REPUBLICAN HOPE RESTS IN WILSON.

Gov. Burke Declares For Democrat and Gives His Reasons.

By JOHN BURKE, Governor of North Dakota.
The election of Governor Wilson is the only thing that can save the Republican party. Four years of President Taft has split it in two. We have no reason to believe that he will be any different or that his second administration, if he is re-elected, will be any more satisfactory to the people than his first. His re-election will mean the division of the Republican party into many warring factions, which can only result in final dissolution of all.
The end will come quicker and just as certain if Roosevelt is elected, for he is no longer a Republican, but is the leader of a new party, at war with the Republican party, as it is with the Democratic party. On the other hand, if Wilson is elected the Roosevelt party will perish; the Republicans will reorganize their party, purge it of the harmful influence of corporate power and greed and make it again the grand old party it was in the days of Lincoln.

Read the News. It tells it all.

Shall the Flag Continue to Wave

The readers of this paper do not dream that there is a concerted effort to pull down our flag and raise the red rag of anarchy in its place, but nightly on the streets of Portland such steps are advocated. Women and children are insulted and forced to go blocks out of their way to avoid these foul-mouthed transient tramps. Help eliminate them by voting No. 370. See Voters' Pamphlet.

Kill Him! He Is A Scab

How would you like your husband, father or son, earnestly trying to earn his daily wage, insulted, hounded and assaulted by those who, in the name of Unionism, camp around the factory in which they are employed. Why should a man be killed for trying to be clean and independent. Read and Vote No. 368. See Voter's Pamphlet.

DRUGS

After the Doctor--
THE DRUGGIST

The doctor's work is only half what has to be done for the patient. And if the druggist be lacking in ability and care the prescription might as well have never been written. But we make a special study of each case and our own medical knowledge is thorough enough to be of great use to us in those sometimes occurring cases when the doctor, in his haste, makes a slight error.
