Piso's Cure cannot be too highly spoken of as a cough cure.-J. W. O'Bars, 322 Third Ave., N., Minneapolis, Minn., Jan. 6, 1900.

#### Has an Enviable Record.

Charles Bellamy has been a fireman for 16 years on the Chicago, Burling ton & Quincy railroad, and has never missed a trip. During that time he has traveled 606,840 miles, and burned 32,501 tons of coal.

## The Best Prescription for Malaria Chilis and Fever is a bottle of Grove's Thateless Chili Tonic. It is simply from and quinine in a tasteless form. No Cure, No Pay. Price 500.

#### **River** of Ink.

In Algeria a river of ink is formed by the conjunction of two streams, one of which is impregnated with iron, and the other, which drains a to other animals, but that the laws peat bog, with gallic acid. The mix- which control the development of the ture of the iron and the acid results lower animals also control the developin ink.

GARFIELD TEA, the medicine that Purifica the blood and cleaness the system, brings good health to all who use it. It is made from herbs. Druggists sell it.

## Where They West.

Of 700 ten dollar marked bills paid on a Saturday night by a Massachusetts manufactory to its hands, 400 by the following Tuesday were depos-ited in the bank by the saloon keep-

GOT THE WORK HE WANTED. Effrontery of the Applicant Suited the Railroad Manager.

United States Revenue Inspector William A. Gavett vouches for the following story of a well-known Southern

railroad man: H. M. Hoxle, general manager of the I. & G. N., was universally considered a good fellow by his friends in Texas

and elsewhere. A slight deformity caused him to limp, and the brakemen on the road, with the quick adeptness which railroad men possess in giving nicknames, promptly dubbed him "Old Flatwheel."

One day Mr. Hoxie sat in his office when a typical Texas "brakle" stalked in and stood with his hat on in the middle of the floor.

"I want a job," said he.

After a little talking Mr. Hoxle suggested that his manner was unbecom-ing, and suggested that he would give him a practical lesson in how to ask

"You take my seat." he said, "and I'll show you how you onght to act." The brakeman took the general man-He-They say the temperature in ager's chair and Mr. Hoxle stepped out Florida has been about 75 all this into the ball. After giving a respectager's chair and Mr. Hoxle stepped out ful knock he came in and stood uncov-ered before his temporary superior.

"Well?" said that worthy, "I am looking for a position, sir." said Hoxie. "I have 'braked' for four years and I think I could fill a position on the international. What can you do for me?"

The tough brakeman leaned back in his chair and stuck his thumbs in the armholes of his vest. "Well, 'Old Flatwheel,' I'll just give you a job," he drawled.

"It took me off my feet," said Mr. Hoxle in telling the story at a Galveston banquet. "But I laughed in spite of myself, and the applicant began work on the International a short time after that."-Detroit Free Press.

MINGLING OF THE RACES.

Alliances Between Different Peoples

Are He'pful to the Whole. Man is an animal and Darwin has shown that not only is he closely akin to other animals, but that the laws which control the development of the Subscribed and sworn to before me ment of man. He has also shown that cross breeds of animals are larger and stronger than either parent. When we examine into the origin of the English people we find the ancient Britons fighting and mingling with the Romans, and subsequently with the Picts, Scots, Danes, Saxons and Normans. For more than 1,000 years these various breeds of men have crossed and recrossed un-til they have been molded into that omogeneous mass that we know as

Englishmen. Turning to the United States, we find the foundations of a new nation laid by the sturdiest and most enterprising of these same Englishmen. They landed on the then distant shore, conquered the wilderness, organized a new govwithout a ernment closely akin to the old and invited the people of all the world to join The second situation of seven years placed me back me them. . The Slavs, the Germans and the Latins mingle together and in a few joined the church, last month." in the United States is also going on in her an invitation, failed to ask her to are sufficiently advanced she will in-Canada, in south Africa, in Australia, Dealer. in New Zealand and in other small places scattered around the world. There is thus being formed, on a gigantic scale, a new race of men, built on the strongest line on which it is possible to construct human beings. The different sections of this new race have a common language and literature, the same laws and customs, and the trend of industrial civilization gives them identical political interests.-Engineering Magazine.

HOU

Caused by an Impure Condition ot the Blood-How It May

Be Permanently Cured.

From the Mirror, Manchester, N. H. Although rheumatism is one of the most painful and dangerous of the many troubles which afflict mankind, it can be permanently cured if a proper course of treatment is taken. The real cause of rheumatism is the presence of acid in the blood and the only cure is to purify, nourish and strengthen this vital fluid. The best specific yet discovered for this purpose is Dr. Williams' Pink Pills for Pale People and the number of cures they have effected in cases of this stubborn disease is wonderful Mrs. S. D. Loveland, of No. 133 West Hancock street, Manchester, N. H., was cured of a severe attack of rheumatism by the use of this remedy. She says :

the use of this remedy. She says: "Several years ago one of my knees was injured by a fall. About the first of June, 1897, rheumatism set in and at last got so bad that I could not bend my knee. It was very painful and I was unable to move about. I tried was unable to move about. I tried was unable to move about. I tried various remedies, but not one of but turned her back on Foster, both being ploneer miners in Moutans. Miss

tried various remedies, but not one of them relieevd me in any way. "In the latter part of August, nearly three months after the pain and stiffness began, a friend, Mrs. Rothwell, of Everett, Mass. told me of Dr. Williams' Pink Pills for Pale People. I willingly gave them a trial and experienced relief in a few days. I continued until I had taken three boxes and was able to bond the knew

boxes and was able to bend the knee and go up and down stairs without difficulty. I have since taken the pills a number of times for other troubles and always with good results. "I have recommended Dr. Williams" Pink Pills for Pale People many times. I have not learned with what effect they were taken, excepting in the case of two of my relatives and a young woman living in my family, each of whom was greatly benefitted. I feel that I cannot say too much in favor

this 27th day of February, 1901. JOHN G. LANE,

Notary Public. Seal At all druggists or direct from Dr. boxes, \$2.50.

Offered a Small Figure. A few days since a popular attorney called upon another member of the called upon another member of the profession and asked his opinion upon a certain point of law. The lawyer to whom the question was addressed drew himself up and said: "I gen-erally get paid for what I know." The questioner drew a half dollar from his pocket, handed it to the other and coolly remarked: "Tell me all you know and give me the change."

It Clouded Her Serenity. "Yes. sir, my wife is a truly good woman. I know of but one thing that

properly instruct her daughter i Tradition says "woman must suf-fer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. If a young woman suffers severely she needs treat-ment, and her mother should see that the great it. she gets it.

Many mothers hesitate to take their daughters to a physician for examina-tion : but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham's Laboratory at Lynn, Mass., and secure from a woman the most efficient advice with out charge.

Mrs. August Pfalagraf, of South Byron, Wia, mother of the young lady whose portrait we here publish, wrote in January, 1899, saying her daughter had suffered for two years with irreg-ular menstrustion — had headache all the time, and pain in her side, feet swelled, and was generally miscrable. She received an answer promptly with advice, and under date of March, 1809, the mother writes again that Lydia E. Pinkham's Vegetable Compound cured her daughter of all pains and irregu-larity.

larity. Nothing in the world equals Lydia & Pinkham's great medicine for regu-lating woman's peculiar monthly troubles. -----

#### Successful Scientific Egg Sellers.

Danish eggs are taking the lead for their good qualities, thanks to the system of co-operation and selection adopted by the producers. Every egg shell supplied carries the name of its raiser, and as the eggs are all tested, a bad egg is traced home. Each raiser must supply eggs thrice a week. The central authority can reject an egg several days old. The eggs are tested and sorted according to their size by an automatic machine.

#### Artificial Loin Chops.

That our food will some day be built up chemically from nitrogen, carbon and other necessary elements is a fascinating theory upon which most scientific men look skeptically. M. Berthelot, however, is cited as an eminent believer, and he is stated to foresee both artificial meat and artificial bread.

Ants' Bites for Lazy Children

In Guiania a child is slow in its movements the parents apply an ant to the child instead of a whip to make it move faster. This little ant bites more cruelly than a mosquito and its bite is apt to be troublesome afterward.

Garfield Tes has long been rec-ognized as the greatest remedy for bowel and liver troubles; is made from simple herbs that cure chronic constipation. 11

### Revenues of the Riviers.

A writer in a French paper says that every year there are 270,000 foreigners who pass from a fortnight to a whole winter on the Riviera. Every person is supposed to expend on an average a thousand francs, or \$200, in the country. In other words, the foreign visitors spend in the country every winter the sum of \$54,000,000. This is enormous. The English are put down as contributing one-third of this amount, the French themselves contribute another third; Germans, Belgians, Dutch, ing a lot of cherries. and Russians do the rest. Nothing is said about the Americans. Perhaps they are lumped up with the English. From being quite a poor country when
