

The Hood River News would like to recognize our 2014 Community Partners

The past year we worked with the businesses, organizations and individuals listed on this page. Through this partnership we were able to gather, print and deliver the news of Hood River County, while helping many of those listed improve and grow. We are proud to say that this successful partnership has made it possible for the Hood River News to again be recognized as one of the leading community newspapers in the nation, winner of a General Excellence Award in 2013.

Thank you and have a happy and prosperous 2015!
