## NEW HOLEPROOF HOSIERY

Then—

### The Darning Method

Under the old way you spent hours darning the hosiery every week. You often had to sit up late at night to get the work done. In fact, it was a drudgery that you didn't know how to avoid.

Even when the work was done the hosiery was uncomfortable. This was not your fault, for the darning drew the stocking out of shape and left a thick pad which irritated the skin.

—Now

### The Holeproof Method

With the new way you need never see the darning basket. You have your evenings to read and talk with the family. For if there appear any holes in the hose within six months, you bring them back and get new hosiery.

Besides this, the hosiery makes the feet comfortable—it fits the ankle as neatly as a glove fits the hand. No wonder, then, that over a million homes have adopted this method.

## FAMOUS Holeproof Hosiery

FOR MEN WOMEN AND CHILDREN

Holeproof Hosiery is the first guaranteed hosiery ever put on the market. Others have imitated the guarantee, but they could not equal the 31 years of experience that made this hosiery possible.

Only the softest and finest Egyptian and Sea Island cotton is used, at 63 cents a pound. Others use ordinary cotton, at 12 cents a pound. Yet their hosiery sells for the same price as "Holeproof."

The heels and toes of "Holeproof" are 6-ply, while the body is

3-ply. Common hosiery uses only 2-ply throughout. So why not have "Holeproof" when the cost is the same?

Men's hose come in eleven colors and women's in six. Price from \$1.50 to \$3 a box containing six pairs. Children's hose come in two colors—black and tan—at \$2 a box. Learn today what they are like—see how much darning they save.
