THE WIREWORM PEST.  
Rotation of crops and fall plowing, which will break up their nests, seem to be the only effective methods of combating the wireworms, which have come to be a veritable scourge of the corn crop in many sections of the corn belt. The reason for this is that they do not become inactive, as do cutworms, in the early summer, but continue eating in and about the roots of the corn plants through practically all of the growing season. So bad have these wireworms been in some fields that as high as fifteen or twenty of them have been found working in a single hill. In a majority of cases the presence of the pest is nature's mute protest at a wrong method of crop growing.

PAINT 'EM RED.  
Even if the law of the state in which one lives does not require it it is a pretty good idea to paint the container of gasoline in such a way and give it so plain a label that there will be no possibility of mistaking it for a kerosene can. There are not officers of the law enough to enter every one's kitchen to see that the law is complied with, and because there are not and because householders do not look after this matter themselves kitchen stoves are blown to pieces and lives snuffed out every now and then as a result of using the more inflammable oil in place of the less.

### BEAR HUNTERS ARE LOST IN DENSE FOG

Out of five bear hunters who returned recently from near Deadhorse Station, ten miles north of Trout Lake, to Husum, three experienced a strenuous time by losing their bearings and wandering about in a fog for 26 hours. Arthur Ward, one of the lost hunters, is a mountain guide, but declares that he is no wiser than a tenderfoot when it comes to leading a hunting party in a fog. The hunters comprised William Anderson, Arthur Ward, Robert Overbauch, Maje Hendryx and Chas. Bowen. The entire party left camp in a dense fog after a heavy rain. Ward, Overbauch and Bowen, after trailing a bear for two miles, killed him, but discovered that they were lost. The following day they met a forest ranger, who put them on the right trail for Trout Lake. In the meantime Anderson and Hendryx were blowing horns and firing guns to attract the attention of their comrades.

The Hood River Apple Vinegar Co. is receiving elder and vinegar apples, consisting of early varieties and windfalls of later varieties.

Partnership Dissolution Notice  
To Whom It May Concern: Notice is hereby given that the partnership firm of "Kinnaird & Kinsey" heretofore conducting a general grocery and feed business in Hood River, Ore., has this day been mutually dissolved by its members, T. J. Kinnaird and J. R. Kinsey, said J. R. Kinsey retiring from the business; and Kinnaird & Larwood will continue in said business and will collect all accounts and bills due the firm and will assume and pay all obligations and debts owing by the firm.

Dated at Hood River, Oregon, this 21st day of August, 1912.  
T. J. KINNAIRD,  
J. R. KINSEY.

ACTION PLEASES NEWSPAPER.  
The Grants Pass Observer recently had this to say, following the action of the Josephine County Grange in condemning the proposed Single Tax measure: "The action of the State Grange in condemning the proposed Single Tax bill will go a long way to putting an end to that fake measure in Oregon. No landowner who understands the Single Tax scheme will be foolish enough to vote for a measure, the real purpose of which is to destroy all private ownership in land."

### OUT ALL NIGHT; JURY CAN'T AGREE

Although they were kept in session all Wednesday night, the jury which tried Osman Royal, driver of the Cloud Gap Inn stage, on the charge of speeding, was no nearer a conclusion Thursday morning and was dismissed. The vote stood three for conviction and three for acquittal. This was Osman's second trial on the same charge, the first jury having also failed to agree. The jury last week included J. G. Vogt, W. D. Rodgers, C. A. Plath, Al Kilger, Charles Rathbun and F. E. Jackson. Deputy District Attorney John Baker presented the evidence in behalf of the state and Attorney E. C. Smith appeared for the defense. James Hawthorn, Arlo Bradley and Hubbard Taylor spent last week hunting and fishing at the base of Mt. Hood.

### ROYAL IS FACING ANOTHER COMPLAINT

Sheriff Johnson is investigating another complaint against Osman Royal, driver of the Mt. Hood automobile stage, who was twice tried on a charge of exceeding the speed limit. Sunday evening Royal collided with a rig driven by two children at the west approach of the steel bridge. It is alleged. The carriage was damaged, one horse crippled and the children narrowly escaped serious injury. An auto driver whom Royal was trying to pass at the time has informed the authorities that he was himself going the limit and that Royal went past him at a much greater rate of speed. It was J. J. Season's children, a boy and girl, who were in the damaged rig. Regular Sunday excursion to Parkdale. Pleasant trip for yourself and friends.
