CEBU NOT PACIFIED.

Insurrecto Town Governments Are Still Maintained.

Cebu, P. I., June 6.—Cebu for the past year has not only failed to progress, but has in some respects retrograded. A year ago one could at least venture outside the metropolis of the island with a fair chance of returning unharmed. Today the American who is rash enough to start into the interior alone does so with a full knowledge that it is at the risk of his life.

The United States Philippine commission came to Cebu to organize the island into a province and found recognition by the military authorities of numerous practically insurrecto town governments. This is justified by the military commander of the district, Colonel McClelland, of the Forty-fourth infantry, on the ground that these semi-government towns are conducted under the surveillance of the military detachments stationed in most of the towns. According to the testimony of a number of the subordinate officers, neither the amounts of municipal taxes collected, what they are applied to nor any other details are reported to the post commander. Several of the towns have no local governments, but it appears that about all pay tribute to the native political leaders. Most of the leaders are considered insurrecto at heart and some of them openly declare themselves.

The island of Cebu is wholly free from any hiding places formed by standing timber, and it has altogether some 1200 troops of the Forty-fourth and 19 regiments of infantry, yet General Maxilon, the chief insurrecto, continues to operate with 200 rifles and some scattering bolomen, and meanwhile the insurrecto politicians manage to profit by keeping on the fence and surreptitiously encouraging insurrecto sentiment. Colonel McClelland says that he has had some correspondence with insurrecto leaders, but could not possibly accept their terms of surrender.

HER MAINMAST BROKE.

Accident to the Cup Defender Constitution—Races Will Be Postponed.

Newport, R. I., June 6.—While dashing along in a good whole sail breeze off Brenton's Reef lightship this afternoon, with three lower sail set, the big hollow steel mainmast of the defender Constitution collapsed like a blow pipe through the sudden breaking of the starboard and windward spreader. The mast broke off only a few feet below the spreader, about three-fifths of the length of the mast above deck, and as the top mast was carried away at the same time, none of the spars struck the deck except the boom, and the latter only hit it light blows which did not injure the hull at all. None of the sails were torn and all can be used again. Fortunately three seamen had just come down from the masthead after taking in the club topsail, but the wreckage swept overboard the second mate. He was promptly hauled on board however, without sustaining anything more than a few bruises.

RAILROAD TO REPUBLIC.

Contract for Construction Signed—Canadian Pacific Connections.

Spokane, June 6.—Construction work will start tomorrow at Nelson, Wash., on the Republic & Grand Forks Railroad. Contracts were signed here today. George S. Deeks & Co., are the contractors, and the road, 46 miles in length, is to be completed by November 1. It will connect with the Canadian Pacific at Grand Forks, B. C., but the promoters say they are independent of all railroads.

Asphalt Deposits Discovered.

New York, June 6.—A cable message to the Ecuadorian Association, which has offices in this city, announced the discovery of vast deposits of asphalt on the island of Salango off the coast of Ecuador. Trinidad is now the chief source of the world's asphalt supply, which is controlled by the trust.

POPULATION OF SAMOA.

On the American Islands There Are 6,100 Persons.

Washington, June 7.—In accordance with instructions from the navy department, Commander Benjamin F. Tilley, the naval commandant at Tutuila, Samoa, has forwarded to Washington a report on the population of those islands of the Samoan group under the jurisdiction of the United States. From the most reliable authority in the islands, he has ascertained that the population of Tutuila totals 4,000, and of the Nannua groups, 2,000, including adults and children. In addition to the native population there are on the islands approximately 100 whites.

Since his last report to the department, Commander Tilley has visited the islands of Nannua aboard his station ship, the Abarenda, and has found everything in a most satisfactory condition. The natives of these islands, he says, exhibit much kinder feeling than ever before. They have voted a tax for the payment of their officials and for other expenses of the government. It is paid in copra. The rate is about \$1 per head for every inhabitant. This, says the commander, is a very light tax, and is not in the least burdensome to the natives. The abundant copra crop of the islands is now being harvested and shipped, and Commander Tilley is endeavoring to have the natives realize fair prices for it—something very unusual in the past. Commander Tilley reports everything in the island of Tutuila in a very satisfactory state.

HAZER WAS CAUGHT.

Naval Cadet Dismissed From Annapolis Academy—Convicted by Court Martial.

Washington, June 7.—Following the example set at West Point, the superintendent of the naval academy has caused a cadet to be dismissed for hazing. In this case, however, the accused was tried by court martial and regularly convicted. The statement in the case made public at the navy department is as follows: "The court martial before which Naval Cadet Calvin Joy Creasey, fourth class, was tried June 3, convened by the superintendent of the naval academy, pursuant to the authority vested in him by the act of congress, approved June 23, 1875, having found the specification of the charge preferred against him proved, and that he was guilty of the charge, 'violation of the act of congress, approved on the 23rd day of June, 1875, to prevent hazing at the naval academy,' which recommendation was approved by the superintendent, he was dismissed from the academy accordingly."

The details of the court martial are not made public, but it is understood that the dismissed cadet was discovered in the act of hazing another cadet in his room by compelling him to stand on his head. It was suspected that the practice might spread rapidly, so drastic and speedy action was had as a deterrent.

COL. WEISENBURGER DEAD.

A Philippine War Veteran and Officer in the Regular Army.

New Whatcom, Wash., June 6.—Colonel J. J. Weisenburger, of the First regiment of the National Guard of Washington, died here yesterday, aged 46 years. Death resulted from cerebral meningitis, which caused the sufferer much acute agony. Colonel Weisenburger distinguished himself in the Philippines, in which war he served as ranking major in the First Washington regiment. His gallantry was on several occasions mentioned in the dispatches, and General Merriam recommended him to President McKinley for promotion. He was given a lieutenant colonelcy in the regular army, but soon resigned it, and returned here, where he took up the practice of law. He was city attorney of this city at the time of his death. He was a native of Illinois.

GRAVE TIME FOR SPAIN.

The Country Passing Through Another of Its Disorderly Periods.

Madrid, June 7.—The situation throughout Spain remains critical. Monarchical tranquility has been restored at Corunna, but the Oetroi offices are still occupied by gendarmes, and arrests continue to be made. A general strike is threatened owing to a refusal of one factory to employ 300 workmen. The railway men have struck at Vigo and anarchist excitement is rife at Barcelona, where the "reds" met in defiance of the civil governor's prohibition and passed secret resolutions. Senator Gamazac, a Liberal leader, characterizes the crisis as an exceedingly grave moment for Spain.
