

We Are Constantly Adding New Lines to Our Already Large Stock. Our Latest Addition Is the Best of All

We have been in this business long enough to quit enthusing over every new article offered us. It takes something far above the ordinary to get us to fever heat with enthusiasm. But we've got the fever--and got it bad. And if we could only impart some of this to you--but what's the use of talking that way about it! We don't HAVE to impart it to you. One call at our store--and presto! You will have it just as bad as we have.

When you look at this outfit, think of the BRAINS it took to work out the idea in all its finished details. Think of the TIME it took--of the PATIENCE--the DISAPPOINTMENTS--the WORRY and THOUGHT--the WORKMANSHIP! Then see what a simple and perfect outcome.

Think what this outfit means to the family living far from the city water mains. It means health and happiness--it means life itself--for life depends on good, pure water.

But here we've got to back up. We haven't told you what we are talking about. Our enthusiasm is carrying us away. We are talking of the best and most perfect system of water supply ever invented:

The KEWANEE!

We wish we could explain fully to you on this page all the little details of the system. But we can't. All we can do is ask you to call at our store and see it in operation. We have the complete outfit in our window display. Make it a point to come by our store and see it. Watch it from the OUTSIDE if you want to--you'll get so interested in it that first thing you know you will be on the INSIDE and we will be telling you of it. Then we want you to get one of the descriptive catalogues. You'll enjoy that too.

If you are contemplating a new house this fall, or next spring or any time in the future--make it a point to see this outfit. It will make you happy to think of the comforts you are to enjoy. Honestly, we could talk ourselves hoarse in telling you about this system--but we want you to see it. Come in any time.

And then there are other interesting things to see as well as the Kewanee System. But will tell you about them next time. If you can't possibly get in, send for the Kewanee Catalogue. Will be glad to mail it to you--it costs you nothing.
