PARENTS FORGIVE; COUPLE ARE HAPPY

Sheriff A. E. Thompson of Columbia county, accompanied by the father of Vivia E. Shumway of Rainier, Ore., came to town the middle of last week, his purpose being to take back to that place Miss Shumway and Marian R. Neal, who were married here the preceding Saturday. The couple ran away from Rainier because Miss Shumway's parents opposed the match.

An attempt was made here to pacify the irate father. It was shown that Neal is an exemplary young fellow. Frank Stanton, by whom he has been employed, spoke very highly of him. However, Mr. Shumway declared that his wife wouldn't be satisfied if he returned without the couple and so they returned with him to Rainier, accompanied by J. L. Neal, the groom's father.

It appears that Mrs. Shumway had been anxious that her daughter should marry another of her suitors. Love was first with the daughter, however, and when she found that she could not obtain her parents consent, she consented to the elopement. Upon their return to Rainier she was forgiven, and Mr. and Mrs. Neal returned here the last of the week, convinced that the course of true love never did run smooth but happy that their romantic marriage culminated so happily.

WEST STARTS WAR ON BOOTLEGGERS

Tired of being burdened with complaints that the local option law is being violated in different dry counties of the state, Governor West, with the hope of putting an end to the violations, has offered a reward of $100 for every bootlegger arrested and convicted.

In the reward appropriation there is $1000 left, and it is the intention of the Governor to pay the rewards from it. After it is exhausted he will find other means of convicting this class of violators.

From practically every portion of the state come complaints of violations of the gambling and liquor laws and the governor is considering them. He is waiting for evidence against Sheriff Balfour of Crook county and the city officials of Redmond, and when it comes, if sufficient, he will commence criminal and civil proceedings against them.

OREGON STATE FAIR WILL OBSERVE 51ST BIRTHDAY

The Oregon State Fair will celebrate its 51st birthday this year with the biggest and best showing of Oregon products ever gathered. Not only are the crops so excellent that fine exhibits may be made, but new departments will be added for the first time. Among these are the competitive showing of farm products grown by school children of the state and the Exposition of Eugenics, both of which are arousing wide interest.

It eliminates the drudgery of watching the food cooked in the old way, over a hot stove, in a hot kitchen. Just prepare your food in the same old way, put it in the stove and this "simple ornament" does the cooking and finishing better than any other known way. The result: "A Happy Cook!" "A Happy Wife!" A Happy Family!" "A Happy Home!" "A Happy Atmosphere!"

IT MAKES AND KEEPS HAPPINESS IN THE HOUSEHOLD!

Food Is Preserved and Improved by Our Process of Cooking. Loss or Shrinkage Almost Entirely Eliminated.

Saves Its Cost Many Times Each Year

IT SOUNDS LIKE A "FAIRY STORY" BUT IT'S THE TRUTH

In cooking a whole dinner, the vegetables are placed in one compartment, with its thermometer set for the boiling point, and the roasts in the baking compartment, with its thermometer set for baking heat. The main switches are then closed and the small knife switch beside the clock opened. The clock is then set to turn the current into the stove at the selected time.

When the clock closes the switch, the current is applied just long enough to bring the vegetables to a proper temperature, that insures the breaking down of their starchy particles.

Then the current automatically shuts off, but the dinner continues to cook with no further expense, the stove taking on the fireless cooker principle.

Food cannot burn in this stove, receeding heat is used after the starchy particles of the food are broken down, that action taking place when the food has taken the boiling, baking or roasting temperature. Meals can be kept hot for hours with no expense whatever. Food cooked by this new process has a wholesomeness obtainable by no other means.

ABSOLUTELY GUARANTEED IN EVERY WAY

Only a Small amount of Electricity Required. Outside Is Always Cool. All Heat Is Retained Inside.

The Food Cannot Burn

CONVENIENCE AND ECONOMY

Each owner of a Copeman Automatic Electric Cook Stove experiences various pleasures and conveniences from its use—some more than others, but all of them express identically the same opinion of the wonderful household necessity with reference to its convenience and economy.

Economy means many things—among others it signifies conserving one's temper, comfort, health and nervous energy—it means the saving of time, labor, hired help, etc. Last, and perhaps not least, it means the saving of dollars and cents to the household.

Considered on the above basis the Copeman Automatic Electric Cook Stove is truly economical.

Your doctor bills will be cut in two—your servant hire reduced to a minimum as far as cooking is concerned, but the one big item, however, that has no listed commercial value but which counts for more than all the others, is the saving of your disposition and your appetite.

Our Flat Rate Makes Cooking by Electricity the Cheapest Fuel on Earth.

Come and see the food as it is cooked in this stove, daily from 9:30 a. m. to 5 p. m. at E. A. FRANZ CO. STORE
