only a short
time until they will be considered the only practical tile made."
J. M. Wardell, Tracy, Minn., says: "Last summer I laid on my Springdale
Stock Farm about three-quarters of a mile of cement tile which appears to be
working very satisfactorily. I expect to put in about one mile of the same kind
of tile another spring."
Investigate for Yourself
and you will find this tile to be all right. Prices on the
smaller sizes are about the same as for clay tile, while for
the larger sizes they will be found very much cheaper.
Samples can be seen at the different plumbing shops in the
city, and at our yards one block northwest of Staten's store
on the hill, where orders will be filled.

THE MAN who knows how to get into debt wisely, that is, who bor-
rows money with which to make more money through legitimate
avenues, is the borrower we are looking for. We never capitalize indus-
tries, for it is not the function of a bank to become a partner in industries.
We loan money for temporary purposes, where it will be paid within a
reasonable time. We have to use the greatest discretion in making loans.
A stranger cannot expect to get accommodations. We want to know you
better, and we want you to feel at home at this bank. Don't wait for an
introduction. Come and see us at your first opportunity. Just because
you can open an account at any time, don't get the idea that any time will
do. The proper time is right now. We are essentially a home bank.
Our officers and directors are all business men and ranchers well known
in the Hood River Valley.
