TWO THOUSAND ACRES IN BEARING ORCHARD

and that amid scenic grandeur indescribable is what you will see only a few years hence at MOSIER VIEW ORCHARDS

While the Knocker and Mr. Wisehammer is doubting and saying it can't be, trees are being planted, orchards sold and brought into bearing; the thriving little town of Ortley has grown to a modern city amidst Oregon's finest commercial orchards, producing more apples annually than were shipped from Hood River during 1910. Then Mr. Wiseham-Moral: Investigate this opportunity now for yourself and get in on the ground floor, lest you might later be compelled to say, "I remember when I could have, etc., -but-"

TELEPHONE NUMBERS.

Hotel Oregon Building, HOOD RIVER

nal Fitness of Things.

Speaking of telephone numbers, a good number for a cigar dealer would be 2-4-5, and a cheap suburban sport might as well be 4 Flushing as anything else. An Irishman wishing to dine would naturally call up a place 2-8, but a Hinglishman 'aving to call up a blarsted, bloomin' creditor re-

A lover ordering a chair would want 1-4-2, and a newly wed couple wishing a flat would want 1-4-2-2, but the German maiden refusing to marry would shout 9-9-9-9. (Oh, how clever!)

If you want to borrow you wish 4-2-0, and probably that is a money lender's number, but if you only want was killed on the R. Lauterbaugh a small loan from a friend you will wish 2-0-5. (That's pretty cute. What?) The bookmaker should have two phones-9-2-1 for long shots and 4-2-5 for favorites. The man with a dog might call 6-6-6-6-(get that?)-and the known to attack anyone. At the eight-o. hey, what! I rather guess

If two horses were in the running and 1-1-5-0 John he would be a happy lad and his smile would be 2-2 Broad. (This is one I 8-2 Spring on you.) And

(Honestly, I could keep this up all The Ellis families have been residents | nighth | If two of you wished to be wed you would not have 2-8-4 Spring, because you could call 4-1 Rector to make you one immediately, and then, if tired of being united in one, you could go to a fat judge and let that 1-2 children had fallen over the cliff and Broadparty-W again. (If you can't

MODERN CHEMISTRY.

Prediction of a Scientist and Its Remarkable Verification.

When a mathematical astronomer in Paris gave a Berlin observatory a search warrant for a new planet and, turning his telescope as directed, the Berlin observer found the previously unknown planet all the world wondered. Equally remarkable have been history of modern chemistry. Grading the known elements of nature according to the weight of their respective atoms, it was observed that the eleperiodic law in the hand of genius became an instrument of research. It was in 1871 that Mendeleef, the Russian chemist, in forming the scale of elements, found it necessary to leave 303, B. P. O. E., certainly has the three spaces vacant for undiscovered

should possess when discovered. It was as if an astrologer should inform you that you would meet some time in your life three men and that with the utmost particularity he told you their out of the night of the unknown one after another came the predicted elements into the clear sunlight of science and were instantly recognized.-Louisville Courier-Journaal.
