Protecting the Garden

Just what to use to kill the bugs and worms which annoy the gardener of vegetable and small fruit tracts at this time of year, is told in a new bulletin of the Oregon Agricultural College, which will soon be issued from the college press.

Plant lice, or aphids, such as the cucumber aphid, cabbage aphid, lettuce aphid, strawberry aphid, rose aphid and others, often become very troublesome in the garden on various plants, and some of them are extremely hard to control, says H. F. Wilson, entomologist, who is author of the work. Black Leaf, Black Leaf 40, or Kerosene Emulsion, applied at any time when the aphids become troublesome, or before the leaves curl, is effective.

For worms on cabbage and cauliflower Paris green or arsenate of lead should be used. For cut-worms on onions, a bran arsenate mash or a Paris green dry bait.

For the striped cucumber beetle, the plants should be dusted with Paris green or sprayed with arsenate of lead. It is well to plant some early squash for trap plants, and when the beetles are feeding on them, dust heavily with Paris green.

For worms on the leaves of currant bushes, one should spray with arsenate of lead. For fruit worms, destroy the infested fruit and allow the poultry the run of the bushes when the infested fruit is falling. For aphids apply an aphid spray (a black leaf or emulsion) when the berries are just coming out. Gooseberries should be given the same treatment as currants.

For plant lice on hops, a thorough spraying should be given with Black Leaf or Kerosene Emulsion at the time the lice are on the plant, and the treatment may be repeated in June if necessary. For aphids on peas the treatment is the same.

To get rid of the striped cucumber beetle on muskmelons, the treatment is the same as on cucumber vines, a heavy strength spray of arsenate of lead whenever the beetles appear, should be effective. Watermelon pests are treated as the muskmelons.

When there are cane maggot on the raspberry bushes, the only thing to do is to cut out the infested canes and burn them. For aphids and cane hoppers on rose bushes, a Kerosene emulsion or Black Leaf spray should be used whenever they appear; for aphids, the kerosene or Black Leaf spray is good.

Strawberry plants infested with crown miners and root borers should be destroyed before May 1. For leaf rollers, the tops should be burned as soon as possible after the crop has been gathered. In addition it is well to spray the foliage thoroughly with arsenate of lead about the first of May, and repeat the treatment in about two weeks. For cut-worms a bran arsenic mash or Paris green dry bait should be used.

When flea-beetles are found on sugar beets, the plants should be sprayed at once with arsenate of lead, and the treatment should be repeated two or three times at intervals of about two weeks or so.

If the beds of violets have red spiders or aphids, Black Leaf or kerosene emulsion should be used. In case one treats for red spider with the kerosene, the under side of the leaf must be sprayed to be effective.

THE MERE MAN'S VIEWPOINT

A MAN'S MEMORY

By BYRON WILLIAMS

NO MEMORY.

MICHIGAN woman refuses to erect a monument to her husband's memory on the ground that he hadn't any. When she gave him a letter to mail he invariably forgot it. He left the back door unlocked and the water faucet open. He forgot to put out the cat and wind the clock. He failed not only to match a piece of dress goods, but he lost the sample, and many a time, she says, he stoutly denied ever promising to bring home the meat for dinner or telephoning the laundryman to call around and get the soiled linen.

In fact, the woman insists, this man had no more memory than professional borrowers of small sums for dire necessities at the club. His forgetter was as marked as a horse fly on the cranium of a baldheaded man, and his obstinacy when confronted with the bare facts in the case was most irritating.

Because of all this no monument marks the grave of this benighted who has passed on—no headpiece against which in spring one might lay fragrant bunches of violets; no footpiece upon which to set the tomato can vase filled with forgetmenots of the wildwood. You, Mr. Man, with that letter in your pocket, take notice of this. Go through your clothes and make an investigation among the papers and envelopes. Possibly there is an epistle worn through at the edges, a letter to Aunt Katie asking her to come out and spend a month. If there is and you don't hike down to the postoffice with it there may be no shaft to mark your last resting place in the quiet corner of the country churchyard.

It is queer how forgetful and trying men are at times. I know a man who forgot to register hotel. It was on his honeymoon, and to turn it off as a joke he took the pen and wrote, "Me and my wife," paying in advance for a room and leaving the place at once.

I know another man who took his wife to the theater, went out to see a man between the acts, went home sober and forgot every blessed word about his better half ignominiously left behind until he found the house deserted.

The trouble with a man is that he never does as he is told. If he would obey wife when she says, "Now, don't you put that letter in your pocket; just hold it in your hand all the way to town," he might not forget, unless he did like another friend of mine who boarded the electric car for the city, holding the letter at arm's length and looking at it much like the man of the cartoon who has a dotted line running from his eye to the object in question. I smiled when he muttered something about being sure to mail that letter for Lucille, and then we got to talking about the sewer. We are building one out in our town, or hope to, and this friend is very anxious to see the work completed.

When Brown got on and began to complain about taxes and improvements and talk graft and corruption in general my friend became excited. His excitement terminated in a lengthy and vigorous dissertation about tight-wads and reputation wreckers, in the perturbation of which he twisted and tore that letter into a half dozen pieces, dropping the remains absent-mindedly into the spittoon.

It was such a joke I kept my counsel, but the truth finally leaked out, and I ascertained from his wife that when he came home at night the following conversation took place:

"John, did you mail my letter this morning?"
"Er—why, yes, Lucille. I—why, I must have."
And he thought he was telling the truth. It was not until I owned up to my duplicity in the matter that he was convinced the letter never had gone to its destination.

Forgetful man! If it were not for the fact that we know his life often is filled with worries and strenuousness we should feel like forgetting to prepare his dinner now and then just to school him, but we know what he has to contend with, and we try to be merciful—that is, you, the ladies, do—and get along the best way we can without pouting or cross words.

STATE FAIR PREMIUM LISTS NOW READY

Premium lists for the State Fair next September have been issued. Premiums amounting to \$16,000 and \$25,000 in racing purses will be hung up on the harness events alone. In addition to the awards for running races. General plans for the fair are well under way, and it is promised this year's exposition of the state's resources will be bigger and better than ever. Dates have been fixed for September 11-16.

AUTOMOBILE SKIDS ON WET PAVEMENT

A Well-Known Idaho Man's Machine Damaged on Fourth Street

Coeur d'Alene, Ida., May 20. (Special)—Some little excitement was caused on Fourth street a few minutes before 6 o'clock last evening, when W. G. Davidson lost control of his White automobile while nearing the Coeur d'Alene Avenue corner.

The Hassam pavement was wet and the machine skidded badly. Turning to the left it ran upon the curb near the Home Electric Supply store.

Mr. Davidson, who was driving, was not injured, and no damage was done to the car beyond destroying the rear wheel.

Do You Use Drain Tile?
We are making a high grade quality of CEMENT DRAIN TILE and are prepared to furnish in any quantity
No. 4 inch, 6 inch, 8 inch, 10 inch, 12 inch, 16 inch sizes
In the East and Middle West where a great amount of cement tile has been used it is considered far superior to the common clay tile. In support of this statement we quote you what users say in different sections:
R. B. Scheider, of Fremont, Nebraska, says: "I have put in about 70,000 feet of cement tile, varying in size from five to fifteen inches and same have proven very satisfactory. I have placed an order for more to be used this season."
W. D. Rust, Newell, Iowa, writes: "I have laid 11,000 cement tile this year and find them first-class in every respect. My opinion is, it will be only a short time until they will be considered the only practical tile made."
J. M. Wardell, Tracy, Minn., says: "Last summer I laid on my Springfield Stock Farm about three-quarters of a mile of cement tile which appears to be working very satisfactorily. I expect to put in about one mile of the same kind of tile another spring."
Investigate for Yourself
and you will find this tile to be all right. Prices on the smaller sizes are about the same as for clay tile, while for the larger sizes they will be found very much cheaper.
Samples can be seen at the different plumbing shops in the city, and at our yards one block northwest of Staten's store on the hill, where orders will be filled.
