FELLOWSHIP ELECTS BOARD OF DIRECTORS

The regular annual meeting of the Hood River Apple Growers Fellowship Association was held last Tuesday and proved to be an interesting session. While the main purpose for which the meeting was held was to elect a board of directors for the ensuing year a number of interesting discussions were had and the association also listened to an address by Prof. W. H. Lawrence, horticulturist in charge of field and experimental work for the association in the valley.

The new board of directors is as follows: W. B. Dickerson, Ray Babson, C. D. Thompson, Joe Porter, L. E. Henderson, C. C. Lemmon, and A. W. Peters. Mr. Thompson, Mr. Porter and Mr. Peters were members of the old board.

At the suggestion of several members an amendment to the by-laws was adopted providing for the secretary to notify each member of the regular and special meetings of the organization by postal card as well as by notices in the papers. A change was also made in the board of directors, the number being decreased from eleven to seven, as it was found that the larger number made an unwieldy board.

In addressing the board, Mr. Lawrence said in part: "I have made a thorough and complete survey of the Hood River district, studying the soil conditions and noting the severity and distribution of diseases, whenever they occur. I have begun my investigations of the diseases in order that we may understand how to stamp them out and be able to prevent epidemics. For the past few days my assistants and myself have been collecting soil samples to be sent to the agronomy department of the Oregon Agricultural College, where their texture will be analyzed. This study is being made for the purpose of working out a scheme for a drainage system. We have also been testing cover crops for their values as green manures."

NEW LOCOMOTIVES FOR SOUTHERN PACIFIC

Twenty six of the most modern type of locomotives, a part of the 196 ordered a year ago by the Harriman Lines, are now being delivered to the Southern Pacific Company and within another two weeks will be placed in operation over the heavy Sierra Nevada and Thachapal mountain grades. The Pacific System of the Southern Pacific Company is to have 65 of these iron monsters. Thirty eight of them are to be used on that part of the system under the jurisdiction of E. E. Calvin, vice president and general manager, with offices at San Francisco. Calvin's jurisdiction extends west from Sparks, Nevada to San Francisco; north to Ashland, Oregon, and south to El Paso, Texas.

These engines mean to the shipping and traveling public, a saving of thousands of dollars. They will expedite the transportation of fruit to all points in the country, saving much money to the grower and shipper by making deliveries in perfect condition and securing for the producer top prices. Several hours consumed in traveling over these heavy mountain grades will be cut from the passenger schedules of the Company by the new large and modern passenger engines that are to be placed in service.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. Cheney & Co., Toledo, Ohio. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

FOR SALE
AUTOMOBILE: Second hand five-passenger E. M. F. car, in good condition, and SO CHEAP AS TO BE ALMOST GIVEN AWAY.

SAYS LOCAL WOMAN WAS ILL TREATED

Claiming that the detention room at the Ellis Island Immigrant Station is a veritable "Hell on earth" and that a Mrs. Jepson of Hood River contracted a virulent case of erysipelas while being kept there a short time Rev. Sydney Herbert Bass, an English clergyman, has made charges against the officials of the immigrant station to Congressman Wm. Sulzer. Mr. Bass is now in Harrison Valley, a small town in Pennsylvania, but made his complaint in New York.

As far as can be learned there is nobody at Hood River of the name given in Mr. Bass' complaint, although there is a family living at Odell named Jepesson who have been here a year and came from Indiana. The story as given in a dispatch to the Journal is as follows:

"It was a veritable hell on earth, and I lost no time in telling them so," says Mr. Bass. "Mrs. Jepson of Hood River, Or., was there with me, but was detained a day longer, and as a result contracted while there the worst case of erysipelas her doctor had ever seen in all his practice."

"I am a British citizen, and complained of the unsanitary conditions to my ambassador, who sent a counselor general of commerce and labor. They would not let me wire to the British consul. They refused to look at my credentials, and when I told an officer I protested at the terrible treatment of British women in the awful common room, he said: 'We are going to alter it right now.' Commissioner Uhl sent them urgent instructions to instantly release me, and I went off all alone without my baggage. I went back and complained to several inspectors of the awful condition in that 'hell on earth,' also I went before the superintendent and he had several men up before him who the Friday before called out to the passengers landing from the Adriatic, 'Get on upstairs, you cattle; you will soon have a nice little pen.'"

VERMONT GOING INTO BOXED APPLE BUSINESS

Ralph Perry, president of the Vermont Horticultural Society, urges the growers in that state to pack their apples in boxes, instead of in barrels. In a recent letter to the members of the society, he made a strong plea for better fruit and better packages, saying:

"The box represents the best package yet invented, provided apples are of a duality to correspond. We can grow these apples in Vermont, but at present the percentage is not large enough to make the box package profitable. As an illustration, I wish to cite an instance of twelve barrels of apples, valued in the aggregate at \$54. From these nine boxes of apples were selected. These sold for \$27. The grade of the nine barrels remaining was so lowered that \$27 was all that could be obtained for the lot. If, however, eighteen boxes could have been taken from the lot, they would have brought \$54, while the remaining six barrels could have been sold for \$3 per barrel, thus giving a handsome profit. The mathematics of the problem, then, seems to be that until we can grow a crop of apples of which more than 25 per cent shall be of the box grade, it will not pay us to use the box package."

BAD LUCK FOLLOWS STEVENSON MAN

Jeff Nix had the misfortune to get struck in the eye with the end of a sharp stick, while at work in the woods the other day, which gave him a severe and painful wound says the Stevenson Pioneer. The stick cut through his eyelid and penetrated into the ball, endangering the sight of the eye. It seems to be a curious fact that some men are born to meet with accidents, and Jeff seems to be one of these. Ever since his house burned down about four years ago he has had one accident after another until it seems like something is wrong if he is all right. He has a host of friends, however, who hope to see his luck turn soon, and see him as lucky the rest of his life as he has been unfortunately.

Soft Drinks for Family Use

Hood River Sweet Cider, Hires' Root Beer, and Soda Waters of all flavors can be obtained for family use at all the confectionery and grocery stores at \$1.00 per dozen, with an allowance of 50c per dozen for the return of the bottles to the party from whom purchased. Keep a few bottles in a cool place during the warm weather.

WHITE SALMON BOYS CLAIM THE PENNANT

The Mid-Columbia River League is over, and White Salmon claims the pennant, making her the champion team for the seasons of 1910 and '11, says the White Salmon Enterprise. Out of the twelve games scheduled, White Salmon has won eight, with one game forfeited to her by The Dalles falling to put in an appearance on its date here. Hood River is second, although they do not want to count the protested game played here, in which the manager called off the team because of a mistaken decision. The protest is not well taken and will undoubtedly not be sustained. The team that has won the pennant was made up of Stockton and Keefhafer, battery; Hall, Cain, Douglas, Humphrey, Everett, Hamilton and Talbert, Jacobson taking Hall's place at first in the later games, and Van Vorst figuring in two or three games. Stockton's pitching was the big winning feature in the team, doing good work in every game. The boys also showed marked improvement in batting over last year. Assistant Manager Carlson deserves considerable credit, especially in handling the unpleasant financial part of it.

INVITED TO ATTEND NOTABLE CEREMONY

Mr. and Mrs. H. G. Kauffman of Oregon, Illinois, who have been staying at Hood River for some time and may decide to make their home here, received an invitation Saturday to attend an interesting ceremony at their home which will take place July 1st.

The event alluded to will be the unveiling of Lorado Taft's Indian statue at Eagle Nest, across the river from the home of the Kauffmans. The statue which cost a large sum, is of heroic size being 48 feet high with a pedestal six feet in height.

Eagle Nest is a summer camp for literary men and artists, and among those who will take part in the interesting program that has been prepared is Hamlin Garland. In fact Mr. Garland wrote one of his best books at Eagle Nest. Several other noted literary men and women will also take part in the exercises and a special train will be run from Chicago to convey a number of guests from that city.

CONGRESSMAN LAFFERTY WILL DISTRIBUTE SEEDS

Congressman A. W. Lafferty, of the Second Oregon District, has been allotted the following seeds by the Department of Agriculture, for free distribution during 1912: 20,000 packages vegetable seeds and 2000 packages flower seeds.

All persons desirous of obtaining assortments of these selected seeds are requested to write to Congressman Lafferty at once, stating their wants. Orders will be carefully listed and the seeds sent out in ample time for planting season next spring. Address all communications to Hon. A. W. Lafferty, M.C., Washington, D. C.

Beautiful West Side Home

Offered at a sacrifice. In Belmont 20 acres, on County road, one-half mile from end of new Macadam road, 5 acres full bearing, 5 acres young trees, 5 acres nearly ready for plow, balance in parking around house, improvements valued at \$4000.00, actual cost; new modern house, barn and apple house, with all conveniences, including electric lights and compressed air water system, tools, etc., all under the ditch. Approximately 1000 boxes of apples this year.
