BAPTIST CHURCH IS REORGANIZED

A meeting of practical significance was held at the Baptist church (the Heights) last Wednesday night, when a set of articles, an adaptation to local conditions, prepared on the basis of the Mosier Federation, was considered. The meeting was of interest in the spirit manifested and in the general unanimity on the question under consideration. On Sunday night the church by official vote adapted the articles as prepared and thus made it self a constituent element of the federation therein described. By this act a definitely organized form is given to the class of work which, to some degree, has been in progress during the larger part of Mr. Hargreaves' ministry. The congregation has adopted for its name "Immanuel Church" (Federated), under which cognomen future announcements will be made.

A meeting for election of officers will be held Wednesday night. At present Mr. Hargreaves is in charge of three centers working on a similar basis and for the balance of the year expects to be assisted by Rev. Dr. McKee. In this arrangement regular morning services will be resumed in Hood River, the program for Sunday November 24 being as follows: Sunday School at 10 o'clock, Morning worship at 11 o'clock, sermon by Rev. McKee; evening praise service at 7:30, when Mr. Hargreaves and Mr. Simpson will be in charge. The subject will be "The Christian's Relation to Society."

DEFEND TAXATION OF FRUIT TREES

In reply to the criticism of the Washington state tax commission in its action in taxing fruit trees, despite the fact that the legislature of 1908 passed an exemption law covering such trees, the commission justifying itself on various decisions of the supreme court which hold that private property, which it defines, cannot be exempted from taxation, and holding that the fruit trees come within that definition, just as cows or plows. The commission, in a letter to the various county assessors, written last February, says: "We advise you that fruit trees, being private property, are not exempt from taxation in this state. You ought to assess the land upon which fruit trees stand with regard to its value. Whatever value is added to the land by its fruit trees being thereon must be included. This rule has been followed in some of the fruit-raising countries and disregarded in others, and we desire now to make this a specific instruction to all assessors to the end that the property of each county will be uniformly and equally assessed and taxed."

MEXICO CITY BUYS APPLES OF YAKIMA

Twenty carloads of immense red apples from the Yakima Valley are being shipped to Mexico City by the Richey & Gilbert Company of Toppenish, Wash., a rush order for a new territory opened to Northwest fruit. Besides this shipment, other carloads are going to Eagle Pass and Laredo, Texas, for distribution in the northern section of Mexico.

"The territory is absolutely new to Washington fruit, and is being supplied because the Grand Junction apples are not of proper size and color this year," said Charles W. Grant of the Richey & Gilbert Company. "The demand in Mexico City is for apples that are four-tier and larger in size, and of the reddest color. That's what we are sending."

Besides these shipments, Toppenish is sending a dozen carloads each day to Eastern markets and to Europe. Shipments to the Orient are about ended.

All shipments will be under the care of a man sent with each car from now until the end of the winter, so that the fruit will be properly protected.

DRUGS

After the Doctor--
THE DRUGGIST

The doctor's work is only half what has to be done for the patient. And if the druggist be lacking in ability and care the prescription might as well have never been written. But we make a special study of each case and our own medical knowledge is thorough enough to be of great use to us in those sometimes occurring cases when the doctor, in his haste, makes a slight error.
