William C. Middleton and John H. Middleton to Nelson Emery and wife, lot 4, block 1, Middleton's subdivision.

WOULD CLOSE HOOD RIVER TO COMMERCIAL FISHING

At a meeting of the Commercial Club directors held Monday resolutions were passed petitioning the State Fish and Game Commission to close Hood river to commercial fishermen for the reason that it is a spawning ground for the salmon. Some local parties are said to have been using seines in the stream, which local sportsmen are very anxious to prevent.

Apple Fair Association

The annual meeting of the Apple Fair Association will be held in the Commercial Club rooms on Saturday Jan. 27, at 1:30 p. m. The purpose of this meeting is to elect a board of five directors for the ensuing year and to transact such other business as may regularly come before the meeting.

Cakes Without Eggs
Can be made with
Crescent Baking Powder

Crescent saves on eggs in cooking because egg albumen is one of its component parts.

FULL POUND 25 CENTS

Crescent Coffees, Teas, Mapleine, Spices, Flavoring Extracts, Etc., enjoy a well deserved reputation.

Grocers everywhere sell them.
CRESCENT MANUFACTURING COMPANY SEATTLE

Bring Your Horse Here
to be shod as he should be. We will shoe him with shoes that fit, that will correct many a fault in his gait.

KINGS AND QUEENS ARE ENTERTAINED

Garbed in raiment of gold and satin, members of Laurel Rebekah lodge and their husbands enjoyed a novel party given at the home of Mrs. S. W. Arnold, the district deputy president, last week. A royal good time was insured by the fact that all the guests represented kings and queens. A delicious banquet was served in the parlor, which was beautifully decorated, the colors being green and red. The place cards were made in the form of little folders emblematic of crowns.

The party was given in honor of the present officers of the lodge.

Those present were as follows: Mr. and Mrs. E. S. Mayes, Mr. and Mrs. B. F. Moses, Mr. and Mrs. A. Wilson, Mr. and Mrs. W. Ganger, Mr. and Mrs. R. Wiley, Mr. and Mrs. Bert Walsh, Mr. and Mrs. A. R. Crump, Mrs. M. Fernald, Mr. and Mrs. R. E. Johnson, Mr. and Mrs. A. C. Lender, Dr. and Mrs. Dutro, Mr. and Mrs. Schmeltzer, Mr. and Mrs. Vincent, Mr. and Mrs. Shay and Mr. and Mrs. Arnold.

After luncheon, which was featured by a novel method of pairing the royalty, an inventory was taken of checks that had been furnished each guest earlier in the evening by the hostess. Each check represented a penalty for using the words "yes" or "no" in conversation. On the count Mrs. Schmeltzer was awarded first prize and Mr. Ganger the booby, he having the second largest number of checks.

Notice by Recorder Howe

Henry Howe, the city recorder, announces that his temporary office until the first of next month will be with the Hood River Abstract Company. Mrs. Campbell will have charge of the books and those having business to transact are requested to see her.

American Exports.

One of the most gratifying signs of national health is the increased sale of American goods in all the parts of the world. While there has been a slight decrease on a few items, there has been a great gain on the whole. Take the sale abroad of American boots and shoes, for example. Concerning this a recent government bulletin gives the following facts:

The American shoe manufacturer is extending his sales in all parts of the world. In the fiscal year 1880 we exported less than 400,000 pairs of boots and shoes; in 1890, 600,000 pairs; in 1900, over 3,000,000 pairs; in 1905, over 5,000,000 pairs; in 1910, over 7,000,000 pairs, and in the calendar year which ends Dec. 31 the number will exceed 8,000,000 pairs, to say nothing of the million pairs going to Porto Rico and Hawaii. These figures relate to boots and shoes of leather, while if to this we add those of india rubber we get an additional 3,000,000, bringing the total number of American made boots and shoes passing out of continental United States in 1911 up to an average of a million pairs per month against about half a million per annum twenty years ago.

This increase, it should be remembered, has come in the face of a large manufacture in foreign countries of boots and shoes called "American" manufactured by foreign workmen and of foreign material, but upon American patterns and following American methods of manufacture.

It is thus probable that the number of boots and shoes of American type and thus American in the sense of form and method of manufacture sold in foreign countries is very much greater than that indicated by the mere figures of exportation.

It is apparent that in more ways than by the spread of our democracy and invention we are adding to the world's understanding.

An uncle of former Governor Odell of New York does not want to accept a quarter of a million legacy and says he does not know what to do with the money. The former followers of his distinguished nephew might tell him.

Dr. Woods Hutchinson says that a mince pie is "an easily assimilable polysaccharid carbohydrate of highly calorific efficiency." That accounts for the nightmares it causes.

A New York lawyer had his voice restored by hypnotism. Always thought there were bad things about the practice of hypnotism.

MORE RESTRAINT BY PARENTS URGED

There are three respects in which some of the High School students are in need of more parental restraint, according to Prof. McLoughlin, who was one of the speakers at the meeting of the Heights Improvement Club Friday evening. That malady which is called "calf love" is showing signs of becoming epidemic, so Professor McLoughlin stated, and the teachers are also handicapped by the fact that some of the youths are looking upon the wine when it is red, or at least upon other and equally harmful beverages. Also an increased parental restraint is needed, according to the speaker, in keeping the young folks at home in the evening instead of permitting them to run loose on the streets as late as they may wish.

This statement to the parents was brought out in the course of the discussion on the selection of proper fiction in the schools, the Professor maintaining that the teachers were not able to do their best for the scholars when the parents did not do their part.

Mr. Simonson, who was the first speaker, thought that some of the fairy stories taught in the primary grades were unsuitable and in some cases injurious. He read a couple of selections. This was followed by a short speech by Professor Conal, who pointed out that children of the primary grades are at an age when they practically demand fairy stories. Professor Gibson also spoke along the same lines, although both admitted that the teachers must use their judgment in selecting stories to be read. These addresses were listened to with interest by the club members and others present. They were followed by a general discussion along the same lines.

LIGHTING TALKS

Number 5

The fundamental considerations for any public utility corporation engaged in the upbuilding of permanent business rest upon the basis of efficient service and fair return upon the company's investment and co-operation with the general public in the upbuilding of the community. These guiding principles constitute the company's public policy. They benefit not only the company but the community at large. The company and its predecessors have done, and are doing, pioneer work in building up an electric light and power business in Hood River and in stimulating the development of this city and the surrounding country, the growth and development of which will inure to the mutual benefit of both the people and the company.

This company has provided and is now furnishing electric light and power service for the city of Hood River and surrounding country that cannot be excelled in any community of similar size in the Pacific Northwest. Our lines extend out over both sides of Hood River Valley, and furnish these rich sections of territory with a splendid light and power service—something that is enjoyed by few rural communities. Our patrons in Hood River Valley are enabled to have at their command these comforts of the city and at the same time enjoy the advantages of country life. Thus, by promoting the welfare and comfort of residents of the valley, we believe we are helping to build up Hood River, as the prosperity of any city is largely dependent upon the prosperity of the surrounding country.

The management of this company knows that the only way to get a square deal is to give a square deal. Our rates are not exorbitant, and we can justify them to the satisfaction of any fair minded person. That our service is first class is attested by the fact that during the recent storm when many electric light and power companies in all parts of the country were demoralized and out of business, this company's service was uninterrupted.

We believe that we are entitled to the respect and confidence of the public, and we want the co-operation of every customer, big and little, for a bigger, brighter and better Hood River.

FAREWELL RECEPTION GIVEN REV. AND MRS. HANDSAKER

Monday evening the Loyal Berean class of the Christian church gave a pleasant farewell party to Mr. and Mrs. T. S. Handsaker, who left yesterday for Walla Walla. During their fifteen months' ministry here they have made a place in the church and community which it will be hard to fill. Their many friends wish the greatest possible success in whatever field they may enter.
