

# DRUGS

After the Doctor--  
**THE DRUGGIST**

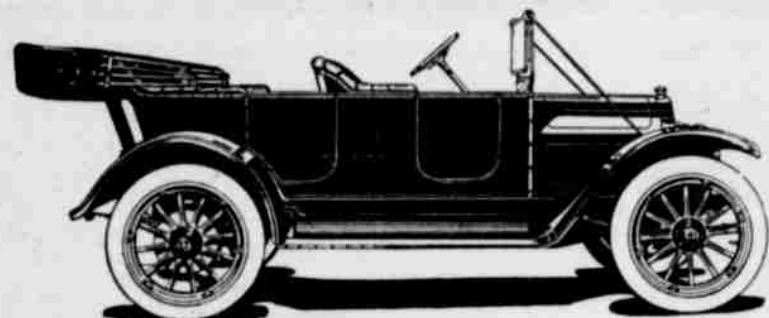

The doctor's work is only half what has to be done for the patient. And if the druggist be lacking in ability and care the prescription might as well have never been written. But we make a special study of each case and our own medical knowledge is thorough enough to be of great use to us in those sometimes occurring cases when the doctor, in his haste, makes a slight error.

## CLARK OF LEWISTON SAYS "GET TOGETHER"

P. W. Clark of Lewiston, Idaho, who attended the Yakima conference, is advising growers in Idaho to line up for businesslike connection with the North Pacific Distributors.

"I believe," says Mr. Clark, "that the day of the high-priced big red apple is over and from now on orcharding must be brought down to a straight business proposition, with all possible overhead expenses eliminated. Apples must be produced at a price that is within reach of the consumer, and I believe the recently organized distributors' association is on the right track to solve the question."

"In the first place, the varieties of fruit will be old only when in season, and the power of the association now organized can secure the necessary concessions from the railroad companies and protect itself against dishonest commission men who, in some instances, have preyed upon the growers and small associations that have endeavored to handle their product independently."

Mr. Clark concludes that it is now up to the producers. "The success of the new association will be determined by the attitude of the growers of the various sections in turning their products over to be handled under the new plan."

"It is one of the biggest business propositions in the Northwest today, but I have confidence that the management is in good hands, and if these men, who have made a success of the small organizations, cannot pilot the business of the larger association there will be little use of the growers trying to operate independently."

## WENATCHEE WOULD ADOPT TWO GRADES

Wenatchee proposes to have this year only two grades, though a third grade may be accepted when justified by the market.

The Wenatchee Valley Fruit Growers' Association held a meeting last week and discussed this matter. The two regular grades will be likely to be known as "Guaranteed Extra Fancy" and "Guaranteed Standard." These words will be printed on the new label adopted.

The best pack would be the "Guaranteed Extra Fancy." In this grade all apples shall be sound, smooth, free from worms, worm stings, water core, scald, broken skin, sun damage or diseases of any kind, and of proper shape according to the variety. No apples smaller than 138 will be accepted in this grade except Old Winesap, which will be accepted as small as 150, nor any apples that are of a red variety that are not at least three-quarters red except Rome Beauty and Ben Davis, when one-half red will be taken in this grade. All varieties of yellow apples will be accepted in this grade. Winter Bananas and Red Cheek Pippins must show a red cheek.

The second grade would be the "Guaranteed Standard." In this grade all apples must be sound, free from bruises, worms, worm stings, water core, sun damage, broken skin, scald, or diseases of any kind, and of proper shape according to variety. No apples smaller than 163 shall be allowed in this grade except the Old Winesap, which will be accepted as small as 175 to the box. All apples of red variety in this grade must show at least one-quarter of red color. Apples will be accepted in this grade with slight blemishes such as limb rubs and scratches, providing, however, that no apple shall show total blemishes measuring greater than one-half inch square. All varieties of yellow apples will be allowed in this grade.

### MAKES HEAVY PLANTINGS

One of the largest plantings of orchard land to be made this year will be on the tract of M. Margulis of Portland, who recently purchased 40 acres of land six miles out on the West Side. Mr. Margulis will plant 40,000 strawberry plants, 250 d' Anjou pear trees and several acres of apples. He is clearing his land with a donkey engine.

### NOTICE TO WATER USERS

All land owners in the East Fork Irrigation District are notified to make their written applications for irrigating water for the season of 1913 as soon as possible.

Applications are in the hands of Supt. J. W. McDonald, or may be found at the office of C. R. Bone, president, corner of 3rd and Oak streets, Hood River, Oregon.

### 16-18c BOARD OF DIRECTORS.

Sugar is sweet and wool is soft, but if not protected they become respectively bitter and hard to produce.

Cheer up; spring's here.

## ATTITUDE OF THE NEWS COMMENDED

Hood River leads and the move which has been undertaken here towards local consolidation of marketing concerns and towards co-operation among the apple districts of the Northwest is being watched with interests all over the country. That this is true is witnessed by two or three letters recently received by the News from its subscribers. These follow:

Lolo, Montana.  
Hood River News Company,  
Hood River, Oregon.  
Gentlemen:

Enclosed you will please find \$1.50 to renew my subscription to your paper. I own some property in Hood River Valley and am particularly interested in the scheme for consolidating the three different shipping organizations of that place. I hope this organization will be effected to the satisfaction of all concerned and I am very much pleased with the stand which your paper has taken upon this cooperative plan in general.

Very truly yours,

W. B. LANHAM.

Omaha, Nebraska.

April 8, 1913.

Editor, the News:

I have been much interested in reading in the News the accounts of the proposed consolidation of shipping interests there. I have some property interests in Hood River and have also had some experience in the commission business which convinces me that the apple growers of Hood River have seen the hand writing on the wall. I believe that if it is properly handled and the growers stand behind it that it will prove a great boon. I also want to congratulate you upon the attitude which the News has assumed in promoting the plan.

Sincerely yours,

ALEX. C. MACGOWAN.

Walla Walla, Wash.

April 10, 1913.

Hood River News,  
Gentlemen:

Herewith please find check covering subscription. Have been greatly interested in accounts of progress made there towards local consolidation. This is the vital question of Northwest apple growers today. I like the News' attitude towards this great question. We want co-operation among the districts but the first necessity is to cut out the competition at home. We sincerely hope that it may work out satisfactorily in Hood River. It will set an example which others will be bound to follow.

Yours truly,

E. R. MACINTOSH.

## MAY BE HEIR TO HALF A MILLION

Whether or not he is one of two heirs to half a million dollars is a point upon which T. A. Pieplow, manager of the Western Union Telegraph Company here, is still uncertain following the receipt recently of a letter from his brother in San Antonio, Texas. This letter stated that a rich uncle had recently died in Australia, leaving an estate of over half a million. No heirs could be found and as the deceased was a German subject the matter was turned over to the consulate of that country. If no heirs are found, according to the letter, the estate will revert to the German government. The latter is therefore not prosecuting the matter of finding heirs very vigorously.

According to Mr. Pieplow's brother, their uncle left this country many years ago and first went to Brazil. Later he went to Australia and there amassed a large fortune. He never married and therefore left no heirs. Mr. Pieplow, although remembering the uncle, is skeptical about the version of the story given by his brother and will take no steps until he hears further details.

### BETTER THAN SPANKING

Spanking will not cure children of wetting the bed, because it is not a habit but a dangerous disease. The C. H. Rowan Drug Co., Dept. 1473, Chicago, Ill., have discovered a strictly harmless remedy for this distressing disease and to make known its merits they will send a 50c package securely wrapped and prepaid Absolutely Free to any reader of the Hood River News. This remedy also cures frequent desire to urinate and inability to control urine during the night or day in old or young. The C. H. Rowan Drug Co. is and Old Reliable House, write to them today for the free medicine. Cure the afflicted members of your family and then tell your neighbors and friends about this remedy.

Hard luck! It's time to clean house.

But won't a host of people dodge the income tax?

## THOUSAND LOADS OF SAND FOR PAVING

About 1000 loads of sand have already been drawn from the bar to the Heilbronner block west of Fourth street between Cascade Avenue and Oak street to be in readiness for the paving when work starts. The Transfer & Livery Company has the contract and several teams have been kept busy for the past couple of weeks. It was necessary to draw the sand before the river rises above the bar.

There will be needed altogether between 1200 and 1500 yards of sand for the paving that is to be done. That from the bar comes from the Hood River. When tested it showed a high quality, being better than what has been used for the same purpose in Portland. The haul from the river is a hard one. About one and a half yards are drawn to a load.

All the contracts for the paving are signed and the bond filed so that all is in readiness. As soon as the streets and subsoil are thoroughly dried the paving plant will be installed and work will be started. Giesbich & Joplin of Portland, who have the contract, say they will be able to complete all the paving in between four and six weeks. The contracts call for its completion by June 17.

### WILL ADVERTISE STRAWBERRIES

It is probable that every crate of strawberries that is shipped out of Kennebec by the Fruit Growers' Association this year will contain 24 printed slips calling attention to the excellent quality of the berries and the fact that they are grown in one of the earliest fruit belts of the Northwest. One of these slips will be placed in the bottom of every berry cup so that when the housewife empties the box in preparing it for the table, the little booster message is certain to attract her attention.

True-to-Name Nursery has opened an office in town on corner opposite from Oregon Hotel and samples of trees can be seen in tree yard adjoining office. Mr. Galligan will be at the office Tuesdays, Thursdays and Saturdays.

### GARDEN PLANTING SEASON IS NOW HERE
