The first result of bringing the Jim Crow car law before the courts in New Orleans results in a dismissal of the charge against the officers of one of the lines of street cars who refused or neglected to have their cars partitioned off as the law directed, although the law has been in force in that city only since the 1st of November. It was generally disregarded and now since the refusal of the courts to punish for the violation of the same it is apt to become a dead letter, but it would be better to have it carried to one of the higher courts and decided on its merits.

In many ways the President is showing that he does not judge a man by the color of his skin. Two of his latest acts which have endeared him to the Afro-Americans of this country are his refusal to withdraw his nominee for a prominent office in South Carolina when objected to on account of color and in the appointment of two of our leading representative citizens to important lucrative positions, viz: Thos. T. Fortune as a special commissioner to investigate the condition of our insular possessions and John S. Durham, of South Carolina as assistant attorney to the Spanish Claims Commission.

E. church, select reading by Mrs. R. C. Williams, address of welcome by Rev. Tolson. Lack of space forbids a more extended notice of Rev. Tolson's remarks which were hearty ringing words of cheer and welcome. Mesdames Newman and Gray's duet was rendered in their usual excellent manner, after which Rev. Moore responded in an eloquent address which won the hearts of his auditors. Mr. W. H. Carter's bass solo closed the program, after which a pleasant hour was passed in the vestry in social conversation and an opportunity was given to become acquainted with the new pastor, whilst light refreshments were served.

PORTLAND HOTEL NOTES.

Math, Holson is a victim of somnambulism.

Why don't the waiters give a benefit for their sick comrade, Mr. George Gardner?

The New Age is in great demand on Saturdays by all the waiters, but we are sorry to say that very few are subscribers. Only a borrower and a rubber neck.

We are glad to say that the waiters at the Portland, with few exceptions, are learning the art of saving their earnings. Some have bought homes and paid for them and others are buying.

It is quite amusing and some times interesting to hear David Lee and Intelligent Jim, two old war veterans, discuss the merits and demerits of certain men and measures. Lee was in the civil war and Jim was an officer in Coxe's army. Lee may have fought, or he may have not; we have his word that he did of course. He has no scars to show for it. Jim during his famous march across the country to Washington fought any old thing to eat he could get. But from the way he choked a man this week he wants to re-enlist in some kind of war.

Miss Ethel Butler entertained at dinner Thanksgiving Day: Miss Barbara Davis, of Seattle; Messrs. Edw. F. Meyer, of Bremerton and E. S. Bruce. The dinner was prepared solely by Miss Butler which demonstrated her ability in that line. She has few equals if any superiors. Nothing could have been improved upon. In the evening a few friends were asked down in honor of Miss Davis and Mr. Meyer. Prof. Jno. Hall was on hand with his orchestra and the time was spent in dancing. At twelve o'clock "Home, Sweet Home" was played, much to the regret of all present.

New York has 1,323 fewer stables and 8,660 fewer horses than in December, 1896. The decrease is attributed to the disappearance of horse cars on surface lines. Novel first-aid-to-the-injured boxes are to be scattered in the streets of Paris. The regulation of automobile speeds is likely to prove an increasingly serious matter. In a late instance careful measurement for two furlongs showed a speed of eighteen miles an hour, yet the driver testified that he was not exceeding a rate of six miles. Perhaps some inventor may supply police authorities with a cheap continuous speed recorder whose attachment to motor vehicles may be made compulsory.

An investigation followed, and the postman's explanation proved to be correct.

The most curious part of an advertisement now running in some of the English papers of a wonderful charm "worn by Pharaoh 4,000 years ago," and guaranteed to "bring success in business, fortune in speculation and happiness in home life, health, strength and vigor," and for sale by the advertiser, is a report, incorporated in the advertisement, from St. Chad Boacaven, of the British Museum, certifying that the article submitted to him is often found on Egyptian mummies, and "its magical use is undoubted."

A DOZEN DIFFERENT WAYS. When the ordinary citizen intends to go east, or send for friends or relatives to come west, the choice of routes is a question that always bothers him. He wants to know if the same route he used once, some time ago, makes the same connections, if the price is the same, if it costs the same to go east that it did to come west. Possibly he has heard or read of famous points of interest in the west or middle west that he overlooked on the trip he made. Did not see them because he had not time; did not know he could for the same money; did not know he could get a stopover. There are hundreds of questions he would have asked, many things he would like to have seen and many accommodations he could have enjoyed, only he did not have time to look into the subject, and it was too much bother anyway.

Here is a suggestion that will save you all that trouble, vexation and regret. The Illinois Central Railroad Company runs east and south from St. Paul, Omaha and St. Louis, and north from New Orleans. At these points it connects with all the western trunk lines, and through them, with all their western connections. The Illinois Central does not care which line you use in the west, because it connects with all of them. It is absolutely impartial to all. All you have to do is to drop us a note: tell us your destination and starting point. Is there anything in the whole glorious west that you want to see on the way? Mention it. We will arrange for it if it can be done. Perhaps you will want a stopover. We will arrange that too if it is possible for anyone to do it. Just make a suggestion as to the western line and we will elaborate it for you; tell you the time you should start when you should arrive at destination, what accommodations you will enjoy, what it will cost you, an itinerary for the trip, and will do anything that we possibly can to make your journey pleasant and comfortable. That's what we are here for. We have headquarters in Portland; agents in Portland and Seattle, and traveling agents that will come and talk it over with you any time and at any place in the Northwest without its costing you a cent more than a postage stamp. Chicago business is a specialty with us, but we have our own rails in a dozen different states east of St. Paul, Omaha and New Orleans, and can ticket you to these gateways over a dozen different routes. Write us. By the way, do you want a nice wall map of the United States, Cuba and Porto Rico? Send us six cents to pay postage. B. H. TRUMBULL, Comm. Agt. Illinois Cent. R.
