

### PROGRESSIVE WILL MAKE SPEECH HERE

Attorney A. E. Clark, nominee of the Roosevelt Progressive Party for United States Senator, is scheduled to make a campaign speech here next Saturday evening.

Clark opened his campaign at the Pendleton Round Up last week and afterwards visited most of the important points in Eastern Oregon. He is scheduled to speak at Arlington Friday morning and at The Dalles in the evening. After returning to

Portland he will make a trip through Southern Oregon.

"The speaking campaign so far mapped out is somewhat strenuous, but the short time remaining makes it necessary to visit two or three places a day, especially in the more sparsely settled districts," said Mr. Clark. "I cannot afford to carry on an extensive publicity campaign, and would not if I could. We have a law in this state limiting the expenditures of a candidate in the general election to 10 per cent of his first year's salary. I intend to comply with both the spirit and letter of the law and limit my expenditures accordingly."

### CLANTON ORDERS FISHWAYS CHANGED

Fish Warden R. E. Clanton has returned from Hood River, where he investigated conditions regarding the fishways there, about which some complaint has been made. It was complained that the water at the foot of the fishway was so turbulent that it was impossible for the fish to find their way up over the waterfall. Warden Clanton will recommend that piling be so driven in the stream that the force of the un-

derflow from the water falling over the dam will be broken, thus making a quiet pool at the lower end of the way. An investigation was also made at what is known as Punch Bowl waterfall. The water has a drop of about 10 feet, and there is no place where the fish can get past. Warden Clanton will recommend that a channel be blasted up past the fall at one side, connecting the river above and below.

**Money to Loan**  
Amounts \$500 to \$1500. First class real estate security. Will also buy mortgages for like amounts.

### CHRISTIAN SCIENCE LECTURE IS GIVEN

A lecture on Christian Science was given at the Commercial Club last week by Clarence C. Eaton, a member of the board of lectureship of the First Church of Christ Scientist in Boston. He was introduced by R. E. Scott. Mr. Eaton's lecture was, in substance, as follows:

The remarkable betterment wrought in the temperament, character, habits, and deeds of men by Christian Science is the direct result of the casting out of evils or devils. This evidence of obedience to the Master's commands is attracting more attention today, perhaps, than mere physical healing. The latter is an incidental experience on the way to the ultimate of reformation and transformation. The most precious gifts of Christian Science are to be designated as peace, contentment, satisfaction, joy—experiences and conditions for which we crave and which can become ours only through the casting out of evil and the acquirement of enlarged spiritual understanding. By a proper application of scientific and demonstrable knowledge of spiritual truth, errors in belief which through one's consciousness are cast out, dissolved, and dissipated, as naturally, scientifically, and inevitably as light destroys the darkness. Usually the first errors to yield to one's mentality are those which have found expression in physical infirmities, but this is not the goal which Christian Science urges us to seek. We should strive for and win a consciousness thoroughly purged of evil, and so we press forward, as Mrs. Eddy has so aptly put it in our text book, "until boundless thought walks enraptured, and conception unconfined is winged to reach the divine glory." Science and Health, page 323.

For sixteen centuries mental therapeutics as instituted by the Master remained dormant, but in these latter days Christian Science represents the restoration and re-establishment of its practice. Less than fifty years ago only one person on earth realized what Christian Science in this respect means to the world. Today many thousands are vividly conscious that it is wholly due to its teaching and practice that they are alive and able to say they are healthy and happy. If in less than half a century, much of which time was necessarily spent in overcoming the prejudices of mortals and dealing with the many problems incident to the formative period of earthly undertakings; if during these trying years of the re-establishment of a religious practice which had been entirely neglected and in disuse for upwards of sixteen hundred years; if notwithstanding the almost universal and persistent practice of ignoring God as the healer of the sick and seeking material means for relief and healing, no matter how utterly inadequate or futile—in the face of all this Christian Science has adequately proved equal to the task of releasing from the bonds of sin, suffering, and disease hundreds of thousands of people, are we not justified in saying there has come to their realization the fulfillment of Jesus' prophecy: "He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father." "And these signs shall follow them that believe: In my name shall they cast out devils; they shall speak with new tongues; they shall take up serpents; and if they drink any deadly thing, it shall not hurt them; they shall lay hands on the sick, and they shall recover."

### HOPED FOR MUCH; FOUND EVEN MORE

When Mr. and Mrs. Hockman of Frankford, Ind., read descriptions of the famous Hood River Valley they took with them a few grains of salt, more than half convinced that the truth was considerably stretched by the western booster spirit. Last week Mr. and Mrs. Hockman got off the train here to visit her old school friend, Mrs. S. E. Bartmess. They had read much of Hood River and were anxious to see the valley. An automobile was secured and they were taken by Mr. and Mrs. Bartmess for a spin to Van Horn through the "parlor district" of the valley.

Mr. and Mrs. Hockman were delighted at the sight of the thousands of acres of trees laden down with bright red and yellow fruit. The day was perfect and to them the valley was a veritable paradise.

"Before coming out on our present trip," said Mr. Hockman, "we had read much of Hood River, but never until we saw it with our own eyes did we believe that such a beautiful spot existed. What we have read was not exaggerated. On the contrary it rather fell short of the whole truth. We are going back East and tell our friends that what they read about Hood River is true, every word of it, and that much more could be said in slides."

### WHITE SALMON (From the Interior)

G. F. Jewett has returned from a six weeks' visit with friends and relatives in Ohio and Michigan.

Mrs. J. C. MacInnes and Mrs. J. L. Sutherland have been spending a few days in Hood River, the guests of Mrs. Waugh.

A. L. Tibbetts, who has been employed at the Rafter Hardware Store, has gone to Hood River where he has been given a position in the Stewart Hardware Store.

The toots of a locomotive whistle will mingle with those of the donkeys in Upper Carson valley in a short time. The Wind River Lumber Company have commenced the construction of their logging railroad, which will begin at the Wind river dam, traversing the east bank of the Wind river for nearly two miles, and will then cross and go up the other side. Several branches will be built on each side.

**CULL APPLES**  
Hood River Apple Vinegar Co will pay \$8 per ton for this grade in sacks delivered to factory. Sept. 25, 1912.

Mrs. Lina McCann makes all kinds of hair goods from combings. Phone 167-N. 39 42p

### FIRST MEETING OF WOMAN'S CLUB HELD

The first meeting of the Hood River Woman's Club was held Wednesday afternoon, September 20th, in the Commercial Club rooms.

Several new names were handed in for membership. At the close of the business meeting, Miss Northey, the librarian for Hood River's new library, gave a very interesting talk on library work and how it would benefit the public in general. She said that 80 books were drawn the first day.

A song was rendered by Mrs. Aiken, accompanied by Mrs. Kanauga, after which a social hour was spent in the nature of a reception given by the new officers to the club members. Dainty refreshments were served and a very enjoyable afternoon passed.

**For District Attorney**  
I announce that I am a candidate for district attorney for Wasco and Hood River counties on the independent ticket. If elected, I pledge myself to perform the duties of the office to the best of my ability.  
[paid adv.] J. W. ALLEN.

"I'll bet you a dollar I can save the price of that packing table in one season!" Well, we didn't take the bet. Not because we are afraid to take a chance once in a while, but because we know it would be a losing bet. Maybe the man who made us this offer will recognize his own words--we are not at liberty to disclose his name. We have heard a lot of favorable comment very similar to the above about the Sykes Sorting and Packing Table. We say to you frankly that we are not experts at packing fruit. We never packed a box of apples in our lives--but we hear enough talk about it, and see it demonstrated enough to know that we've got a mighty good packing table.

With a fine of \$10.00 and \$3.20 added for court costs (this for speeding on the macadam) fresh in our minds, we don't want to get pinched for gambling, but we would be willing to gamble that if you ever tried one of these tables you wouldn't give it up unless you could buy another one. We sent several out on trial and made a memorandum charge against the purchasers. Every one has phoned us he would keep the table. "It's a dandy"--that's what they all say.

We could go into detail and fill a page or two explaining the advantages of the table and telling you what different people have said about it--but you wouldn't read it, anyway. The best way for you to find out is to come in and see it. We try hard to keep one set up on our floor all the time, but sometimes we can't keep them long enough. Anyhow we can tell you about it if you call. But don't wait until you are half through packing.

The price of the table is not \$500, and it isn't \$400 either. It's \$42.00--get that in your head--\$42.00. That won't break you--and if it doesn't save you its price in one season, then we miss our guess.

While you are here in the store, you might as well look around a bit. (Sounds like an Englishman, doesn't it?) We advertised a while ago that we were having a September "Clean-up" Sale. This doesn't mean that we have a lot of old shop-worn stuff that we want to pan off on you. We explained before in our ads. that we intend to handle the John Deere line straight through--John Deere Buggies, John Deere Plows, John Deere Implements, etc. So that is why we sent you that circular letter last week, quoting such low prices on Studebaker Buggies and spring wagons and Oliver plows. We want to get rid of all our stock of these goods. That's why you can buy cheaper now. But listen--the price we quote is rock bottom--they won't be cut one cent less. They can't be--that's why.

# GILBERT Implement Company

**Dr. M. A. Jones**  
DENTIST  
Formerly of Hood River, is now located at 245 1-2 Washington St., Portland, Ore.  
M. S. DENTAL COMPANY

**THEY WILL LOOK LIKE NEW WHEN WE GET THROUGH**

Don't throw away your soiled clothes or hang them up to be moth-eaten and forgotten. Bring them to us. We make a specialty of cleaning and pressing clothes
