HORSES WINTERED

ON'T send your team to eastern Oregon to winter and get a skeleton back that isn't fit to handle your spring work. Keep it here in the valley where you can see it at any time and see what good shape it is in. It will not cost you much more.

We have just put up some of the finest grain, timothy and alfalfa hay in the Upper Valley. We have a big stock barn and are prepared to care for a number of teams during the winter. We are making up our list now. If you want your team well cared for this win-ter, you had better write or 'phone for terms at once

In the Race for Leadership "Benjamin" Clothes Always Win

'N the busy marts of trade, in the social whirl, clothes may not make the man, but they are a big help. Appearances count for a great deal. The best dressed men of America "Wear A Benjamin,"---the clothes of the leaders.

This leader wears an Avon model. A suit which is exceedingly popular with the very dressy.

BARGAINS REAL

COMES TO DEFENSE OF JAPANESE LABOR

Editor of the News:

In that two minute speech of A. I. Mason before the People's Forum on the labor problem in the Hood River Valley every point was well taken and is worthy of the attention of the Forum for one whole evening or several evenings after it finishes the work it has in band.

Mr. Mason is an advanced thinker in the front ranks of the progressive state, while we are moving onto a higher plane into the new thought religiously. This is why he is oftentimes criticised as being pessimistic and visionary, or as an agitator, by those people who cling to the traditions of the past, and precedent, and allow somebody else to do their thinking, or are carelessly indifferent and trust to fate.

It is a self-evident proposition to every person who has given the mat ter any thought, that there is something wrong with our present economic and social system, the present methods of production, distribution during the month of September, 1912, ability to accumulate has been and is now encroaching on the producer J M Schmeltzer, cashing road andidistributor to such an extent as to crowd the producer into cheaper I F Christner, 1 coyote scalp quarters, which causes dangerous congestion, decreasing the rural and increasing the urban population, creatiog and overcrowding tenement or slum sections.

This condition is not the result of natural causes or in obedience to the law of social science, but is the result of a false or defective system of distribution, transportation, exchange, land tenure, and unjust or unequal system of collecting revenue, or, in other words, indirect and double

White Labor Unreliable

The fact that the white or native abor usually offered in the Pacific states is unreliable and migratory is another evidence of our economic and social system being out of joint, which will be apparent to even a casual observer who may pass through this valley and see the men bunting work carrying their blankets or beds on their back, and when they come up with a job they are against another problem of where to feed and have to go to the loft of a cow barn or seek a spot beneath the hospitable branches of a scrubby pine or fir tree to spread out their beds; nothing permanent, everything transfent.

This is a problem which the twentieth century civilization is up against for solution.

That the Japanese people are here is a fact that we cannot get away from and everyone is willing to admit that it is not an unmixed blessing, but to discriminate against them is a violation of the modern F Price, sawing 5 cords wood loctrine of the brotherhood of man Oregon Lumber Co, lumber and the fatherhood of God.

Japanese Are Industrious As a rule dhe Japanese are industrious, peaceable and personally of clean habits, and, in fact, more destrable citizens than those being shipped into the eastern states in ship loads and distributed among public utility, transportation and manufacturing corporations in competition with native white labor, which cannot live by foraging among slop and garbage cans and as a last resort or remedy have to move on and become restless, shiftless and unreliable. This may be one of the causes of complaint already men-

For every dollar that the Japanese send out of this country they are supposed to have earned that amount by labor or service and also to have added value to raw material, for which the money they receive is their own and with which they have a right to do as they

From every standpoint they are a better class and more desirable peo. Anton Flint, same ... ple than the negroes of the Atlantic J B Jackson, same. and Gulf states, who did not come here of their own accord or free will, but are here and a menace to our civilization and a terror to the people among whom they live, as is evident from the frequent and increasing number of outrages and lynchings reported in the current daily

newspapers. The conditions Mr. Mason complains of as existing at Watsonville are, it is true, alarming and should Bushong & Co, election supattract the attention of thinking and progressive people, but they are no exception to the rule existing in Texas, Illinois and the cotton states of the Atlantic and Gulf and the grain-growing states of the Mississtppi Valley and Middle West. These conditions are the result of not observing fundamental or primary laws relating to land tenure and le galizing the keeping or holding of galizing the keeping or holding of Young man, get a piece of land Williams Indian Pile Cintment of land out of use for profit by non rest for sale by the owner at bargain Blind, Bleeding and Itching Piles. idents and speculators. This is the price and liberal terms and time. greatest reason of driving people Eight acres good garden truck and from the rural to the urban com-munities, congesting population and ney E. H. Hartwig, Smith Block, williams were con-munities, congesting population and ney E. H. Hartwig, Smith Block, williams were con-munities, congesting population and size of the property of the increasing the price of house rent Hood River, Oregon.

and the cost of living, which can be remedied only by a system of direct SPOKANE IS AFTER taxation of land values, incomes and inheritance, and squeezing the water or imaginary values out of the stocks of transportation, manufacturing and public utility corporations.

These questions are up to the present generation, or near future, for solution, and will have to be settled by the common people, such as Mr. Mason and the people who compose the membership of the People's Forum.

Thus all other great reform problems have been solved in the past by movement in the present transition common people engaged in the ordinary pursuits of life. The "higher ups," who live off interest, rent and and action, socially, politically and profit, in addition to being antagonistic to those engaged in productive and distributive pursuits, do not have time nor inclination. They are what Alexander Hamilton designated "the rich and well born" whose interests should be protected by the upper houses in legislatures, viz: the House of Lords and senates, national and state.

"Young man, get a piece of land" 36tfe For Sale by Carl A. Plath, Druggist

With a view to obtaining Hood River entries for the Fifth Annual National Apple Show and Enskops Carnival to be held at Spokane November 11th to 17th, H. C. Sampson, secretary, vice president and manager of the show, was interviewing the Commercial Club and fruitgrowers here the last of the week.

The matter was laid before the poard of directors of the Commercial Club and they will probably bring it before the members at the meeting to be held next Monday. Mr. Samp son said:

from the carload lot of 630 bushels down to a single apple, with prizes for commercial, fancy and unique displays. All of our contests are wide open to the world. Our judges are men of international reputation who score carefully and closely on color, flavor, condition and pack. The exhibitors are those who are most scientific and most progressive and use the best methods in cultivation, pruning, spraying and packing. The United States Government Poand exchange, i. e., the power and and allowed at the October, 1912, mological Department, recognizing the value of this exhibition, has asked for the privilege of sending an

expert judge from Washington, D. C. "The daily papers of Spokane, 1 50 hundreds of papers in the surrounding country, the fruit and farm pub-95 Beatlons throughout the entire Nation will give wide publicity to our prizes and exhibits. Many thousands of people within 500 miles of Spokane, and greater distances, will

"The Apple Show is larger than the city of Spokane and larger than 21 95 any individual county, fruit district or state. To make it the success it can and will be in 1912 and future years, the foundation of this permanent exhibition must be carefully laid and the board of governors, as well as the officers and trustees, desire the best judgment of the best men in 15 00 the entire Pacific Northwest for the Show of 1912.

"Within a year or two the problem of the unprecedented production 7 25 of apples must be met. The apple crop must be financed as readily and as thoroughly as is the wheat crop 5 20 today The selling and distributing side must be developed and the pres-4 30 ent waste in by-products must be changed to profit. Lower freight 5 00 rates must be secured.

"Great stress will be laid upon the 11 40 financing, distribution, transportation and by products. Co-operation 69 75 in a larger scale is the keynote of 6 60 success everywhere and in all bustness undertakings. The educational side of the exhibit will be emphasized

"In the 1912 Show we are trying to 4 50 growers, shippers, traffic men, rail-5 50 way presidents, bankers of the fruit-24 76 association of Spokane, that all 1 25 views of these questions may be 8 71 in order that the apple industry

"But the thing that will be of the largest interest is the fact that the Fifth National Apple Show will be a great school of information, with the best teachers, scientists and growers of the entire Northwest present with their knowledge, skill 3 40 and experience to be of service to the apple growers."

Regular Sunday excursion to Park-14 25 friends.*

WITH OLD HARNESS

A runaway may cause more than trouble: Serious injuries and sometimes death are the awful results. An old Harness is often responsible, but a new Harness 7 32 with weak spots in it is just as bad. The kind we sell have
