WHITE SALMON

(From the Enterprise)
Charles Thompson, of Husum, caught three six-pound rainbow trout at Husum Monday. They were beauties. During the past week trout have been busy trying to jump the falls at Husum.

Bertleson & Sons, of Tacoma, were awarded the contract for digging the ditch at Camas Prairie, north of here, which will drain Conboy lake and add 7000 acres of rich soil to the cultivable area. The contract is \$45,000, and the ditch will be seven miles long, with laterals.

Frank Smith, formerly of this place, has bought the corner grocery store on the heights at Hood River. The store has a good business and is well located. George Christy, who first started this store with a \$500 stock, cleaned up \$5,000 the first year.

Jack Ackley undertook to go to Goldendale via Glenwood Saturday, but in going up the Kileklat grade in his new Parry, the engine stopped. Getting out to crank, the emergency brake slipped and the machine backed off the grade and went sliding down the side of the hill for about 150 feet. It looked like a wreck, but only about \$75 damage was done. Frank Egan and Charlie Hutchins went out and they got him

started again on an old trail to Goldendale. On Saturday he will again try the same trip.

Fred Ketel, our noted mountain guide, and C. T. Dewey, of White Salmon, were the first to complete the ascent of Mt. Adams this year. Mr. Ketel says that the last name on the book in the box was the same as the one he saw on his last trip last fall. Several parties have attempted the climb earlier in the summer, but have failed on account of the bad weather conditions. The climb was made from Cold Springs to the top in seven and a half hours.

QUEER ATTEMPT TO EVADE ASSESSMENT

A peculiar attempt to evade a tax assessment on live stock was brought to light last week when the assessor of Skamania county, Wash., came here for a consultation with Jasper Wickham, assessor for Hood River county.

According to the Skamania official, a resident of that county who owned a large number of cattle took the band across the river last fall and wintered them at Cascade Locks, where hay was more plentiful. This spring, it is said, he took the cattle back to Skamania county and butchered them.

When the Washington assessor learned of the incident, complying with the law he placed an assessment on the stock. The owner, however, claimed that they belonged in Oregon. Mr. Wickham had been returned to Washington. It was stated by the Skamania county assessor that the assessment made against the stock would stand.

Mrs. Wm. Ross, of Carson, accompanied by her mother and sister, of Kansas, are guests at the home of Mrs. John Dinmore this week.

SECURING DATA ON CITY WATER SYSTEM

To obtain information for use in the condemnation suit which will soon be brought by the city against the water company to establish a price on it, L. C. Kelsay, a prominent civil engineer of Portland, G. T. Morgan, assistant to Kelsay, E. A. Taylor, connected with the Portland city water works, and another engineer from Hillsboro, have been making an investigation for several days. Their report has not yet been completed and it will not be given out to the public until the trial takes place. The investigating party has examined the books of the water company, made a number of measurements and dug down to the pipes in the city in several places. Monday night they spent several hours at the reservoir taking measurements. Tuesday Mr. Kelsay visited the Tucker spring.

It is now expected that Judge Bradshaw will hold a special term of court here to try the case. The city has retained the services of Stearns & Derby to present its side of the suit.

It pays to advertise.
