If it's a surface to be painted, enameled, stained, varnished or finished in any way, there's an Acme Quality Kind to fit the purpose.

Strong Reasons J for Fall Painting

1. The wood is thoroughly dry. Summer's sun has removed all moisture.

2. Paint penetrates deeper into dry wood.

The deeper it goes the better it holds.

3. Fall weather is warm, dry and dependable.

Little danger of cold, damp, rainy days, which endanger the durability of the paint.

4. Wet weather decays and destroys unprotected surfaces.

Lack of paint means unsightly and less valuable property.

5. Fall painting keeps out winter moisture.
