In the Light of Later Knowledge.
Your husband, I suppose, still
keeps up his habit of taking two baths
a day, as prescribed by that physical
culture teacher?

An Abbreviation Explained.
The origin of the symbol "cwt." for
hundredweight is as follows: C is the
initial letter of the Latin word
"centum," meaning a hundred, and we
are the first and last letters of the word
"weight," and are used as a contraction
for it.

PULLING TEETH.
No Pain, and Doesn't Cost Much, at
Wise Bros., Portland, Oregon.
The wonderful changes accomplished
by advertising dentists are well illus-
trated by the fame of Wise Brothers,
whose offices are in the Failing build-
ing, Third and Washington streets,
Portland, Oregon. It is true that you
can have a tooth pulled entirely with-
out pain and that the cost of false teeth
is very moderate. This great advance
in dental surgery is one of the blessings
of the present age. Establishments
like that of Wise Brothers in Portland
render it about as pleasant to fit your-
self out with new teeth as to acquire
any other article of wear and usefulness.
We suggest that our readers
watch the Wise Brothers' advertise-
ments and act upon them.

He Set it, All Right.
Bill Collector—You say you intend
to pay this bill some time. Can't you
set a certain day?
Lawyer Furst—Yes; judgment day.

A Feast of Good Things in St. Nicholas
for 1903.
St. Nicholas announces for 1903
"The Story of King Arthur," written
and illustrated by Howard Pyle, a com-
panion story to his famous "Robin
Hood." Two short stories by Miss
Alcott, will soon appear in St. Nicho-
las, with other stories and articles by
other well known writers. St. Nicho-
las makes a specialty of papers of infor-
mation, richly illustrated articles on
practical subjects, like the navy yard, the
assay office, etc.
The price of St. Nicholas is three dol-
lars a year. The publishers announce
that new subscribers who begin with
January may receive the November and
December numbers free.

CATARRH THIRTY YEARS.

The Remarkable Experience of a
Prominent Statesman—Congress-
man Meekison Gives Pe-ru-na
a High Endorsement.

Congressman Meekison, of Ohio.
Hon. David Meekison is well known
not only in his own state, but through-
out America. He was elected to the
Fifty-fifth congress by a very large ma-
jority, and is the acknowledged leader
of his party in his section of the state.
Only one flaw marred the otherwise
complete success of this rising states-
man. Catarrh with its insidious ap-
proach and tenacious grasp, was his
only unconquerable foe. For 30 years he
waged unsuccessful warfare against
this personal enemy. At last Peruna
came to the rescue. He writes:

"I have used several bottles of Pe-
runa and I feel greatly benefitted
thereby from my catarrh of the head.
I feel encouraged to believe that if I
use it a short time longer I will be
fully able to eradicate the disease of
thirty years' standing."—David Meek-
ison, Member of Congress.

If you do not derive prompt and
satisfactory results from the use of Pe-
runa, write at once to Dr. Hartman,
giving a full statement of your case and
he will be pleased to give you his val-
uable advice gratis.
Address Dr. Hartman, President of
The Hartman Sanitarium, Columbus,
Ohio.

Marriage Would Cure.
Mr. Gumpss—That boy will never be
good for anything until he marries.
Mrs. Gumpss—I suppose not.
Mr. Gumpss—No; he's got to get
over the habit of hanging around the
house.—New York Weekly.

Success in Sight.
"Now," said the irate debtor, "if
you disturb me again you'll get what
you're looking for."
"Thanks," said the urbane collector.
"I will try to make it convenient to
disturb you about this time tomorrow."

Pleasant Cure.
"Can you tell me, mama, what my little
boy," asked mamma, "so that he won't
want to eat between meals?"
"Have we meals ficker together," re-
plied the young hopeful.—Tit-Bits.

Discouraging Prospect.
The boy was greatly troubled.
"Is it true, father," he asked, "that
they have whipping posts in some
states?"
His father assured him that it was.
"Are they whip grown people?"
asked the boy.
"When they deserve it," said the
father.
"Will," asserted the boy, with con-
viction, "I don't see what's the use of
growing up."—Booklyn Eagle.

Here is a beautiful and simple ex-
periment. Take an ordinary square
wooden ruler and cut off a piece about
30 inches in length.
Next take a thin piece of wire, which
must be somewhat longer than the
longer portion of the ruler, and twist
each of its two ends into a little ring.
After this is done nail the rings to the
two ends of the larger portion of the
ruler and then place the smaller por-
tion under the wire in the same por-
tion that a string of a violin is placed
on a bridge.
Now, if you strike the wire it will
give forth a sound, and this sound will
change according to the pressure of
your finger.

Next cut, out of cork, a few little
figures. They must resemble dancers,
and you can make them more pictur-
esque by giving them a coat of oil
paint. Moreover, under each there
must be three supports, which are to
be stuck into the cork, and can be
made out of little bits of wire. These
miniature dancers are to be placed on
a tin floor (the top or bottom of any
common tin box will suffice for this
purpose), the edge of which is to be
nailed to the upright portion of the
ruler in the manner shown in the ac-
companying picture.
The dancers are now to be dipped in
soap and water and the tin floor is to
be moistened with the same fluid. Im-
mediately afterward the figures should
be placed in position on the floor and
a large soap bubble should then be
blown over them, and in such a man-
ner that it will rest on the floor.
As a result we have as beautiful a
ballroom as one could wish to see.
Moreover, we can have music and
dancing, for if we strike the wire the
vibrations will act on the tin floor of
the ballroom and the tiny figures will
begin to dance enthusiastically and
will continue to dance as long as we
furnish them with music.

WALK ON STILTS.

A Picturesque Method of Locomotion
in Southwestern France.
In southwestern France there is a de-
partment known as Landes, bordering
on the Bay of Biscay, which is among
the most desolate and unproductive re-
gions in Europe. It has an area of
nearly 4,000 square miles and a popu-
lation exceeding 300,000. While the east-
ern portion of this department is fertile
enough to permit of successful agricul-
ture, the western portion consists only
of desolate tracts of sand banks,
marshes and swamps, covered with
heath and dwarf shrubs. The inhabi-
tants live in scattered villages of mis-
erable huts and subsist by fishing and

hunting and the raising of swine and
sheep. The latter are of a wretched
breed, thus partaking of the nature of
their country.
The chief peculiarity of the inhabi-
tants is that they walk on stilts, the
use of the latter greatly aiding locomo-
tion on the arid lands and salt marshy
plains. Illustrative of this method of
locomotion we print a picture from the
Illustrated London News showing the
peasants on the way to market. The
inhabitants are chiefly of the Gascon
race, and while rude and naturally
poor they are good-natured and hos-
pitable.

A Sorrowing Kansas Widow.
In her "card of thanks" a Miami
County widow, after thanking every-
body else, concluded: "I also thank
the band for its consoling music and
Mrs. Avering, the milliner, who fur-
nished me such becoming mourning.
My dear husband's farm is for sale as
soon as proper legal steps can be taken,
and will be sold at a bargain. Oh,
death, thou art terrible."
Mile a Minute in a Balloon.
Sixty miles in sixty minutes was the
record made by Mr. Spencer, the aer-
onaut, in a balloon with which he as-
cended at Morley, Yorkshire, and came
to earth near Thirst.

RHEUMATISM
CANNOT BE RUBBED OUT

But a good liniment or plaster will often give
temporary relief because it produces counter
irritation or reduces the inflammation and sore-
ness. But no sort of external treatment can have
any effect whatever upon the disease itself, for
Rheumatism is not a skin disease, but
is due to an over acid condition of the blood, and
the deposit of irritating matter or Uric Acid
salts or sediment in the muscles and joints, and
no amount of rubbing or blistering can dislodge
these gritty particles or change the acid blood.
Rheumatism often becomes chronic, and the mus-
cles and joints permanently stiff and useless and
the nervous system almost wrecked, because so
much time is lost in trying to cure a blood disease
with outside applications or doctoring the skin.

Rheumatism must be treated
through the blood, and no remedy
brings such prompt and lasting relief
as S. S. S. It attacks the disease in
the blood, neutralizes the acids, and
removes all irritating or poisonous
substances from the system.
S. S. S. strengthens and enriches
the thin acid blood, and, as it cir-
culates through the body, the corroding,
gnawing poisons and acid deposits
are dislodged and washed out of the
muscles and joints, and the sufferer
is happily relieved from the discom-
forts and misery of Rheumatism.

Louisville, Ky., March 27, '08.
Gentlemen—I am glad to say that
S. S. S. has cured me of Rheumatism.
About two years ago I suffered from
Rheumatism in my knees and feet,
my ankles swelling so that I could
not put on my shoes. This continued
for several months, during which
time I was applying liniments and
going by my physician's directions,
but derived no benefit. I was told
of S. S. S. and tried it. I immedi-
ately got relief, and continued the
medicine until I was entirely well.
2108 Floyd St. D. J. DUANE.

External remedies are all right so far as they go, but they don't go far
enough, and you can't depend upon them to do the work of a blood purifier,
and those who pin their faith to liniments and plasters as cures are bound
to meet with disappointment, and will be nursing a case of Rheumatism the
greater part of their lives.
S. S. S. is a purely vegetable remedy,
does not contain any Potash or mineral
of any kind, and can be taken with
safety by old and young.

Rheumatic sufferers who write us
about their case will receive valuable
aid and helpful advice from our
physicians, for which no charge is made.
We will mail free our special book on
Rheumatism, which is the result of
years of practical experience in treating this disease. It contains in a
condensed form much information about Rheumatism.
