When the protector disappeared from Newport, Va., representatives of the Lake Submarine company admitted she had been sold to persons who would transfer her to one of the belligerants in the Far East, but gave the impression that Japan would be the nation to secure the craft.

NEW HOPE FOR PEACE.

Diplomacy May Soon Enter Into the Far Bastern Struggle.

Washington, July 5. - While the officials here are satisfied from their private advices that the recent visit of King Edward to his nephew, Emperor William, was not brought about by a purpose to initiate a movement toward the restoration of peace between Russia and Japan, there is reason to believe that some very careful and discreet inquiries as to the opportunities of some such overtures at this time have emanated from Washington. It may be stated that the result has been to disclose the fact that neither of the belligerents was yet in the humor to sue for peace, nor even to entertain overtures from any third power on that subject.

GRAIN CROP SHORT

PRODUCE 33,584,970 BUSHELS. Amount is Far Below That of Pormer Years-Exports Also Show a Heavy Falling Off-Much Wheat Made Into Flour-Basters and California Markets Drew on Northwest. The cereal year of 1903-04, brought to an end July 1, was remarkable for the

shrinkage of the shipping business of the North Pacific ports. This falling off in exports was occasioned by the decrease in the wheat yield of Oregon, Washington and Idaho as compared with the few preceding years. The three states produced last year 33,584,-The state department will continue 970 bushels of wheat against 41,679,435 bushels in 1902 and 463,64,238 bushels in 1901.

OREGON, WASHINGTON, AND IDAHO

Shipments from Portland in the past 12 months, including flour as wheat. were 8,400,865 bushels, compared with 14,099,282 bushels in the preceding year, and 16,57429,5 bushels two years ago. Puget sound shipments show the same ratio of decrease, having been 11,-868,148 bushels as against 18,073,818 bushels in 1902, and 18,825,007 bushels in 1901.

A portion larger than usual of the wheat in the past, season went into flour, due in large measure to the heavy requirements of the Orient just before the war between Japan and Russis broke out. Another feature of the season was the demand from Eastern markets for Northwestern wheat. Shipments from this coast to Chicago and St. Louis were made possible for a short time by the speculative excitement in the Middle West caused by the Armour corner and 1,483,957 bushels of Northwestern wheat found their way across the Rockies against only 300,000 bushels so shipped the year before.
With the short supply in this section, there was a still greater shortage, comparatively speaking, in California, which necessitated the movement of a large quantity of wheat southward, and thus reduced the amount available for over-sea shipment. Furthermore the demand from the Antipodes, that was so prominent in 1902-03, was lacking. Consequently the cargoes that were sent abroad from Northwest ports in the year just closed were much less in number than in the preceding year.

There is hardly a question but than the Pacific Northwest will this fall har-

vest the greatest wheat crop in its his-tory. Fifty million bushels is believed by leading men in the grain trade to be a conservative estimate. The drouth, if long continued, will affect the yield, but ten days more of lack of rain will not endanger the crop. After that a continuance of dry weather will become more serious. It is conceded that the output of the valley will be light and spring grain is suffering from lack of moisture in some sections east of the mountains, but the great bulk of the crop is as yet in no danger.

Bonesteel, S. D., July 2.—The gov-ernment has ordered three companies of regular troops to Bonesteel to assist the local authorities in preserving or-der during the rush incident to the opening of the Rosebud reservation, which will occur July 5. The first serious incident in connection with the rush occurred last night when "Kid" English, a cook, was fatally shot by Police Captain Ault.
