

Itching Skin

Distress by day and night—That's the complaint of those who are so unfortunate as to be afflicted with Eczema or Salt Rheum—and outward applications do not cure. They can't.

Hood's Sarsaparilla rids the blood of all impurities and cures all eruptions.

See Exhibit at World's Fair. Mayor Swink, of Rocky Ford, Colo., who has perhaps the largest bee plant in America, is going to take his bees to the World's Fair at St. Louis.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Infelicitous. A correspondent of the Boston Journal declares that he heard of a young clergyman the other day who startled his hearers by beginning his address at a funeral thus: "While there has been something discovered to relieve the pain of having teeth extracted, there has been nothing discovered as yet to allay the pain of parting with friends by death."

FITS Permanently Cured. So fits or nervousness after first use of Dr. Kline's Great Nerve Restorer. Send for FREE TRIAL BOTTLE and treatise. Dr. R. H. KLINE, Ltd., 501 Arch St., Philadelphia, Pa.

Filth in Public Places. A writer declares that there is more filth, squalor and general slovenliness in public places and works, in streets, squares, river-sides, docks, roads and bridges in the United States than in any other country of the first or even the second rank.

Shake Into Your Shoes. Allen's Foot-Powder. A powder. It makes tight or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet.

Met Their Fate. "Are you ready?" asked the first man. "I am," came the answer in a firm tone. "Then come. We may as well know the worst."

I am sure Piso's Cure for Consumption saved my life three years ago.—Mrs. TROTT, ROBINSON, Maple street, Norwich, N. Y., Feb. 17, 1900.

Uncle Nezekiah on Golf. "I don't see why they call golf a royal and ancient game," remarked the Cohoes philosopher. "I never heard of it till two months ago, an' my folks has lived right in this here country for sixty years. An' as for their bein' royal—it ain't played in a court like tennis—I don't see where that comes in. An' if it is, it's 'gin the constitution and the flag.—Judge.

The Reason. Asked the other day why it is that so few of his race committed suicide, Brother Dickey replied: "Well, suh, my experience is, some of 'em don't need to; dey lynches 'em soon enough."

EGZEMA'S ITOH IS TORTURE.

Eczema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER.

"For three years I had Tetter on my hands, which caused them to swell in their natural size. Part of the time the disease was in the form of running sores, very painful, and causing me much discomfort. Four doctors said the Tetter had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. S. and was completely cured. This was fifteen years ago, and I have never since seen any signs of my old trouble."—Mrs. L. S. JACKSON, 1414 North St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, soothes the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear. It cures Tetter, Erysipelas, Psooriasis, Salt Rheum and all skin diseases due to a poisoned condition of the blood. Send for our book and write us about your case. Our physicians have made these diseases a life study, and can help you by their advice; we make no charge for this service. All correspondence is conducted in strictest confidence.

THE SURE SPECIFIC CO., ATLANTA, GA.

A NOTED EDUCATOR.

Dr. Charles Kendall Adams, Who Died Recently in California.

The recent death in California of Dr. Charles Kendall Adams, formerly president of the University of Wisconsin, removed one of the most gifted and progressive educators in the United States. Dr. Adams had been ill for several months and death came as a relief. His death was due to Bright's disease.

Charles Kendall Adams was born in Vermont in 1835, and was reared in a family where intellectual strength was more conspicuous than worldly wealth. He entered the public schools at Derby, Vt., but at the age of 20, when his parents removed to Iowa, he was still undecided whether his life work would be as a student or a factor in the commercial world. At 21 he definitely determined to fit himself for college, and in the summer of 1856 began to study Latin and Greek at Denmark Academy under the instruction of Rev. H. K. Edson. In September, 1857, he was admitted to the University of Michigan, and literally, so far as finances were concerned, worked his way through that college.

He became interested in historical studies and took a post graduate course in that line. At the same time he became assistant librarian of the university and had charge of one of the lower classes in history. It was 1864 before he began to reap a reward for his labors. He then received an appointment as instructor of history and

DR. CHARLES K. ADAMS.

Latin, and a year later he became an assistant professor. When Prof. White resigned in 1867 to take the presidency of the Cornell Prof. Adams became a full professor of history of the University of Michigan, and found his reputation for scholarship made.

Other universities and colleges sought him, but he remained with the University of Michigan until called to the presidency of Cornell, a position which he held for seven years. At Cornell he devoted himself largely to consolidating and reorganizing many departments, with such success that the teaching staff rose from 54 to 135 and the students enrolled from 573 to 1,500. On January 17, 1893, Prof. Adams was inaugurated president of the University of Wisconsin at Madison, and held that position until last year, when falling health compelled his resignation. In degrees he received that of LL. D. from the University of Chicago in 1878 and from Harvard in 1886.

Prof. Adams was the author of Democracy and Monarchy in France, which attracted much attention and was translated into German. He was a capital organizer, strong-willed and purposeful. He gave the University of Wisconsin a national education and increased its business strength manifold. Besides his contributions to American and foreign reviews he wrote Representative British Orations and a number of historical contributions to current literature.

COUNTESS TOLSTOI.

Devoted Wife of the Famous Russian Author and Reformer.

One of the most cultured women in Europe is Countess Sophia Andronova Tolstoi, wife of the great Russian reformer and author. At the age of 17 she received a diploma from the University of Moscow and a year later became the bride of the man whose fame is now world-wide. To Count Tolstoi she has ever since been a most devoted helper and this devotion the sociologist once described: "If I were a clarinet

COUNTESS TOLSTOI.

my wife would spend all her time polishing and tuning the keys." The countess acts as her husband's secretary and critic and looks after his copyrights and royalties. She is deeply interested in her children and for them until each had passed the tenth year she made their clothing with her own hands.

Some people get overheated rushing around looking for a cool spot.

RAM'S HORN BLASTS.

Warning Notes Calling the Wicked to Repentance.

A LIBERAL soul is the best sermon on liberality. To bury a truth is to raise a lie. God's word wins its own way.

The first effect of knowledge is the consciousness of ignorance. The edifice of character can not be built without an architect. Men do not stumble on salvation. Moral exercise makes moral athletes. Regeneration does more than reform. Every moral inheritance is entailed. Hard living does not make easy dying.

All great work consists of small deeds.

Boys have eyes like hawks for hypocrites.

Blessings come in service as well as after it.

Men are either moulders or are moulded.

The heart makes a good engine, but a poor rudder.

Growing and giving are the best evidences of living.

Sponges gather easily, but they are quickly wrung dry.

The world does not need to make crosses for cowards.

Yesterday's success may be the secret of to-day's failure.

God can give us patience, but He can not give us practice.

It is better to be saved in a storm than drowned in a calm.

Religious teachers count for more than religious teachings.

We can easily bear afflictions when borne up by His affection.

GREAT LAKE CITIES.

Built from the Industries of the Lake Regions.

"The story of the development of the industries of the lake region and the growth of interlake commerce is written in the histories of the great cities of commercial and manufacturing importance which line the American shore of all the lakes.

"Chicago, the mistress of these inland seas, is the food market of the world and the commercial center of the American nation.

"The Great Lakes have made Buffalo the second city of importance in the Empire State, the greatest point of exchange between rail and water traffic on the globe, and the fourth port of the world in the volume of its tonnage," says a writer in Ainslee's Magazine.

"They have made Cleveland near the mid-shore of Lake Erie, an iron and steel center of manufacture, second only to Pittsburg.

"Detroit, the oldest city on the lakes, and most closely associated with their history, is also the most beautiful.

With nine miles of water frontage and a magnificent city park on one of the large islands in the river, it is even more picturesque in its approaches than Cleveland-on-the-Bluffs. It has grown so steadily in commercial importance that its business characteristics now possess a greater interest than either its scenic features or historic localities.

"Milwaukee, the second city of importance on Lake Michigan, is the brewing center of the world, but it manufactures more iron than beer, and nearly half as much flour, and does an immense business in meats and leather.

"Duluth, the commercial ruler of Lake Superior, has achieved a greatness almost equal to that predicted in the hyperbolic ridicule of Proctor Knott.

"All of the cities of established commercial importance on the Great Lakes, except Duluth, have large shipyards, equipped for the construction of even the largest types of ocean vessel, Buffalo, Cleveland, Toledo, Chicago, Milwaukee and Bay City, at the head of Saginaw Bay.

"Just across the St. Louis river from Duluth, her sister city of West Superior also has large shipyards, and it is there that the whalebacks, the curious craft that look like a huge boiler afloat, are built."

Husband Management.

There is one secret, and only one, which it is allowable, even advisable, for a wife to conceal from her husband—the secret that she manages him; not one of their friends or acquaintances must have an inkling of it, says the Lady's Realm. A man managed publicly is a degraded spectacle; a dictatorial order or a rude assumption of authority before even the nearest relative is in abominable taste, and the husband, if he have an ounce of spirit, will resent it.

Wrong Definition.

"Love," said the poet, "is a mystic influence; it is a message and a response, voluble in a flash of thought; it conquers time and distance, and its exchange requires no medium for transmission." "That's not love," said the practical man; "you're talking about wireless telegraphy now!"

The would-be humorist rubs it in on the mother-in-law occasionally, but realizing which side of his butter the bread is on, he lets the father-in-law religiously alone.

With the exception of lovemaking, there are many new ways of doing old things.

LEADING BUSINESS FIRMS OF EASTERN OREGON.

LOUIS HUNZIKER. PRACTICAL WATCHMAKER, JEWELER AND OPTICIAN. Diamonds, Watches, Jewelry, Silverware, Optical Goods, Cut Glass. 726 Main Street. PENDLETON, Oregon.
