

Pains in the Back

Are symptoms of a weak, torpid or stagnant condition of the kidneys or liver, and are a warning it is extremely hazardous to neglect, so important is a healthy action of these organs.

They are commonly attended by loss of energy, lack of courage, and sometimes by gloomy foreboding and dependency.

Hood's Sarsaparilla

cures kidney and liver troubles, relieves the back, and builds up the whole system.

Bighead—Do you think that gossip is increasing?
 Gayboy—By no means. Every day there is an increase in the number of things done that one must not talk about.

New Birth Record in Texas.
 A Mexican woman at El Paso, Texas, has given birth to two healthy children, the second one born six weeks after the first. The case has caused considerable comment among physicians.

Cancerous Sores

are most frequently to be seen upon the face, neck or breast, though they are liable to appear upon other parts of the body. When they begin to spread and eat into the flesh, sharp, piercing pains are felt as the underlying tissue is destroyed and the tender nerves exposed. Cancerous sores develop from very trifling causes; a carbuncle or boil, swollen gland, a little watery blister on the tongue or lip, a wart, mole or bruise of some kind becomes an indolent, festering sore, which in time degenerates into cancer.

"Ten years ago I had a sore on my left temple, which the doctors pronounced a cancerous ulcer; it would itch, burn and bleed, then scab over, but would never heal. After taking S.S.S. while the sore began to discharge, and when all the poisonous matter had passed out it got well. I took in all about thirty bottles, continuing it for some time after the sore had healed, to be sure all the poison was out of my system. Have seen no sign of the cancer in ten years."

RECENT JUDICIAL DECISIONS.

That one is a general agent of an insurance company for a defined territory is held, in Insurance Co. of N. A. vs. Thornton (Ala.), 55 L. R. A., 547, to give him no power to bind the company by contracts entered into outside of his territorial limits.

The right to designate the route of through shipments at through rates is held, in Post vs. Southern Railroad Company (Tenn.), 55 L. R. A., 481, to belong to the carrier, and not to the shipper, in the absence of a sufficient or controlling reason to the contrary.

An agreement by the holder of a mutual benefit certificate to be governed by by-laws subsequently enacted is held in Gaut vs. Supreme Council A. L. of H. (Tenn.), 55 L. R. A., 465, not to authorize the reduction of the benefit called for by his certificate, after he has for years paid assessments on its original value.

An insurance company is held, in Franklin F. Ins. Co. vs. Bradford (Pa.), 55 L. R. A., 408, to be liable on a policy properly signed and delivered by a subagent of its duly authorized agent, although it has expressly forbidden the agent to insure the property covered by the policy and the agent has no knowledge that the policy has been written and the premium collected.

That an assault committed by a dog in jumping upon a stranger and injuring him resulted merely from its mischievous or playful propensity is held, in Crowley vs. Groonell (Vt.), not to absolve the owner from liability if he knew of its disposition to commit such injuries, or knew enough of its habits to convince a man of ordinary prudence of its inclination to commit them.

Using a part of a railroad location outside of the space occupied by the tracks for the abutments and approach of a bridge constructed to carry an existing highway over the road so as to abolish a grade crossing is held, in Boston & A. R. R. Co. vs. Worcester (Mass.), 55 L. R. A., 623, not to be the imposition of a new easement on the railroad right of way so as to entitle the railroad company to compensation therefor.

A defendant is held, in Travelers' Protective Association vs. Gilbert (C. C. App., 5th Cir.), 55 L. R. A., 538, to have no right to avoid a judgment against it on the ground that its agent on whom the process was served misapprehended the nature of the act, believing he was not the proper person to receive service and therefore failed to notify defendant, which was thereby deprived of the opportunity of making a defense.

A judgment for alimony in favor of a wife, the right to which becomes vested by force of statute upon a decree of divorce for the fault of the husband, is held, in Coffman vs. Finney (Ohio), to be a debt against the husband, subject only to variation in amount in case of appeal, which, upon the death of both parties pending appeal, will survive in favor of the personal representative of the wife, and against the personal representative of the husband.

One who is only indirectly and remotely affected by a bylaw of a voluntary association prohibiting its members from dealing on the market either with members engaged in the same business or with others who deal with such members and making a violation thereof punishable by fine or expulsion from the association, is held, in Downs vs. Bennett (Kas.), 55 L. R. A., 500, to have no right to maintain an action of injunction to restrain the association from fining or expelling a member for his violation of such bylaw.

High Art and Low Theft.
 From time to time we hear of some melancholy connection between great literature and petty larceny. Such a case is brought to the public notice by Mrs. Lewis in the Expository Times. Leaf 101 of the Lewis Syriac palimpsest has disappeared from the library of the monastery on Mount Sinai, says the London Academy. Mrs. Lewis gives a fac simile of it and says that she missed it at Mount Sinai last February, but the monks had already discovered their loss. "I was informed that a party of several scholars had worked for some time at that MS. during the course of last summer, and it is safe to suppose that a fair number of passing travelers had been permitted not only to look at it, but also to handle it. My surmise is that one of these latter, wishing to make an addition to his own collection of curios, had slipped the leaf between the pages of a book in the fond belief that it would never be missed."

An Impression.
 "You say you are going to stop being a reformer?"
 "Yes."
 "But it must be a great and glorious thing to expose the various frauds."
 "It used to be. But there is too much competition. It won't be long before there aren't frauds enough to go around."
 From latest statistics the Hebrew population of New York City is estimated at over half a million.

Buried Towns.
 Italy is not the only country that can boast of its buried towns and villages, says the People's Friend. In Scotland there are the Culbin Sands, covering a large tract of country, under which many dwellings lie entombed; while in Ireland there is the ancient town of Bannion, situated in a once fertile tract between Wexford and Waterford, as effectually covered with sand as ever Pompeii was with red-hot clinders or Herculaneum with lava.

Mania for Picture Postals.
 The extraordinary development of the German mania for picture postcards is attested by the total number of cards which passed through the post in 1900—no fewer than 730,000,000.

THE NEW WOMAN.

Mrs. Emma Mitchell.

Mrs. Emma Mitchell, 520 Louisiana street, Indianapolis, Ind., writes: "For the past five years I have rarely been without pain, but Peru has changed all this, and in a very short time. I think I had taken only two bottles before I began to recuperate very quickly, and seven bottles made me well. I do not have headache or back-ache any more, and have some interest in life."—Emma Mitchell.

The coming of what is known as the "new woman" in our country is not greeted by everyone as if she were a great blessing. But there is another new woman whom everybody is glad to see. Every day some invalid woman is exclaiming, "I have been made a new woman by Dr. Hartman's home treatment." It is only necessary to send name, address, symptoms, duration of sickness and treatment already received to Dr. Hartman, Columbus, Ohio, and directions for one month's treatment will be promptly forwarded. If you do not receive prompt and satisfactory results from the use of Peru, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, O.

MISSOURI NOW LEADS.

Center of Apple Production Shifts Westward from Alleghanies.
 The center of Uncle Sam's apple bin has been shifted west of the Alleghanies, and the state that leads in the growing of the national fruit is Missouri. This is the burden of a paper read by Professor W. A. Taylor, pomologist in charge of field investigation in the United States department of agriculture before the national convention of apple shippers at Rochester, N. Y. Professor Taylor completed his paper some time ago, but just before the time of reading it he received from the census department advance sheets of statistics bearing on the apple industry of the United States, compiled from statistics gathered for the Twelfth census, the matter being brought down to June, 1900.

According to these figures the total number of bearing trees in the United States is 210,000,000, an increase of 75,000,000, or more than 40 per cent over the apple area of 1890. The commercial area of 1900 yielded in 1890 somewhat more than 175,000,000 bushels of apples.

By districts, the north Atlantic apple section has 39,500,000 trees; the south Atlantic 25,500,000; the north central, 92,000,000 the south central, 32,000,000, and the Western district, including the Rocky mountain states and the Pacific slope, 13,000,000.

Out of the total number of trees in the country, the north and south central districts possess 23,205,000, or nearly three-fifths. These are divided among the leading states as follows: Missouri, 20,000,000; New York, 15,000,000; Illinois, 13,500,000; Kansas and Pennsylvania, a little less than 12,000,000 each.

Gray Hair
 "I have used Ayer's Hair Vigor for over thirty years. It has kept my scalp free from dandruff and has prevented my hair from turning gray."—Mrs. F. A. Soule, Billings, Mont.

There is this peculiar thing about Ayer's Hair Vigor—it is a hair food, not a dye. Your hair does not suddenly turn black, look dead and lifeless. But gradually the old color comes back,—all the rich, dark color it used to have. The hair stops falling, too.

Of the product of this well-known brewery, the United States Health Reports for June 29, 1900, says: "A more superior brew never entered the laboratory of the United States Health Reports. It is absolutely devoid of the slightest trace of adulteration, but on the other hand is composed of the best of malt and choicest of hops. Its tonic qualities are of the highest, and it can be used with the greatest benefit and satisfaction by old and young. Its use can conscientiously be prescribed by the physicians, with the certainty that a better, purer or more wholesome beverage could not possibly be found."
