

### Pure Peroxide....

Use the Peroxide that has the greatest strength and power. Our Peroxide is pure. It is not weakened or adulterated in any way. It is scientifically perfect and absolutely full strength. Put it on a cut, bruise or sore and watch it bubble and fizz. It immediately attacks any foreign substance, thereby cleaning, healing and destroying all germs. Get a bottle of our Peroxide, dilute it with an equal amount of water and you have a fine mouth wash, also throat gargle.

### ELECTRIC LIGHT RATES EXPLAINED

Editor, Hood River News: Now that the commission has settled the electric rates for the time being and have given us electricity "based on the connected load" it will be well to have a few words of explanation of what the connected load is and how it affects the consumer. Hardly a consumer that was not afraid of those words in the original proposed schedule. They were supposed to be the thing that was to "get him."

Instead of that they are the thing that really does things for him, if he uses more than the minimum of current, which is \$1.00 worth. Based on a connected load, every consumer's minimum current is different according to his installation. The \$1.00 is the same.

The residence rate asked for by the companies was:  
First 30 kilowatt hours per month ..... 10c each  
All over 30 kilowatt hours... 8c each  
For connected load of one kilowatt or less.

First 50 kilowatt hours per month ..... 10c each  
All over 50 kilowatt hours... 8c each  
Where connected load was over one kilowatt.  
Minimum of \$1.00. Flatirons, toasters, sewing machine motors not included in connected load.

Cooking rate 5 cents per kilowatt hour per month, separate meter, minimum \$1.00.

The residence rate agreed upon was:  
First 15 kilowatt hours per month ..... 10c each  
Next 15 kilowatt hours per month ..... 8c each  
Next 15 kilowatt hours per month ..... 5c each  
All the rest at ..... 3c each  
No connected load to be considered less than one kilowatt. Flat irons, toasters, sewing machine motors, cooking ranges not included in connected load. All on one meter. Minimum of \$1.00. Where cooking range is used additional minimum of \$1.00. Optional with consumer to place cooking range on meter at 5c per kilowatt hour.

The residence rate ordered by the Commission is:

First 15 kilowatt hours per month ..... 10c each  
Next 15 kilowatt hours per month ..... 8c each  
Next 15 kilowatt hours per month ..... 5c each  
All the rest at ..... 3c each  
Based on actual connected load. Flatirons, toasters or any domestic appliances not included in connected cooking range is used additional minimum of \$1.00.

It may help to understand these rates when the customer keeps in mind that his connected load is the combined capacity of all the lamps which he has installed; in other words, it is the size of his installation of lamps, or to be more exact it is the sum of the capacity of all his lamps.

For commercial lighting the companies asked for 10c for the first 60 kilowatt hours based on one kilowatt connected load. The agreement was for the first 45 kilowatt hours at 10c and all over 45 kilowatt hours at 6c. For the benefit of those who wish to know what a connected load is, will you please publish the following and help them to do so?

A kilowatt hour is the amount of current burned by 25 40-watt tungsten lamps in one hour, or it is the current burned by 40 25-watt lamps in one hour, or by 10 60-watt lamps and 5 40-watt lamps and 8 25-watt lamps in one hour. Example—25 times 40 is 1000; 40 times 25 is 1000; 10 times 60 is 600 plus 5 times 40 equalling 200 plus 8 times 25 equalling 200, thus 600 plus 200 plus 200 equals 1000. One kilowatt is 1000 watts.

Remember always that a 16-candle power carbon filament lamp burns 56 to 60 watts per hour, and a 40 watt tungsten lamp burns 40 watts per hour. The 16 candle power lamp gives 16 candle power, the 40 watt lamp gives 32 candle power. The consumer should remember this in figuring his connected load that all new type lamps are rated in watts and the watts of each lamp are the consideration in making up the connected load.

**How to Find Connected Load**  
Take your bulbs one by one and put on paper the rating in watts from the label of each lamp. Add these watts together. Say you have a total of 560 watts. Your connected load is 56 kilowatt. How are you to be charged for current? The rates are:

First 15 kilowatt hours per kilowatt of connected load ..... 10c  
Next 15 kilowatt hours per kilowatt of connected load ..... 8c  
Next 15 kilowatt hours per kilowatt of connected load ..... 5c  
All the rest ..... 3c  
Domestic appliances are not included in connected load. One kilowatt is 1000 watts.

Now the consumer having the connected load of 56 kilowatts or 560 watts does not have to burn 15 kilowatt hours at 10 cents, 8 cents, 5 cents and balance at 3 cents, but he

burns 56 times 15 which is 84 each at 10 cents, 8 cents, 5 cents and balance at 3 cents.

One kilowatt of connected load will burn one kilowatt hour in one hour. Meters register kilowatt hours. HOOD RIVER COMMERCIAL CLUB, R. E. SCOTT, Secretary.

### CLAIMS ALLOWED

Proceedings of the county court of Hood River county, Oregon, at its June, 1913, session:

J M Lenz, 1 gray wolf.....	5.00
W A Durham, 1 coyote.....	1.50

C K Marshall, rent of auto for March, April and May.....	5.00
C K Marshall, services road master, April and May.....	81.25
Other Proceedings	
The petition of E S Hay and others for a county road was dismissed for the reason that the court did not have jurisdiction in such matters at this time. The proceedings were irregular in that the notices of posting stated that the petition would be presented to the court on a date which was not at a regular term. The Viewers' Report on the road portion of Adams' Paradise Acreage by M. Sue Armstrong and others was	

### EXPERT TO SPEAK IN UPPER VALLEY

C. L. Smith, expert agriculturalist of the O-W. R. & N. Company, has been secured to give an address at McIsaac's Hall, Parkdale, this (Wednesday) evening. Mr. Smith has been making a study of the conditions in Oregon, especially along the lines of the road, and is equipped to give some valuable information looking towards better methods of agriculture and closer co-operation between the farmers and railroads. He is expected to arrive this morning and will be entertained while here by C. T. Early of the Mt. Hood Railroad, taking an automobile trip through the lower valley this morning and the Upper Valley this afternoon.

adopted and the road ordered opened. P. M. Morse at this time presented to the court a plat of the tracts of the Minneapolis-Hood River Orchards Co. for approval. The court refused to approve this plat because of the expense that would necessarily be incurred by the county in opening and maintaining the roads dedicated to the public on said plat.

The county surveyor, Murray Kay, requested the court to provide him an office at the court house, or pay the rent of office now occupied by him in the Brosius Building. The court agreed to pay one-half of Mr. Kay's office rent, phone rent and light bill. The Viewers' Report on the road petitioned for by A. O. Adams and others along the Columbia River, passed the first reading but the second reading was deferred until June 13, 1913, to which date the court adjourned.

by W. E. HANSON,  
County Clerk.

**STRANAHAN & CLARKE MOVE**  
Stranahan & Clarke have moved into their new warehouse on Railroad street west of the Union and are now filling all orders there.

### BETTER THAN SPANKING

Spanking will not cure children of wetting the bed, because it is not a habit but a dangerous disease. The C. H. Rowan Drug Co., Dept. 1473, Chicago, Ill., have discovered a strictly harmless remedy for this distressing disease and to make known its merits they will send a 50c package securely wrapped and prepaid Absolutely Free to any reader of the Hood River News. This remedy also cures frequent desire to urinate and inability to control urine during the night or day in old or young. The C. H. Rowan Drug Co. is and Old Reliable House, write to them today for the free medicine. Cure the afflicted members of your family and then tell your neighbors and friends about this remedy.

The News for fine printing.
