QUEER STORIES

The velocity of the wind at the height of one mile above the earth is four times as great as at the surface.
A man worth \$5,000,000 to-day is no richer, as related to the aggregate wealth of the United States, than a man worth \$370,000 in 1850.

There have been thirty-three Speakers of the national House of Representatives. Eleven of them became United States Senators and one of them, James K. Polk, of Tennessee, President of the United States.

Most animals are afraid of fire and will fly from it in terror. To others there is a fascination about a flame, and they will walk into it even though tortured by the heat.

Warning Issued by the General Land Office at Washington.
Every summer and autumn large areas of public and private forests are devastated by fire.

FOREST FIRES.
The law provides a maximum fine of \$5,000, or imprisonment for two years, or both, if the fire is set maliciously, and a fine of \$1,000, or imprisonment for one year, if the fire is due to carelessness.
