

\$15,000.00 Worth of Orchard Properties Were Sold By Us in the Past 90 Days Lots 1 to 43 inclusive of MOSIER VIEW ORCHARDS

Containing approximately 420 acres, have been sold and the SECOND DEDICATION, embracing lots 44 to 74 inclusive, is now offered to the public at attractive prices and on easy payments.

MOSIER VIEW ORCHARD TRACTS

During the past Three Months we have sold to some of the shrewdest buyers and most careful investors from New York, Massachusetts, North Dakota, Texas, Minnesota, Oregon, California, Montana, Washington, Missouri, Ohio and Alaska. Portland people alone purchased over \$50,000.00 worth of these ORCHARD PROPERTIES during this period. We plant to a commercial variety of apples these 5 and 10 acre tracts, and care for same in a scientific manner for a period of 5 years, without any cost to the purchaser except the purchase price, which is extremely low.

SUNDAY EXCURSION trips to Mosier View Orchards are becoming more popular every week. Call or write us for our FREE BOOKLET.

ALASKA MADE BIG GAME PRESERVE

Alaska has just become one vast game preserve. The Alaska Fisheries Survey is a new division of the fisheries bureau that has been created, with Dr. B. W. Evermann in charge, to look after all the Alaska fur seals, the lesser fur bearing animals, the beaver and sea otter, and almost all the varieties of bear, but by a strange arrangement the kodlak bear, largest of his tribe, is placed under the jurisdiction of the biological survey. The territory will be controlled from this time on, so far as the game is concerned, like a huge zoological park. No fur bearing animals may be killed except under the rules laid down by the Fisheries Survey. The sea otter is not to be hunted for nine years and the beaver not for four. The movement is going to take the greatest care of the fur seals. Five game wardens are to be named for Alaska, and they are to guard and study the animals in their several districts, securing specimens of each annually. Incidentally it might be mentioned that the protected bear about Katalla are getting so numerous they are becoming a positive nuisance.

SPECIAL TRAIN TO ASTORIA

Seattle Chamber of Commerce will send a special train to the Astoria centennial, which opens August 10 and continues a whole month. One section will be taken by business men of Seattle and their families. An invitation will be extended to other Northwest commercial clubs to join in this celebration and share Seattle's excursion train. The celebration commemorating the first settlement in the Northwest is of unusual historic interest. A big time has been arranged.

WILL SHIP ELK TO OREGON

Elk from Wyoming will be shipped to the mountain districts of Union and Willawa counties during the coming winter. The animals are hard put to it for food during the severe Wyoming winters, and many of them starve each year. The government is determined to save the Wyoming herds from extinction, and the Oregon mountains offer ideal range for them.

HARVESTED A PORCUPINE

A full grown porcupine was harvested by a combine near Pendleton July 20th. The presence of the animal was first revealed by a great thumping in the region of the separator fan. This was followed by an outpouring of quills. Investigation disclosed the porcupine, which was lassoed and dragged forth still alive, but minus his tail.—Sherman County Observer.

BASEBALL SUNDAY AT PARKDALE

Next Sunday the Heights team will journey to Parkdale, where it will take on a game with the team at that place. Excursion rates have been arranged on the Mt. Hood railroad allowing spectators to go up in the morning and return in the evening. A well laid out diamond has recently been completed at Parkdale and a good game is expected.

UNION SERVICES

August 6—United Brethren church, Rev. E. McOmber, preacher.
August 13—Christian church, Rev. J. B. Parsons, preacher.
August 20—United Brethren church, Rev. E. McOmber, preacher.
August 27—Methodist church, Rev. T. S. Handsaker, preacher.

DALLAS MAN RE-APPEARS

The mystery of the disappearance of L. D. Ackerman, who had been employed on the ranch of J. C. Hostetter on Chenoweth creek, near The Dalles, was solved last week when his wife received word that he had been in Portland and San Francisco on a business trip.

CARD OF THANKS

Mr. and Mrs. O. B. Elytger wish to thank the neighbors and friends who were so kind during the sad days following their son's death.

SWITCHED THEIR VOTES

"When I saw the oil painting of Tom Corwin in the treasury," said an Ohio man, "I could not but recall the story told in Corwin's old home of Lebanon of how he won his first election to congress. He was a young man and already noted as an orator, but he had a hard district and little encouragement for election. He was making his tour of the counties and one night stopped at the double cabin of a farmer known to be a very fervent advocate of political parties of the opposition. Corwin talked politics carefully with the old man and his sons before bedtime, but had little hope of winning a single vote in the household. In the morning the old man took Corwin outside and announced that every voter in the family would be for him on election day. This astonished and delighted Corwin, who could not help but ask why the sudden change of heart.

THE HIDDEN LIGHT

Remember, if the cloud is over you, that there is a bright light always on the other side; also that the time is coming, either in this world or the next, when that cloud will be swept away and the fullness of God's light and wisdom poured around you. Everything which has befallen you, whatever sorrow your heart bleeds with, nothing is wanting but to see the light that actually exists waiting to be revealed, and you will be satisfied.—Bushnell.

TO STOP HICCUPS

Simple cases of hiccough are often relieved by such measures as sucking lemon or taking salt and vinegar, says the New York Medical Journal. Pulling the tongue forward and holding it for some time is an effective procedure. Sometimes obstinate hiccough is relieved when the patient is strong by having him hang with the arms extended and grasping some beam or pole, so that his feet do not touch the floor. With all the abdominal muscles tense, have him hold his breath as long as possible. Sneezing is very efficient in certain cases, since it is the exact opposite to hiccough, being a sudden expiratory act.

CORE OF THE EARTH

It May Be a Mass of Steel Some 5,580 Miles in Diameter. Various conjectures have been made from time to time by geologists as to the possible condition of the center of the earth. One of the most popular impressions seems to be that the earth's center, or core, is a flaming furnace. At a meeting of the Selsiological association at The Hague Professor Weichert asserted that his studies of the varying velocity of earthquake tremors passing through the interior of the globe have led him to the conclusion that the earth consists of a central core of iron or steel, about 5,580 miles in diameter, surrounded with a stony shell 930 miles in thickness. Between the outer solid rind and the inner layer of rock, covering the metallic core, he thinks there is a layer of liquid or plastic material, lying a little less than twenty miles below the surface of the earth.

MORE WORRY

"I didn't know you admired that of-ficial!" "I don't," replied the political manager. "Then why do you insist on crediting him with a presidential boom?" "Merely to make his life harder by giving him something more to worry about."—Exchange.

BE SLOW TO INDORSE

"A man should think before he speaks," said the prudent youth. "Yes," replied Dustin Stax. "And he should think still harder before he writes his name on the back of any sort of document."—Washington Star.

ALL MUST HELP

A wise man who does not assist with his counsels, a rich man with his charity and a poor man with his labor are perfect nuisances in a commonwealth. Swift.

VINEGAR AND CIDER PLANT NOW LARGE INSTITUTION

The vinegar and cider works have been greatly enlarged and the building is being further added to on the side toward the railroad, where it will reach the tracks. It now has three floors, with an immense floor space and storage capacity. The company this summer has established a large business in soft drinks, and is putting out a superior grade of goods. It is expected to be able to handle the vinegar and cider business much more conveniently and more quickly this year than formerly.

YOUR LAST CHANCE

To get magazines at 1910 club prices. Nearly every standard publication will increase their club prices for the season 1911-12, so we cannot fill your order for any club given below after September 30, 1911. See the point? Then send us your Order TO-DAY.
