CAMAS PRAIRIE HOG EATS UP CLOTHING

Charles L. Wheeler who returned to the city Saturday from the Camas Prairie country in northern Klickitat county, is the hero of a Baron Munchausen story which appears in the Oregonian. According to a dispatch which appears in that paper Mr. Wheeler had the misfortune to have his coat eaten by a large hog, which, at the same time, consumed several bills and valuable legal papers in a wallet in one of the pockets amounting to a small fortune. Wheeler stopped near the cabin of a forest ranger, with whom he entered into a conversation.

During the talk they wandered away through a pine grove, while the coat was left on a small stump. On returning, he found the pig, after having eaten the lunch in one of the pockets, deliberately chewing up the garment in an endeavor to find further nourishment. In addition to the wallet, containing the money and legal documents, one of the pockets contained a pouch of tobacco and pipe. Only the pipe was saved from the ruins.

Must Remove Thistles.
It is stated that the ordinance recently passed by the city council in regard to the removal of thistles will be rigidly enforced, and the city Marshall has been directed to apprehend the offenders after being warned this week in the city papers.

HENDERSON BROS TO HAVE OFFICE AT UNDERWOOD

The White Salmon Enterprise says: The Henderson Brothers, sons of John Leland Henderson of Hood River, are soon to establish an engineering and real office on their lots lately purchased in the Hamilton Addition to the town of Underwood. L. A. Henderson is owner of 80 acres just west of Underwood and is improving his land.

He returned last September from three years service as a United States Land Surveyor in the Philippine Islands; he was graduated from the University of Oregon in the C. E. course in 1907. The other brother, Sydney E. Henderson, is at present in his senior year at the University in the same course. He will be in Underwood in July to begin operations.

Both of these young men have been employed by the Government on public land surveys and are well acquainted with government methods. Copies of the government field notes for all surveys in the Underwood and White Salmon are now being made, so that when their office is completed they will be ready to retrace old lines, and make accurate subdivision surveys upon short notice. Until office arrangements are completed communications should be addressed to L. A. Henderson, Hood River.

BODY OF FERGUSON FOUND IN RIVER

The mystery surrounding the sudden disappearance of Frank Ferguson has been solved, his body having been found on the Washington side of the Columbia river, near Cape Horn, about 18 miles west of Stevenson, last Wednesday. Dr. Pratt, coroner of Skamania county, Washington, had the body taken to Bridal Veil. Later it was taken to The Dalles.

Letters found in the pockets of the dead man proved the corpse to be that of Ferguson. A small amount of money, about \$5, was found in the clothes.

Ferguson was last seen at The Dalles shortly after midnight, June 18, and a half hour later his hat was found on the sidewalk near the Fashion cigar store, at Court and Second streets. The theory of many people is that he went to the river, from the cigar store, where he was pushed or accidentally fell in, has been proved, but whether he was the victim of foul play or an accident will probably never be known.

STOCKHOLDERS VOTE TO DISSOLVE MILLING CO

A three foot rattlesnake with nine rattles was captured by Cal. Phelps on the Hartley place near Odell Thursday and brought to the city. His snakeship was exhibited in a large glass jar in Kent & Garrabrant's cigar store, but even safely caged the "critter" caused many to view him at a respectful distance. HOWARD 20 ACRES SELLS FOR \$30,000

The most important orchard sale at Hood River in several months occurred Monday when C. C. Carpenter, a wealthy Cincinnati man bought 20 acres of the M. L. Howard orchard in the East Side's premier district, for which he paid \$30,000.

The sale includes the buildings on the place, several acres of which Mr. Howard still owns and which were not included in the deal. The orchard bought by Mr. Carpenter is considered one of the best in the valley. Three fourths of the acreage is in 8 and 9 year old bearing trees and the rest a year or two younger. The purchaser is now here and it is understood will shortly become a permanent resident.

The sale was primarily brought about, owing to the fact that Mr. Howard has been incapacitated by rheumatism for some time and has been unable to give the place his personal attention. The deal was made through the agency of the Hood River District Land Company.
