

An Interesting Motion Picture ENTERTAINMENT

To be given at the
HEILBRONNER HALL

8:15 P. M.

To-Night

Over 4000 Feet of Film Showing the Construction of Goodrich Automobile Tires

From TREE to TIRE

Motion pictures showing the native South American Indian taking the crude rubber from the trees; the packing for shipment; the cleaning; the various steps necessary to produce the finished tire.

Slides showing various injuries to tires, their remedies and means of preventing. A lecturer, himself an expert tire-maker, explains every step, making it interesting to all. This is purely an educational entertainment. It does not constantly flaunt before you the name of any particular tire-maker and can be appreciated and enjoyed by all. Doubly interesting, of course, to the user of Automobile Tires.

The One Hundred and Two Hundred Mile Atlanta Auto Races will also be shown ---Come along and bring your friends.

We want the honor of presenting all our friends and patrons with **COMPLIMENTARY TICKETS.** Call on us and get them, or phone us to reserve them for you.
