SCHOOL TOPICS

Edited by E. E. COAD A DANGEROUS CONTAGION. 'All the great things in life have midnight hours; then the neighbortheir counterfeits and imitations, some containing poisons, slow acting, but nevertheless deadly in effeet.

Last year we had many cases of question is too serious for beity. There is an ideal companionship contagion in the schools, one result of which was the loss of 3060 days for boys and girls, such companionschool attendance. This year we ship is rational and wholesome; it is have had neither measles, mumps general and healthful, not saturated

with the mating instinct. Too often nor chicken pox; but we have another disease not listed by the state the innocent friendships of childhood board of health. There are no quar. are utterly spoiled by the silly sugantine regulations for its control, gestions of older brothers and sis-Whether it is contagious or infectious ters, or of other people. But the our medical friends will have to de. critical period in the life of any boy or girl is the adolescent, the time cide, but any school teacher can which intervenes between childhood swear that it is catching and that it spreads. It is to be found in every and actual manhood and womanschool. Hood River schools have a bood, the time when character and the habits of life are forming. If few cases, more than some schools, ever a boy and a girl need a father's less than others. In varying degrees of intensity it may be found in most and a mother's complete confidence, wise counsel and firm guidance, it is of the grades, including the high school. It seldom causes loss of at- during these formative years. This is a poor time for cheaply sentimentendance at school, but it certainly tal or wildly sensational reading, unfits the sufferer for serious school for associations that develop an unwork. Occasionally a severe case wholesome imagination, for the free cuts a student's career short. The symptoms run the whole gamut play of precoclous instincts. Boys from silly to tragic. A peculiarity and girls must be prepared to withstand temptations. This is not acof the disease is the fact that it selcomplished by hot-house methods, dom attacks a lone individual. Another remarkable symptom is the High ideals and good habits, the hallucination which leads two of the most important of which is a rigid patients to suffer together. Most self control, are most essential. people can recognize the disease, even Character, after all, is the important thing. Grown people these days are if they have never suffered its effects, inclined to look with too much leniby the tired feeling that comes over them when they are compelled to ence upon the lapses of youth. The

constant excuse of youth for wongwitness the antics of the smitten. doing is: "I never thought," or "I In the primary grades the disease is largely imitation or the result of just wanted to do it, I don't know why." Self-control and reflection suggestion. Flashes of the real thing are to be seen even here, in the case are more or less a habit; they are not inherent in the average child. You of the small boy and girl who alterncannot free children from unrental ately enjoy the delectable sweetness of an "all-day sucker," or chew the restraint and expect them to exercise self-control. They must be subjected same wad of gum. Farther along to a more or less rigid discipline in come languishing glances, surreptithe home and in the school until tious notes, and an exchange of jewelry. These symptoms are either right habits are formed and fixed; added to or subtracted from depend. then self-control may gradually be allowed to take the place of parental ing upon the sufferers, their environment, the amount, duration and control. There is a growing lack of kind of suggestions they have been respect on the part of young people teward their eiders, parents included. subjected to, their tendency to imitate or dramatize, the examples set Isn't it about time to resurrect some before them and their ideals. The of the precepts of our fathers and other day an intermediate grade boy mothers? It may be too late for stopped in the line of march, struck some boy or some girl ff we put it off a melodramic pose borrowed from much longer.

Married at U. B. Parsonage

At the U. B. parsonage at 9 o'clock

some moving picture "vaudeviilain," smote his chest and addressed the lady of his choice thus: "I love you Sunday night Warner Lee Kirkpatwith my whole heart!"

rick, a young carpenter of Hood 1 remember once being awakened River, and Miss Pearl B. Foster, long after midnight by a fifteen year daughter of Mr. and Mrs. A. M. Fos-old boy singing to his lady love, on ter of White Salmon, Wash., were the steps across the way. His heart touching ditty was the chorus of "John Brown's Body." After sing-ing it once he sang it again, omitting the last word. Across and the state of the sta the last word. Again and again he
