ABOUT CORNS....

What is a Corn? Physicians call it a Clavus, a calous, or horny thickening of the skin, over a joint in a toe, with a central core or "kernel". A corn out in half would look very much like this:

- A-The Corn
- B-The "Kernel"
- C-Back of Foot
- D-Heel
- E-Side
- F-Inst of Toe

What Produces a Corn? PRESSURE. Not necessarily that the shoe is tight-but while apparently roomy, does, at some position during walking, press upon one spot; the result is a "CORN"

Having a Corn. WHAT SHALL I DO FOR IT? Ah! now there is the question. Some people pare them, getting a little temporary relief, but stimulating the corn to twice as rapid growth--Well, here is a clear and colorless fluid called

Willamette Corn Cure

IT WILL REMOVE CORNS AND LEAVE A NATURAL SKIN IN ITS PLACE

The Christmas entertainment of the Bethel A. M. E. church on last Saturday, and of the A. M. E. Zion church on Sunday eve were largely attended and the exercises by the children were extremely interesting on both occasions. The programmes were so nicely rendered that it would be hard to praise a particular number without giving a like mention to all.

Miss Lizzie Wright, of Fort Leavenworth, Kan., and Corporal F. Roberts, U. S. A., of Vancouver barracks, were united in the holy bonds of matrimony on December 14, at the residence of Mrs. Sergeant Willing. The committee is to be congratulated on its success, and it is to be hoped that it is only the first of many such enjoyable affairs.
