CARSON NOW HAS HIGHEST BRIDGE

Carson, Wash., now has the highest bridge in the Northwest and probably the highest on the coast. This unusual structure will be officially opened next Saturday and it will be made a gala occasion for residents of Skamania county.

The bridge is of the Brooklyn Bridge type, the span being 500 feet long and 304 feet above the river in the center of the bridge. It cuts off a hard haul of over a mile which was formerly necessitated by the descent into the canyon and climb out on the other side.

WHITE SALMON

W. H. Easter, who has been in the livery business in White Salmon for nearly a year, sold his horses and vehicles at public auction last Saturday and will leave this week for Salem, Oregon, where he has purchased a large livery business.

M. A. Sprinkle, president of the Swan-Hamann Lumber Co., will sever his connections with that company the 15th of this month and will leave White Salmon. He is undecided as to where he will locate, but is thinking of going to California.

W. M. Rafter's hardware store was entered by a burglar Sunday morning about 2 o'clock who succeeded in partially filling a sack with revolvers, razors and other valuable merchandise and getting as far as the valley with the plunder. Here he was discovered by night officer Hawn, who ordered him to halt. But instead of stopping the thief started to run. Hawn fired three shots at him and the burglar took two shots at Hawn in return.

Richmond Pearson Hobson has left the House of Representatives' Committee on Naval Affairs and the country will have to face the crisis alone.

There is more rejoicing over the one mouse that returns to the Republican fold than over the 99 stand-patters that went not astray.

TIPS ON TITLES

A MAN

came rushing into our office and wanted an Abstract in a hurry. He seemed to think we kept them on hand and could pass the one he wanted right over to him. It was the first time he had ever required an Abstract. He had an opportunity to make an investment which gave promise of rich returns. It was an unusual chance. He had no ready money so he had gone to his bank to get it by placing a mortgage upon his land. The bank, according to its custom demanded an Abstract, and referred him to us. Now the man had lived on this land. He had paid good money for it. He held a Warranty Deed. He thought it was his. It was, but there was a "Cloud upon the Title" which had to be cleared before he could obtain any money upon his land. There were defects in the instruments as recorded which could be remedied only by a decree of the Court. This required time. Meanwhile the opportunity for the promising investment had passed.

This is not fiction. It is not even exceptional. It is the sort of thing that is occurring repeatedly. You own land in Hood River County. You intend some day, to have it covered by an abstract. Why not now? There is nothing to be gained by delay and may be much to lose. It matters not what you think about your land, your title is only as good as the records show. The business of the Abstractor is to give you the record of your title.

Some people seem afraid to enquire into the title to their land. They prefer to play "catch" and try to think there can be nothing the trouble with it. When the day comes, as it surely will, that they must have an abstract, they are disappointed that they have to wait for the Abstractor to do his work. But they can't blame the Abstractor. It takes time to prepare a correct and complete Abstract. Besides, there are always other hurry orders ahead which must be finished before new work is begun. It is even more annoying to learn that the title you thought good is imperfect. The trouble may be slight and of a nature which could be readily removed, but still sufficient to cause an exasperating delay at a time when one wishes to make a quick sale or raise money upon a mortgage.

Be wise enough to have your Abstract made NOW while there is no urgent need for prompt action. Come in and talk to us about it. We may be able to make a few suggestions of benefit to you. We have been searching Hood River titles since 1886, and if there is a flaw in the title we can find it. HOOD RIVER ABSTRACT CO.

Their friends here will wish them much happiness.

POULTRY BULLETIN OUT

A new book on the important diseases of poultry has just been issued by the Government in the form of farmers' bulletin No. 530. The book describes all the more ordinary diseases of fowls and gives both preventive and curative remedies.

The Keenewick Reporter estimates that the value of the strawberry crop of that district this year will amount to \$50,000 or \$60,000. The business has been a record-breaker this spring, says the reporter.

Look Right

Everybody likes to look right—and when it costs practically nothing, everybody ought to. The cost of cleaning your clothes is really nothing when you consider they will wear enough longer to more than cover the cleaning cost.

Few garments are actually worn out—they become soiled and are laid aside—but if sent to the cleaner their usefulness is often doubled.

When one once gets started sending his clothes to the dry cleaner he never quits—he finds it pays, and "gets the habit."

Have you got it?
