HORSES WINTERED
DON'T send your team to eastern Oregon to winter and get a skeleton back that isn't fit to handle your spring work. Keep it here in the valley where you can see it at any time and see what good shape it is in. It will not cost you much more.
We have just put up some of the finest grain, timothy and alfalfa hay in the Upper Valley. We have a big stock barn and are prepared to care for a number of teams during the winter. We are making up our list now. If you want your team well cared for this winter, you had better write or phone for terms at once

PACKING TABLE IS GREAT LABOR SAVER

Many advantages over the old style fruit packing table are possessed by the Sykes Fruit Sorting and Packing Table, which was being demonstrated at the Davidson Fruit Company last week and at the store of the Gilbert Implement Company Saturday by George Sykes, the inventor.
The table is composed of canvas racks radiating from a central point where a single sorter places the fruit in the different bins according to its grade. At each of these bins the packer stands within twelve inches of the fruit. One sorter serves four packers and as the latter have only to pack the fruit using one box each, they are able to work with much more speed than under the old method. The racks are adjustable to the heights of the packers. This table occupies no more room than the old two-man table, thus economizing space. It is being used successfully by some of the big fruit men of the Northwest.
The new table is manufactured by the Hurdle Manufacturing Company of Portland, which company is represented here by the Gilbert Implement Company.

BRIEF NEWS FROM AROUND THE STATE

Senator Chamberlain has made the following nominations of candidates for admission to the United States Naval Academy in 1913: Irvine French, Enterprise, principal; Conrad L. Jackson, Portland, first alternate.
With the erection of more warehouses in the local railroad yards, Vale is presenting the busiest scene of activity. Railroad construction on the Oregon Eastern is being rushed with all possible speed and within a month the Harper terminal, 30 miles west of this city will have been reached.
While 9-year-old Hattie Patterson was playing at sand piles, but a few feet from the door of her home near the jetty at Florence, Saturday, she unearthed a skeleton, presumably of an Indian. It had been buried probably for many years, and had gradually become uncovered in the shifting sand. The skull was [whole] and the little girl carried it about, playing with it, not realizing what she had found.
Twelve boy burglars who have been committing serious depredations in the East Side residence district of Portland were corraled and brought into Juvenile Court by Patrolmen C. R. Grism. Although their ages range from 7 to 14, they have been operating intermittently the last three months without detection and it was only after a series of half a dozen "breaks" within the last week that they were overhauled.
Felix Currin, who has one of the largest experimental farms in the Willamette Valley, has succeeded in crossing a raspberry with a strawberry, getting a peculiar looking fruit. The berry is as tasteless as the salmonberry until cooked, when the strawberry flavor develops. Mr. Currin says that by crossing again with the strawberry he will get a nicely flavored fruit. Next year he is going to cross the raspberry with the dewberry and blackberry. It takes two seasons to develop the hybrid fruit.

Because of the prevalence of rabies among dogs in Portland, the first annual dog show scheduled to be held at the state fair under the rules of the American Kennel Club was called off by telegraphic orders from Dr. Calvin S. White, state health officer.

A charge that some of its own members are owners of land on which or of buildings in which immorality is carried on in Portland today for commercial gain is one of many startling features of a report on vice conditions in the city which has been filed with Mayor Rushlight and the city council.
Branding Roosevelt as a modern Caesar fighting for the interests, declaring his candidacy strikes a harder blow at progress than the election of a Tammany chieftain to the presidency and predicting that his following will dissolve like the fading light of a shattered rainbow as the Ides of November approach, Judge Stephen A. Lowell delivered the first political speech of the campaign at Peach Day festival at Freewater.

Theodore Roosevelt does not want to be burdened with a parade or with junketing trips to other cities when he comes to Portland, September 11. This information comes from his secretary, O. K. Davis, to Dr. H. W. Coe, chairman of the local committee on arrangements.
