STATEMENT OF CHANGES IN ACTIVITIES AND SOURCES OF FINANCINGS *			
	Actual Amount FY 2014-14	Adopted Budget FY 2014-15	Approved Budget FY 2015-16
The estimated beginning fund balance for FY 2015-16 may be different from the actual year ending balance for FY 2014-15 due to unanticipated activities. This budget proposes a discontinuation of debt sales during the latter half of the year. This is due to upgrading the existing billing system and the higher costs of using loans as a form of payment. Capital improvements are scheduled for the bridge including engineering work for the LR span and auxiliary spans. Additional funding is in place for ongoing welding, sub-structure pier analysis, lighting and some painting. Grant funding will continue to play a vital role for the Port with regard to its capital improvements. This year grants are being considered for the Hook Launch and the newly purchased Haveli Mts site. If these grants are approved, the Haveli Mts site will complete its environmental remediation, and the Hook Launch install recreation amenities. The Marina will include repairs to the Cruise Ship dock and some conceptual design work for the Transit dock. This budget contemplates a watershed parking analysis, as well as pre-development work for Lot 1. Personnel costs depict a 6.2% increase, mostly due to PERA reform as healthcare decreased departing the overall increase. Materials and Services depicts an increase of 6.5% primarily due to higher utility costs and professional services related to watershed planning issues.
